

▼ 2022 Annual Report

PennyMac Financial Services, Inc. (NYSE: PFSI) is a specialty financial services firm with a comprehensive mortgage platform and integrated business focused on the origination, acquisition, and servicing of U.S. residential mortgage loans and the management of investments related to the U.S. mortgage market.

PennyMac was founded in 2008 by members of our executive leadership team, and two strategic partners, BlackRock Mortgage Ventures, LLC and HC Partners, LLC. Since our founding, we have pursued opportunities to acquire, originate and manage mortgage loans and mortgage-related assets and established what we believe is the leading residential mortgage platform in the U.S.

We manage PennyMac Mortgage Investment Trust (NYSE: PMT), a publicly-traded mortgage real estate investment trust (REIT). PMT is a tax-efficient vehicle for investing in mortgage-related assets and has a successful track record of deploying and managing capital in mortgage-related investments for more than 13 years.

Dear Fellow Stockholders,

PennyMac Financial Services, Inc. (NYSE: PFSI), along with PennyMac Mortgage Investment Trust (NYSE: PMT) and their affiliates (collectively "Pennymac") celebrated their 15th anniversary in January and I am extraordinarily proud of what we have accomplished while simultaneously ascending to become one of the premier mortgage companies in the United States. As expected, 2022 was a year of transition for the mortgage industry as the Federal Reserve's tightening of monetary policy to address inflationary concerns drove a rapid and significant increase in mortgage rates, which ended the year at the highest levels observed in the last 15 years. As a result, the size of the mortgage origination market, according to *Inside Mortgage Finance*, declined from \$4.4 trillion in 2021 to \$2.3 trillion in 2022.

Nonetheless, our financial results continue to distinguish PennyMac Financial, highlighting the strength of our balanced business model with industry-leading production and servicing businesses. In fact, for the full year, PennyMac Financial reported net income of \$476 million on revenue of \$2.0 billion, or a return on equity of 14 percent, with the majority of earnings derived from our large and growing servicing portfolio. Diluted earnings per share were \$8.50, which drove an increase in book value per share to nearly \$70 at year-end, up 16 percent from year-end 2021. This strong financial performance enabled us to continue investing in the technology we believe will be critical to our continued success while also returning a meaningful amount of capital to our stockholders through stock repurchases and dividends.

As mortgage rates began to rise in 2022, we acted early and intentionally to take the difficult yet necessary steps to prudently resize our business to the smaller origination market. This prudent and thoughtful action was a driving contributor to our strong profitability and returns last year. In 2022, Pennymac generated new residential mortgage loans totaling \$109 billion in unpaid principal balance (UPB), making it the third largest mortgage producer in the country. Driving these results was a continued focus on our correspondent seller network and our ongoing emphasis on purchase-money loans, which accounted for 73 percent of our total production for the year versus 67 percent for the industry overall, according to *Inside Mortgage Finance*.

Although current forecasts for the size of the origination market in 2023 average \$1.7 trillion, down more than 20 percent from 2022, I am optimistic for market share growth across our production channels in the near future given emerging market trends and competitive dynamics. In correspondent production, a major and well-respected competitor, Wells Fargo, recently announced its exit from the channel; and while its decision was strategic and not related to market conditions, we see a meaningful opportunity to increase our market share as many of

the independent mortgage banks, community banks and credit unions with whom Wells Fargo previously maintained strong relationships with have turned to Pennymac as a trusted capital partner and liquidity provider for their mortgage operations.

Through the strength of our leading correspondent production business, we have organically increased the size of our mortgage servicing portfolio to over \$550 billion with 2.3 million customers. Our servicing portfolio is a critical component of the success we have achieved in the consumer direct lending channel. In the current market environment, through our industry-leading production business, we are adding a significant amount of higher note rate servicing to the portfolio and growing the number of ongoing relationships we maintain with borrowers. We believe this servicing portfolio growth attractively positions our consumer direct lending channel in the future, as we will have the opportunity to offer these borrowers a lower rate mortgage in the form of a refinance when interest rates decline.

In broker direct, intense levels of competition throughout 2022 drove many participants to reduce their participation or exit the channel entirely. We are highly focused on this channel and have continued to invest in and deploy next-generation technology, driving a more efficient, precise, and convenient loan process for our broker partners and helping to modernize their businesses. Our focus on this channel has driven increased interest from some of the top brokers across the country who are looking to either initiate or expand their existing relationships with us.

Our multi-channel approach to loan production provides us the flexibility to adapt to different market conditions, and drives the aforementioned organic growth of our servicing portfolio since we retain the mortgage servicing rights (MSRs) on nearly all of our mortgage production. In 2022, \$109 billion in UPB of total mortgage production more than offset \$67 billion in UPB of mortgage loan runoff, and our servicing portfolio ended the year up 8 percent from year-end 2021.

Our servicing portfolio is a key component of our balanced business model and the reason we are able to continue to provide attractive returns in the smaller mortgage origination market. While we expect organic growth of the portfolio to continue in 2023, we also see the potential to opportunistically add additional servicing in the form of bulk MSR acquisitions. These opportunities are not only expected to come from Wells Fargo, who publicly announced plans to reduce the size of its servicing business, but also from other originators seeking to generate liquidity in what is undoubtedly a very challenging origination market.

We view PennyMac Financial's large and growing servicing business as a strategic asset, critical to our continued growth and success as a leading residential mortgage company. This view is why we have invested heavily throughout our history in the technology, systems and workflows that have enabled us to profitably achieve economies of scale. In 2022 we began to leverage that scale further, entering into joint ventures and adding homeowners and title insurance to our already-robust suite of mortgage products. Though not a meaningful contributor to our financial results today, we expect these businesses to build over time, providing additional income streams and driving more frequent and meaningful engagement opportunities with our borrowers, which should further improve customer retention.

Equally as critical as our diversified mortgage operating platform is our long-standing and disciplined practices around liquidity and capital management. We issued a significant amount of unsecured senior notes in 2020 and 2021, strengthening our capital structure with low, long-term, fixed-rate debt. Higher market interest rates in 2022, however, resulted in conditions that were more advantageous to raise capital in the secured markets. To that end, in June we issued \$500 million of new secured term notes collateralized by Ginnie Mae MSRs and servicing advances at favorable terms. Thus far in 2023, we extended the maturity of \$650 million in Ginnie Mae MSR term notes originally due in February for two years; and we opportunistically raised \$680 million in the form of a term loan secured by Ginnie Mae MSRs. Given the opportunities we see to potentially pay down existing MSR term notes or acquire bulk MSR pools at more attractive prices, we feel PennyMac Financial remains extraordinarily well-positioned to continue executing even in a potential recession with higher delinquency levels. Our long-standing liquidity management disciplines, which include the hedging of mortgage servicing rights, have enabled us to leverage our strong capital position to lean into market opportunities as they arise, which we expect will drive increased market share across our businesses and higher earnings potential in the future as market conditions normalize.

We recognize that 2023 is expected to be another challenging year for the mortgage industry driven by an even smaller, more competitive origination market and the uncertain impact that higher interest rates will ultimately have on the broader economy. However, PennyMac Financial's large and growing servicing portfolio and access points to the origination market across all three production channels complemented by our strong risk management discipline give me confidence that we are best-positioned in the industry to continue profitably navigating the challenges presented by the current market environment.

While I am pleased with our results in 2022, I am even more excited for PennyMac Financial's future. Our long track record of growing stockholder value has been driven by our core values of being Accountable, Reliable and Ethical, and by the commitment we have made to our business partners and customers, helping them achieve their aspirations through the power of homeownership. I am inspired and humbled working alongside this deep and highly-experienced management team as they thoughtfully and deliberately ensure that we do the right thing every day for our customers, employees, investors, and other stakeholders. Thank you for your continued support and your confidence in PennyMac Financial.

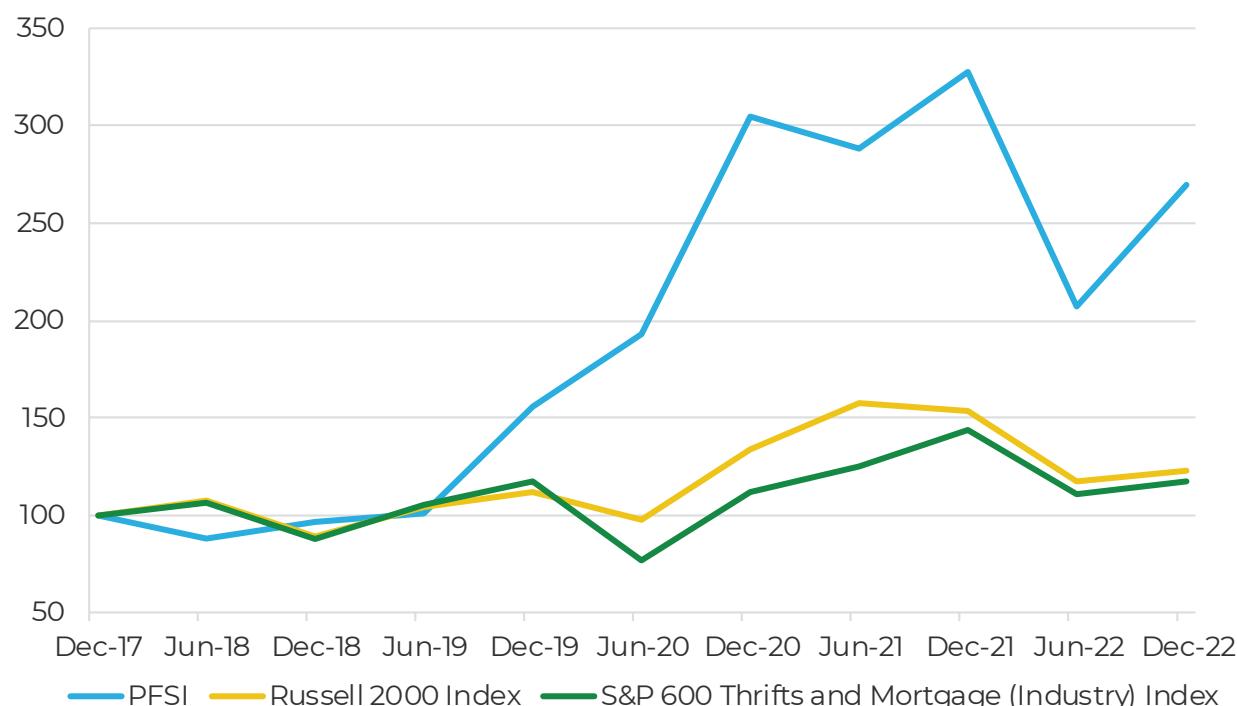

Sincerely,

David A. Spector
Chairman and Chief Executive Officer
April 21, 2023

STOCK PERFORMANCE GRAPH

The following graph and table describe certain information comparing the cumulative total return on our common stock to the cumulative total return of the Russell 2000 Index and the S&P 600 Thrifts and Mortgage (Industry) Index. The comparison period is from December 31, 2017 to December 31, 2022, and the calculation assumes reinvestment of any dividends. The graph and table illustrate the value of a hypothetical investment in our common stock and the two other indices on December 31, 2017.

	12/31/17	12/31/18	12/31/19	12/31/20	12/31/21	12/31/22

Stockholder inquiries

The Annual Report on Form 10-K of PennyMac Financial Services, Inc. filed with the SEC as well as other reports, can be accessed via our website at pfsi.pennymac.com or by emailing a request to PFSI_IR@pennymac.com.

As of March 31, 2023, we had approximately 27 common stockholders of record. This figure does not represent the actual number of beneficial owners of common stock because shares are frequently held in "street name" by securities dealers and others for the benefit of individual owners who may vote the shares.

Pursuant to Rule 303A.12 of the New York Stock Exchange Listed Companies Manual, each listed company CEO must certify to the NYSE each year that he or she is not aware of any violation by the company of NYSE corporate governance listing standards. David A. Spector's annual CEO certification regarding the NYSE's corporate governance listing standards was submitted to the NYSE on June 14, 2022.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K (this “Report”) contains certain forward-looking statements that are subject to various risks and uncertainties. Forward-looking statements are generally identifiable by use of forward-looking terminology such as “may,” “will,” “should,” “potential,” “intend,” “expect,” “seek,” “anticipate,” “estimate,” “approximately,” “believe,” “could,” “project,” “predict,” “continue,” “plan” or other similar words or expressions.

Forward-looking statements are based on certain assumptions, discuss future expectations, describe future plans and strategies, contain financial and operating projections or state other forward-looking information. Examples of forward-looking statements include the following:

- projections of our revenues, income, earnings per share, capital structure or other financial items;
- descriptions of our plans or objectives for future operations, products or services;
- forecasts of our future economic performance, interest rates, profit margins and our share of future markets; and
- descriptions of assumptions underlying or relating to any of the foregoing expectations regarding the timing of generating any revenues.

Our ability to predict results or the actual effect of future events, actions, plans or strategies is inherently uncertain. Although we believe that the expectations reflected in such forward-looking statements are based on reasonable assumptions, our actual results and performance could differ materially from those set forth in the forward-looking statements. There are a number of factors, many of which are beyond our control that could cause actual results to differ significantly from management’s expectations. Some of these factors are discussed below.

You should not place undue reliance on any forward-looking statement and should consider the following uncertainties and risks, as well as the risks and uncertainties discussed elsewhere in this Report and as set forth in Item 1A. of Part I hereof and any subsequent Quarterly Reports on Form 10-Q.

Factors that could cause actual results to differ materially from historical results or those anticipated include, but are not limited to:

- interest rate changes;
- changes in macroeconomic and U.S. real estate market conditions;
- the continually changing federal, state and local laws and regulations applicable to the highly regulated industry in which we operate;
- lawsuits or governmental actions if we do not comply with the laws and regulations applicable to our businesses;
- the mortgage lending and servicing-related regulations promulgated by the Consumer Financial Protection Bureau (“CFPB”) and its enforcement of these regulations;
- our dependence on U.S. government-sponsored entities and changes in their current roles or their guarantees or guidelines;
- declines in real estate values or significant changes in U.S. housing prices or activity in the U.S. housing market;
- changes to government mortgage modification programs;

- foreclosure delays and changes in foreclosure practices;
- the licensing and operational requirements of states and other jurisdictions applicable to our businesses, to which our bank competitors are not subject;
- our ability to manage third-party service providers and vendors and their compliance with laws, regulations and investor requirements;
- our exposure to risks of loss resulting from adverse weather conditions, man-made or natural disasters, the effect of climate change, and pandemics, such as the coronavirus (“COVID-19”);
- difficulties inherent in adjusting the size of our operations to reflect changes in business levels;
- maintaining sufficient capital and liquidity and compliance with financial covenants;
- our substantial amount of indebtedness;
- increases in the number of loan delinquencies and defaults;
- failure to modify, resell or refinance early buyout loans or defaults of early buyout loans beyond our expectations;
- our reliance on PennyMac Mortgage Investment Trust (“PMT”) as a significant contributor to our mortgage banking business;
- our obligation to indemnify third-party purchasers or repurchase loans if loans that we originate, acquire, service or assist in the fulfillment of, fail to meet certain criteria or characteristics or under other circumstances;
- our exposure to counterparties that are unwilling or unable to honor contractual obligations, including their obligation to indemnify us or repurchase defective mortgage loans;
- our ability to realize the anticipated benefit of potential future acquisitions of mortgage servicing rights;
- our obligation to indemnify PMT if our services fail to meet certain criteria or characteristics or under other circumstances;
- decreases in the returns on the assets that we select and manage for PMT, and our resulting management and incentive fees;
- the extensive amount of regulation applicable to our investment management segment;
- conflicts of interest in allocating our services and investment opportunities among ourselves and PMT;
- the effect of public opinion on our reputation;
- our ability to effectively identify, manage and hedge our credit, interest rate, prepayment, liquidity and climate risks;
- our initiation of new business activities or expansion of existing business activities;
- our ability to detect misconduct and fraud;

- our ability to effectively deploy new information technology applications and infrastructure;
- our ability to mitigate cybersecurity risks and cyber incidents;
- our ability to pay dividends to our stockholders; and
- our organizational structure and certain requirements in our charter documents.

Other factors that could also cause results to differ from our expectations may not be described in this Report or any other document. Each of these factors could by itself, or together with one or more other factors, adversely affect our business, results of operations and/or financial condition.

Forward-looking statements speak only as of the date they are made, and we undertake no obligation to update any forward-looking statement to reflect the impact of circumstances or events that arise after the date the forward-looking statement was made.

PART I

Item 1. Business

The following description of our business should be read in conjunction with the information included elsewhere in this Report. This description contains forward-looking statements that involve risks and uncertainties. Actual results could differ significantly from the projections and results discussed in the forward-looking statements due to the factors described under the caption “Risk Factors” and elsewhere in this Report. References in this Report to “we,” “our,” “us,” and the “Company” refer to PennyMac Financial Services, Inc. (“PFSI”) and its consolidated subsidiaries.

Our Company

We are a specialty financial services firm with a comprehensive mortgage platform and integrated business primarily focused on the production and servicing of U.S. residential mortgage loans (activities which we refer to as mortgage banking) and the management of investments related to the U.S. mortgage market. We believe that our operating capabilities, specialized expertise, access to long-term investment capital, and our management’s experience across all aspects of the mortgage business will allow us to profitably grow these activities over time and capitalize on other related opportunities as they arise.

We operate and control all of the business and affairs and consolidate the financial results of Private National Mortgage Acceptance Company, LLC (“PNMAC”) and its subsidiaries described below:

- Our principal mortgage banking subsidiary, PennyMac Loan Services, LLC (“PLS”), is a non-bank producer and servicer of mortgage loans. PLS is a seller/servicer for the Federal National Mortgage Association (“Fannie Mae”) and the Federal Home Loan Mortgage Corporation (“Freddie Mac”), each of which is a government-sponsored entity (“GSE”). PLS is also an approved issuer of securities guaranteed by the Government National Mortgage Association (“Ginnie Mae”), a lender of the Federal Housing Administration (“FHA”), and a lender/servicer of the Veterans Administration (“VA”) and the United States Department of Agriculture (“USDA”). We refer to each of Fannie Mae, Freddie Mac, Ginnie Mae, FHA, VA and USDA as an “Agency” and collectively as the “Agencies.” PLS is able to service loans in all 50 states, the District of Columbia, Puerto Rico, Guam and the United States Virgin Islands, and originate loans in all 50 states and the District of Columbia, either because it is properly licensed in a particular jurisdiction or exempt or otherwise not required to be licensed in that jurisdiction.
- Our investment management subsidiary is PNMAC Capital Management, LLC (“PCM”), a Delaware limited liability company registered with the Securities and Exchange Commission (“SEC”) as an investment adviser under the Investment Advisers Act of 1940 (the “Advisers Act”), as amended. PCM manages PennyMac Mortgage Investment Trust (“PMT”), a mortgage real estate investment trust listed on the New York Stock Exchange under the ticker symbol PMT.

We conduct our business in three segments: production, servicing (together, production and servicing comprise our mortgage banking activities) and investment management.

- The production segment performs loan origination, acquisition and sale activities for our account as well as for PMT.
- The servicing segment performs loan servicing for both newly originated loans we are holding for sale and loans we service for others, including for PMT.
- The investment management segment performs investment management activities, which include the activities associated with investment asset acquisitions and dispositions such as sourcing, due diligence, negotiation and settlement.

Following is a summary of our segments' results:

	Year ended December 31,		
	2022	2021	2020
	(in thousands)		
Net revenues:			
Production	\$ 865,177	\$ 2,306,764	\$ 2,824,999

PMT assets under management at year end	\$ 1,962,815	\$ 2,367,518	\$ 2,296,859

Mortgage Banking

Loan Production

Our loan production segment sources new prime credit quality residential conventional and government-insured or guaranteed mortgage loans through three channels: correspondent production, consumer direct lending and broker direct lending as described below.

Correspondent Production

In correspondent production we manage, on behalf of PMT and for our own account, the purchase from non-affiliates of mortgage loans that have been underwritten to investor guidelines. Our correspondent loans historically have been directed to each entity based on the guarantor of the mortgage-backed securities ("MBS") created from the loans: our production focus has primarily been on loans insured or guaranteed by the FHA, VA or USDA for sale into MBS guaranteed by Ginnie Mae, whereas PMT's production focus has been on loans that can be sold into MBS guaranteed by Fannie Mae or Freddie Mac. During 2022, we began to acquire certain loans for our own account that can be sold into MBS guaranteed by Fannie Mae and Freddie Mac.

This mortgage loan production arrangement between us and PMT exists, in part, because PMT is not approved as an issuer of Ginnie Mae guaranteed MBS. As a result, PMT sells the government-insured or guaranteed loans that it purchases from correspondent sellers to us and we pay PMT a sourcing fee ranging from one to two basis points, generally based on the average number of calendar days that PMT holds the loans before our purchase. We generally pool the government-insured or guaranteed loans into Ginnie Mae guaranteed MBS and then sell such MBS to institutional investors. We also acquire certain conventional loans from PMT under the same agreement.

In our correspondent production activities, for loans we source for our own account, we earn loan origination fees from the correspondent sellers, interest income on the loans during the time we hold such loans, gains or losses from the date we make a commitment to purchase the loans through the sale of these loans, and, in connection with such sales, we generally retain and recognize the fair value of the contractual rights to service the loans on behalf of the purchaser of the loans. These contracts are referred to as mortgage servicing rights (“MSRs”).

In our loan fulfillment activities in support of PMT’s correspondent production activities and only for loans purchased for PMT’s account, we earn fulfillment fees and tax service fees. We may also serve as a correspondent seller of newly originated loans from our consumer direct and broker direct lending channels to PMT under a mortgage loan purchase agreement. When we sell loans to PMT, PMT obtains the mortgage servicing rights relating to such loans. As such, our gains on sale of loans to PMT are primarily cash gains.

Consumer Direct Lending

Through our consumer direct lending channel, we originate mortgage loans on a national basis. Our consumer direct model relies on the Internet and call center-based staff to acquire and interact with customers across the country. We do not have a “brick and mortar” branch network.

In our consumer direct lending activities, we earn loan origination fees from the borrower, interest income during the time we hold the loan before sale, gains or losses from the date we make a commitment to fund the loan through the sale of these loans, and, in sales to entities other than to PMT, we retain and recognize the fair value of the associated MSRs. To the extent we refinance loans that we subservice for PMT where PMT owns the related MSRs, we are generally required to pay PMT a recapture fee.

Broker Direct Lending

In broker direct lending, we obtain loan application packages from nonaffiliated mortgage loan brokers, underwrite and fund the resulting loans for sale. In our broker direct lending activities, we earn interest income, gains or losses from the date we make a commitment to fund the loan through the sale of these loans, and, in sales to entities other than PMT, we retain and recognize the fair value of the associated MSRs.

Our loan production activities are summarized below:

	Year ended December 31,		
	2022	2021	2020

UPB of conventional loans fulfilled for PennyMac Mortgage Investment Trust	37,090,031	110,003,574	100,389,252
Total loan production	<u>\$ 109,115,829</u>	<u>\$ 234,597,882</u>	<u>\$ 196,589,353</u>

The effect of our loan production transactions with PMT on our financial statements are summarized below:

	Year ended December 31,		
	2022	2021 (in thousands)	2020
Net (losses) gains on loans held for sale at fair value:			
Net (losses) gains on loans held for sale to PMT	\$ (2,820)	\$ —	\$ 81,295
Mortgage servicing rights and excess servicing spread recapture incurred	(13,744)	(51,473)	(30,614)
	<u>\$ (16,564)</u>	<u>\$ (51,473)</u>	<u>\$ 50,681</u>
Fulfillment fee revenue			
Tax service fees earned from PMT included in <i>Loan origination fees</i>	\$ 8,418	\$ 26,126	\$ 23,408
Sourcing fees paid to PMT included in cost of loans purchased	\$ 4,968	\$ 6,472	\$ 11,037

Loan Servicing

Our loan servicing segment performs loan administration, collection, and default management activities, including the collection and remittance of loan payments; responding to customer inquiries; providing accounting for principal and interest; holding custodial (impounded) funds for the payment of property taxes and insurance premiums; counseling delinquent borrowers; administering loss mitigation activities, including modification and forbearance programs; and supervising foreclosures and property dispositions.

We service loans both as the owner of MSRs and mortgage servicing liabilities (“MSLs”) and as the subservicer on behalf of PMT.

The UPB of our loan servicing portfolio is summarized below:

	December 31,	
	2022	2021
Mortgage servicing rights and mortgage servicing liabilities:		
Originated	\$ 295,032,674	\$ 254,524,015
Purchased	<u>19,568,122</u>	<u>23,861,358</u>
	<u>314,600,796</u>	<u>278,385,373</u>
Loans held for sale	3,498,214	9,430,766
Total owned servicing	318,099,010	287,816,139
Subserviced for PennyMac Mortgage Investment Trust	233,575,672	221,892,142
Total	<u>\$ 551,674,682</u>	<u>\$ 509,708,281</u>

Our responsibilities and risks relating to loans we service in arrangements where we own the MSRs or MSLs differ from those where we act as subservicer for the owner of the servicing rights. As the owner of the servicing rights:

- We recognize our investment in the servicing rights received in loan sale transactions where we retain the contractual obligation to service the loans as well the investment we make when we buy MSRs or liability we incur when we assume MSLs. We carry these assets and liabilities at fair value and as such they are subject to subsequent changes in fair value owing to the anticipated realization of the cash flows from the asset or liability or to changes in the market for such MSRs and MSLs;
- Because our investment in MSRs can be significant and the fair value of this asset is sensitive to changes in prepayment activity, the cost to service the loans and marketplace return requirements, we incur costs to hedge this investment – primarily the risk of changes in fair value arising from changes in prepayment speeds in response to changes in interest rates;

- We are responsible for advancing our corporate funds to protect the loan owners' interest in the collateral securing such loans for such items as hazard insurance, property taxes and foreclosure-related costs, subject to future reimbursement, as well as advancing delinquent principal and interest payments to MBS holders; and
- As the owner of Ginnie Mae MSRs, we have the option to purchase loans that are at least three months delinquent out of the underlying Ginnie Mae securities as an alternative to continuing to advance principal and interest payments to the holders of the Ginnie Mae securities, or we may be required to purchase loans out of Ginnie Mae securities if there has been a modification of the loans' terms. Our objective is to work with the borrowers to cure the loan delinquency through either borrower reperformance or modification of the loans' terms. When curing the delinquency is not feasible, we work to settle the loan and collect our claims from the applicable insurer or guarantor. When we are able to cure the delinquency and after a minimum required period of reperformance, we are able to re-deliver the cured loan into another Ginnie Mae guaranteed security.

As the subservicer for the owner of servicing rights, we do not carry the related MSRs or MSLs on our balance sheet and therefore do not recognize changes in the fair value of MSRs or MSLs and are generally not responsible for financing the advance of corporate funds to protect the loan owners' interest in the collateral securing such loans. As a result, the fees we earn from such arrangements are generally less on a per-loan basis than those we earn from holding MSRs and MSLs.

Following is a summary of our net loan servicing fees:

	Year ended December 31,					
	2022	2021	2020			
	(in thousands)					
Net loan servicing fees:

Subserviced for PMT	\$ 226,817,005	\$ 202,047,495	\$ 151,379,311			

Investment Management

We are an investment manager through our subsidiary, PCM, which provides investment management services to PMT. We earn management fees as a percentage of PMT's net assets and may earn incentive compensation based on PMT's investment performance.

Following is a summary of our management fee revenue:

	Year ended December 31,		
	2022	2021	2020
Base management	\$ 31,065	\$ 34,794	\$ 34,538
Performance incentive	—	3,007	—
Net assets of PMT at end of year	\$ 31,065	\$ 37,801	\$ 34,538
	\$ 1,962,815	\$ 2,367,518	\$ 2,296,859

Our Business Strategies

Our business strategies include:

Consumer Direct Lending

We expect to grow our consumer direct lending business over time by leveraging our growing servicing portfolio through the recapture of existing customers for refinance and purchase-money loans as well as increasing our non-portfolio originations. As our servicing portfolio grows, we will have a greater number of leads to pursue, which we believe will lead to greater origination activity through our consumer direct business. As of December 31, 2022, we serviced 2.3 million loans. In 2022, 2021 and 2020, we funded \$15.4 billion, \$43.1 billion and \$23.5 billion of mortgage loans, respectively, through our consumer direct lending channel. We believe that our national call center model and our technology will enable us to drive origination process efficiencies and best-in-class customer service.

Broker Direct Lending

According to Inside Mortgage Finance, the broker lending channel represented approximately 15% of U.S. residential mortgage originations in 2022. In 2022, 2021 and 2020, we funded \$6.9 billion, \$16.8 billion and \$12.2 billion of mortgage loans, respectively, through our wholesale-broker channel, which is comprised of loans from both the broker segment as well as loans purchased through our non-delegated correspondent segment. We plan on growing our mortgage loan volume in this channel through the addition of new broker and non-delegated partner relationships, as well as expansion of existing relationships enabled by our leading broker technology platform.

Correspondent Lending

We expect to support our correspondent production market share by expanding the number and types of sellers from which we purchase loans and increasing the proportion of our sellers' production volumes that we purchase as we continue to expand to the loan products and services we offer. We believe that we are well positioned to continue taking advantage of this opportunity based on our management expertise in the correspondent production business, our relationships with correspondent sellers, and our supporting systems and processes. In 2022, 2021 and 2020, we purchased \$49.7 billion, \$64.8 billion and \$60.5 billion of mortgage loans, respectively, through our correspondent lending channel.

Mortgage Loan Servicing Portfolio

We expect to grow our servicing portfolio through loan production activities, as our correspondent production for our own account and consumer and broker direct lending add new servicing for owned MSRs, and correspondent conventional production for PMT's account adds new subservicing. We or PMT may also grow our servicing portfolio through acquisitions. In 2022, our loan production totaled \$109.1 billion in UPB and we purchased MSRs backed by loans with UPBs totaling \$375.4 million. Our MSRs were backed by loans with UPBs totaling \$314.6 billion as of December 31, 2022.

Expansion into New Markets and Products

We regularly evaluate opportunities to grow our business, including expansion into new markets and providing additional services to our customers directly or through external partnerships. To date, we have entered into partnerships or joint ventures that can provide insurance and closing and title services to our customers and others. We also continue to develop new products to satisfy demand from customers in each of our production channels and respond to changing circumstances in the market for mortgage-related financing.

U.S. Mortgage Market

The U.S. residential mortgage market is one of the largest financial markets in the world, with approximately \$15.2 trillion of outstanding debt as of September 30, 2022. According to Inside Mortgage Finance, first lien mortgage loan origination volume was approximately \$2.2 trillion in 2022. Many of the largest financial institutions, primarily banks which have traditionally held the majority of the market share in mortgage origination and servicing, have reduced their participation in the mortgage market creating opportunities for non-bank participants.

The residential mortgage industry is characterized by high barriers to entry, including the necessity for approvals required to sell loans to and service loans for the Agencies, state licensing requirements for non-federally chartered banks, sophisticated infrastructure, technology, risk management, and processes required for successful operations, and financial capital requirements.

Competition

Given the diverse and specialized nature of our businesses, we do not believe we have a direct competitor for the totality of our business. We compete with a number of nationally-focused companies in each of our businesses.

In our loan production and servicing segments, we compete with large financial institutions, including the cash windows of the GSEs, and with other independent residential mortgage loan producers and servicers, such as Rocket Mortgage, Mr. Cooper and United Wholesale Mortgage.

In our loan production segment, we compete primarily on the basis of customer service, marketing penetration, customer network, product offerings, technical knowledge, manufacturing quality, speed of execution, rate and fees.

In our servicing segment, we compete primarily on the basis of experience in the residential loan servicing business, quality and efficiency of execution and servicing performance.

In our investment management segment, we compete for capital with both traditional and alternative investment managers. We compete primarily on the basis of historical track record of risk-adjusted returns, experience of investment management team, the return profile of prospective investment opportunities and on the level of fees and expenses.

Seasonality/Cyclical

The demand for loan originations is affected by consumer demand for home loans. Demand for home loans generally comes from the demand for loans made to finance the purchase of homes and the demand for loans made to refinance existing loans.

The demand for loans made to finance the purchase of homes is most significantly influenced by the overall strength of the economy, housing prices and availability and societal factors such as household formation and government support for homeownership.

The demand for loans made to refinance existing loans is most significantly influenced by movements in interest rates and to a lesser extent, to changes in property values and employment.

Human Capital Resources

Our long-term growth and success is highly dependent upon our employees and our ability to maintain a diverse, equitable and inclusive workplace representing a broad spectrum of backgrounds, ideas and perspectives. As part of these efforts, we strive to offer competitive compensation and benefits, foster a community where everyone feels a greater sense of belonging and purpose, and provide employees with the opportunity to give back and make an impact in the communities where we live and serve.

We had over 4,000 domestic employees as of the end of fiscal year 2022. In addition, as of the end of fiscal year 2022, our workforce was 49.9% female and 50.1% male, and the ethnicity of our workforce was 44.4% White, 22.6% Hispanic or Latino, 14.3% Black or African American, 14.2% Asian and 4.5% other (which includes American Indian or Alaska Native, Native Hawaiian or Other Pacific Islander, and “Two or More Races” as defined in our EE0-1 Report filed with the Department Labor).

Employee Retention and Development

We believe in attracting, developing and engaging the best talent, while providing a supportive work environment that prioritizes the health and safety of our employees. Talent development is a critical component of the employee experience and ensures that all employees have career growth opportunities, including establishing development networks and relationships and fostering continued growth and learning. Employees receive regular business and compliance training to help further enhance their career development objectives. We also actively manage enterprise-wide and divisional mentoring programs and have partnered with an external vendor to establish a comprehensive, fully integrated wellness program designed to enhance the productivity of our employees.

Compensation and Succession Planning

Our compensation programs are designed to motivate and reward employees who possess the necessary skills to support our business strategy and create long-term value for our stockholders. Employee compensation may include base salary, annual cash incentives, and long-term equity incentives, as well as life insurance and 401(k) plan matching contributions. We also offer a comprehensive selection of health and welfare benefits to our employees including emotional well-being support and paid parental leave programs. Succession planning is also critical to our operations and we have established ongoing evaluations of our leadership depth and succession capabilities.

Diversity, Equity and Inclusion

We believe that building a diverse, equitable and inclusive, high-performing workforce where our employees bring varied perspectives and experiences to work every day creates a positive influence in our workplace, community and business operations. Our Board of Directors, our Nominating and Corporate Governance Committee, Compensation Committee, and Risk Committee provide regular oversight of our corporate sustainability program, including our diversity, equity and inclusion programs and initiatives.

We have also taken proactive measures to strategically and sustainably advance equity in the workplace through our Business Resource Groups (“BRG”), a diversity hiring initiative, mentorship programs, and external partnerships with organizations such as the Mortgage Bankers Association and the National Association of Minority Mortgage Bankers of America. We also established leadership goals and created customized initiatives that focus on our continued effort to increase the number of women and underrepresented minorities in management positions throughout our company and its business divisions.

As it relates to our inclusive culture, we established the following BRGs to emphasize career growth, networking, and learning opportunities for employees and allies with shared backgrounds and experiences: the BOLD BRG (for Black and African American employees and allies), the HOLA BRG (for Hispanic, Latino and Latinx employees and allies), the InspirASIAN BRG (for our Asian American and Pacific Islander employees and allies), the Pennymac PRIDE BRG (for our LGBTQIA employees and allies), the SERVE BRG (for our veteran and military family employees and allies), and the wEMRG BRG (for our women employees and allies). We also foster a more inclusive culture through a variety of initiatives, including corporate training, special events, community outreach and corporate philanthropy.

Community Involvement

We have a corporate philanthropy program that is governed by a philosophy of giving that prioritizes the support of causes and issues that are important in our local communities, and drives a culture of employee engagement and collaboration throughout our organization. We are committed to empowering our employees to be a positive influence in the communities where we live and serve, and believe that this commitment supports our efforts to attract and engage employees and improve retention.

Our philanthropy program consists of three key components: an employee matching gift program, a charitable grants program and a corporate sponsorship program. Our five philanthropic focus areas are: community development and equitable housing, financial literacy and economic inclusion, human and social services, health and medical research, and environmental sustainability.

We have established a separate donor advised fund to facilitate donations to various local and national charitable organizations and have provided funding to several charitable organizations located near our office sites and national organizations that support missions such as sustainable homeownership, mortgage and rental assistance, food insecurity, disaster recovery, family and child advocacy, and community empowerment. We also manage our environmental impact by focusing on improving our waste reduction, energy efficiency and water conservation.

Legal and Regulatory Compliance

Our business is subject to extensive federal, state and local regulation. The CFPB was established on July 21, 2010 under Title X of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Dodd-Frank Act”). The CFPB is responsible for ensuring consumers are provided with timely and understandable information to make responsible decisions about financial transactions, federal consumer financial laws are enforced and consumers are protected from unfair, deceptive, or abusive acts and practices and from discrimination. Although the CFPB’s actions may improve consumer protection, such actions also have resulted in a meaningful increase in costs to consumers and financial services companies including mortgage originators and servicers.

Our loan production and loan servicing operations are regulated at the state level by state licensing authorities and administrative agencies. We, along with certain PNMAC employees who engage in regulated activities, must apply for licensing as a mortgage banker or lender, loan servicer and debt collector pursuant to applicable state law. These state licensing requirements typically require an application process, the payment of fees, background checks and administrative review.

Our servicing operations are licensed (or exempt or otherwise not required to be licensed) to service mortgage loans in all 50 states, the District of Columbia, Puerto Rico, Guam and the United States Virgin Islands. Our consumer direct lending business is licensed to originate loans in all 50 states and the District of Columbia.

From time to time, we receive requests from states and Agencies and various investors for records, documents and information regarding our policies, procedures and practices regarding our loan production and loan servicing business activities, and undergo periodic examinations by federal and state regulatory agencies. We incur significant ongoing costs to comply with these licensing and examination requirements.

The Secure and Fair Enforcement for Mortgage Licensing Act of 2008 (the “SAFE Act”) requires all states to enact laws that require all individuals acting in the United States as mortgage loan originators to be individually licensed or registered if they intend to offer mortgage loan products. These licensing requirements include enrollment in the Nationwide Mortgage Licensing System, application to state regulators for individual licenses and the completion of pre-licensing education, annual education and the successful completion of both national and state exams.

We must comply with a number of federal consumer protection laws, including, among others:

- the Real Estate Settlement Procedures Act (“RESPA”), and Regulation X thereunder, which require certain disclosures to mortgagors regarding the costs of mortgage loans, the administration of tax and insurance escrows, the transferring of servicing of mortgage loans, the response to consumer complaints, and payments between lenders and vendors of certain settlement services;
- the Truth in Lending Act (“TILA”), and Regulation Z thereunder, which require certain disclosures to mortgagors regarding the terms of their mortgage loans, notices of sale, assignments or transfers of ownership of mortgage loans, new servicing rules involving payment processing, and adjustable rate mortgage change notices and periodic statements;
- the Equal Credit Opportunity Act and Regulation B thereunder, which prohibit discrimination on the basis of age, race and certain other characteristics, in the extension of credit;
- the Fair Housing Act, which prohibits discrimination in housing on the basis of race, sex, national origin, and certain other characteristics;
- the Home Mortgage Disclosure Act and Regulation C thereunder, which require financial institutions to report certain public loan data;
- the Homeowners Protection Act, which requires the cancellation of private mortgage insurance once certain equity levels are reached, sets disclosure and notification requirements, and requires the return of unearned premiums;
- the Servicemembers Civil Relief Act, which provides, among other things, interest and foreclosure protections for service members on active duty;
- the Gramm-Leach-Bliley Act and Regulation P thereunder, which require us to maintain privacy with respect to certain consumer data in our possession and to periodically communicate with consumers on privacy matters;
- the Fair Debt Collection Practices Act, which regulates the timing and content of debt collection communications;
- the Fair Credit Reporting Act and Regulation V thereunder, which regulate the use and reporting of information related to the credit history of consumers;
- the National Flood Insurance Reform Act of 1994, which provides for lenders to require from borrowers or to purchase flood insurance on behalf of borrower/owners of properties in special flood hazard areas; and
- the Coronavirus Aid, Relief and Economic Security Act (“CARES Act”), which allows borrowers with federally-backed loans to request temporary payment forbearance in response to the increased borrower hardships resulting from the ongoing COVID-19 pandemic.

Many of these laws are further impacted by the SAFE Act and implementation of new rules by the CFPB.

Our senior management team has established a comprehensive compliance management system ("CMS") that is designed to ensure compliance with applicable mortgage origination and servicing laws and regulations. The components of our CMS include: (a) oversight by senior management and our Board of Directors to ensure that our compliance culture, guidance, and resources are appropriate; (b) a compliance program to ensure that our policies, training and monitoring activities are complete and comprehensive; (c) a complaint management program to ensure that consumer complaints are appropriately addressed and that any required actions are implemented on a timely basis; and (d) independent oversight to ensure that our CMS is functioning as designed.

An important component of the CMS is management's Mortgage Regulatory Compliance Committee ("MRCC"). This committee oversees the CMS and supports our cultural initiatives that reinforce the importance of regulatory compliance. The MRCC also monitors changes in the internal and external environment, approves mortgage compliance policies, monitors compliance with those policies and ensures any required remediation is implemented on a timely basis. The MRCC has identified individuals throughout the organization to oversee specific areas of compliance. MRCC membership includes senior management from all areas of the Company impacted by mortgage compliance laws and regulations. The MRCC meets on a regular basis throughout the year.

Intellectual Property

We rely on a combination of trademarks, copyrights, and trade secrets, as well as confidentiality and contractual provisions to protect our intellectual property and proprietary technologies. We hold or have otherwise applied for various registered trademarks, including trademarks with respect to the name Pennymac and various additional designs and word marks relating to the Pennymac name. Depending upon the jurisdiction, trademarks generally are valid as long as they are in use and/or their registrations are properly maintained. We generally intend to renew our trademarks as they come up for renewal. Our other intellectual property includes proprietary know-how and technological innovations, such as our proprietary workflow-driven cloud-based servicing system, as well as proprietary pricing engines, loan-level analytics systems and other trade secrets that we have developed to maintain our competitive position.

Available Information

Our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, including exhibits, proxy statements and amendments to those reports filed with or furnished to the SEC pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), are available free of charge through the investor relations section of our website at www.pennymacfinancial.com as soon as reasonably practicable after electronically filing such material with the SEC. The SEC maintains an Internet site that contains reports, proxy and information statements and other information regarding our filings at www.sec.gov. The above references to our website and the SEC's website do not constitute incorporation by reference of the information contained on those websites and should not be considered part of this document.

Item 1A. Risk Factors

Summary Risk Factors

We are subject to a number of risks that, if realized, could have a material adverse effect on our business, financial condition, liquidity, results of operations and our ability to make distributions to our stockholders. Some of our more significant challenges and risks include, but are not limited to, the following, which are described in greater detail below:

- Our business is significantly impacted by changes in interest rates. Changes in prevailing interest rates, rising inflation rates, U.S. monetary policies or other macroeconomic conditions that affect interest rates may have a detrimental effect on our business and earnings.
- Our mortgage banking revenues are highly dependent on macroeconomic factors and real estate market, mortgage market and financial market conditions.
- We may not be able to effectively manage significant increases or decreases in our loan production volume, which could negatively affect our business, financial condition, liquidity and results of operations.
- We have a substantial amount of indebtedness, which may limit our financial and operating activities, expose us to substantial increases in costs due to interest rate fluctuations, expose us to the risk of default under our debt obligations and may adversely affect our ability to incur additional debt to fund future needs.
- We rely on external financial arrangements to fund mortgage loans and operate our business and our inability to refinance or enter new financial arrangements could be detrimental to our business.
- Increases in delinquencies and defaults may adversely affect our business, financial condition, liquidity and results of operations.
- We are required to make servicing advances that can be subject to delays in recovery or may not be recoverable due to delinquencies, defaults and foreclosures that could adversely affect our business, financial condition, liquidity and results of operations.
- Our acquisition and ownership of mortgage servicing rights exposes us to significant risks.
- A disruption in the MBS market could materially and adversely affect our business, financial condition, liquidity and results of operations.
- We may be required to indemnify the purchasers of loans that we originate, acquire or assist in the fulfillment of, or repurchase those loans, if those loans fail to meet certain criteria or characteristics or under other circumstances and we may be unable to seek indemnity or require our counterparties to repurchase loans if they breach representations and warranties they make to us.
- Failure to successfully modify, resell or refinance early buyout loans (“EBO”) or defaults of EBO loans beyond expected levels may adversely affect our business, financial condition, liquidity and results of operations.
- We depend on counterparties and vendors to provide services that are critical to our business, which subjects us to a variety of risks.
- Climate change, adverse weather conditions, man-made or natural disasters, pandemics, terrorist attacks, and other long term physical and environmental changes and conditions could adversely impact properties that we own or that collateralize loans we own or service, as well as geographic areas where we conduct business.
- Our failure to appropriately address various issues that may give rise to reputational risk could cause harm to our business and adversely affect our earnings.
- We operate in a highly regulated industry and the continually changing federal, state and local laws and regulations could materially and adversely affect our business, financial condition, liquidity and results of operations.
- New CFPB or state rules and regulations or more stringent enforcement of existing rules and regulations by these regulators could result in enforcement actions, fines, penalties and the inherent reputational risk that results from such actions.

- We are highly dependent on U.S. government-sponsored entities and government agencies, and any organizational or pricing changes at such entities or their regulators could materially and adversely affect our business, liquidity, financial condition and results of operations.
- We are required to have various Agency approvals and state licenses in order to conduct our business and there is no assurance we will be able to obtain or maintain those Agency approvals or state licenses.
- Our business, financial condition and results of operations may be adversely affected by the long term impact of the COVID-19 pandemic.
- We rely on PennyMac Mortgage Investment Trust (“PMT”) as a significant source of financing for, and revenue related to, our mortgage banking business, and the termination of, or material adverse change in, the terms of this relationship, or a material adverse change to PMT or its operations, could adversely affect our business, financial condition, liquidity and results of operations.
- A significant portion of our loan servicing operations are conducted pursuant to subservicing contracts with PMT, and any termination by PMT of these contracts, or a material change in the terms thereof that is adverse to us, would adversely affect our business, financial condition, liquidity and results of operations.
- Market conditions could reduce the fair value of the assets that we manage, which would reduce our management and incentive fees.
- Our failure to comply with the extensive amount of regulation applicable to our investment management segment could materially and adversely affect our business, financial condition, liquidity and results of operations.
- We may encounter conflicts of interest in trying to appropriately allocate our time and services between activities for our own account and for PMT, or in trying to appropriately allocate investment opportunities among ourselves and for PMT.
- Our risk management efforts may not be effective.
- Initiating new business activities, developing new products or significantly expanding existing business activities may expose us to new risks and increase our cost of doing business.
- Cybersecurity risks, cyber incidents and technology failures may adversely affect our business by causing a disruption to our operations, a compromise or corruption of our confidential information, and/or damage to our business relationships, all of which could negatively impact our financial results.
- We operate in a highly competitive market and decreased margins resulting from increased competition or our inability to compete successfully could adversely affect our business, financial condition, liquidity and results of operations.

Risk Factors

In addition to the other information set forth in this Report, you should carefully consider the following factors, which could materially adversely affect our business, financial condition, liquidity and results of operations in future periods. The risks described below are not the only risks that we face. Additional risks not presently known to us or that we currently deem immaterial may also materially adversely affect our business, financial condition, liquidity and results of operations in future periods.

Risks Related to Our Mortgage Banking Segment

Market and Financial Risks

Our business is significantly impacted by changes in interest rates. Changes in prevailing interest rates, rising inflation rates, U.S. monetary policies or other macroeconomic conditions that affect interest rates may have a detrimental effect on our business and earnings.

Our operations, financial performance and earnings are affected by factors including prevailing interest rates, United States monetary policies or other macroeconomic conditions such as inflation fluctuations, recessions, consumer confidence and demand. For example, as interest rates have risen in 2022, our loan production volumes have decreased as compared to 2021 as fewer loans were originated or refinanced. As a result, our net revenues decreased from \$3.2 billion in fiscal year 2021 to \$2.0 billion in fiscal year 2022. Inflation rates also increased in 2022 and may continue to rise. In addition, interest rates and the liquidity of the MBS market may be impacted by the Federal Reserve increasing the federal funds rate, tapering MBS purchases or selling MBS.

Our financial performance and profitability is directly affected by changes in prevailing interest rates. An increase in prevailing interest rates could:

- adversely affect our loan production volume, as refinancing an existing loan would be less attractive and qualifying for a loan may be more difficult;
- adversely affect our Ginnie Mae EBOs because loan modifications would become less economically feasible; and
- increase the cost of servicing our outstanding debt, including debt related to servicing assets and loan production.

A decrease in prevailing interest rates could:

- cause an increase in the expected volume of loan refinancings, which would require us to record decreases in fair value on our MSRs; and
- reduce our earnings from our custodial deposit accounts.

Furthermore, borrowings under our warehouse lines of credit, and MSR and servicing advance facilities are at variable rates of interest, which also expose us to interest rate risk. If interest rates increase, our debt service obligations on certain of our variable-rate indebtedness will increase even though the amount borrowed remains the same, and our earnings and cash flows may correspondingly decrease. An event of default, a negative ratings agency action, the perception of financial weakness, an adverse action by a regulatory authority, a lengthening of foreclosure timelines or a general deterioration in the economy that constricts the availability of credit may increase our cost of funds and make it difficult for us to refinance existing debt and borrow additional funds. In addition, we may not be able to adjust our operational capacity and staffing in a timely manner, or at all, in response to increases or decreases in loan production volume resulting from changes in prevailing interest rates.

Any of the increases or decreases discussed above could have a material adverse effect on our business, financial condition, liquidity and results of operations.

Our mortgage banking revenues are highly dependent on macroeconomic factors and real estate market, mortgage market and financial market conditions.

The success of our business strategies and our results of operations are materially affected by current or future conditions in the real estate market, mortgage markets, financial markets and the economy generally. Factors such as the COVID-19 pandemic, inflation, deflation, unemployment, personal and business income taxes, healthcare, energy costs, domestic political issues, government shutdowns, climate change and the availability and cost of credit may contribute to increased volatility and unclear expectations for the economy in general and the real estate, mortgage market and financial markets in particular going forward.

A destabilization of the real estate market, mortgage market and financial markets or deterioration in these markets also could reduce our loan production volume, reduce the profitability of servicing mortgages or adversely affect our ability to sell mortgage loans that we originate or acquire, either at a profit or at all. Inflation and future expectations of inflation could increase our operating expenses and may affect our profitability if the additional operating costs are not recoverable through increased revenues or profit margins. Any of the foregoing could materially and adversely affect our business, financial condition, liquidity and results of operations.

We may not be able to effectively manage significant increases or decreases in our loan production volume, which could negatively affect our business, financial condition, liquidity and results of operations.

If we do not effectively manage loan production volumes and are unable to consistently maintain quality of execution, our reputation and existing relationships with mortgage lenders and brokers could be damaged, we may not be able to maintain PMT's existing relationships or develop new relationships with mortgage lenders and brokers, our new mortgage products may not gain widespread acceptance and the quality of our correspondent production, consumer direct lending and wholesale broker lending operations could suffer, all of which could negatively affect our brand and operating results.

Our loan production segment is also subject to overall market factors that could adversely impact our loan production volumes. For example, increased competition from new and existing market participants, reductions in the overall level of refinancing activity or a decrease in home purchase activity can decrease our loan production volumes. We may be forced to accept lower margins in our respective businesses to continue to compete and keep our loan production volumes consistent with past or projected levels or be forced to reduce our levels of production activity. In addition, we may not be able to adjust our operational capacity and staffing in a timely manner, or at all, in response to increases or decreases in loan production volume resulting from changes in prevailing interest rates.

We have a substantial amount of indebtedness, which may limit our financial and operating activities, expose us to substantial increases in costs due to interest rate fluctuations, expose us to the risk of default under our debt obligations and may adversely affect our ability to incur additional debt to fund future needs.

As of December 31, 2022, we had \$7.0 billion of total indebtedness outstanding (approximately \$5.2 billion of which was secured) and up to \$6.5 billion of additional capacity under our secured borrowings and other secured debt financing arrangements. This substantial indebtedness and any future indebtedness we incur could have adverse consequences and, for example, could:

- require us to dedicate a substantial portion of cash flow from operations to the payment of principal and interest on indebtedness, including indebtedness we may incur in the future, thereby reducing the funds available for operations, capital expenditures and other general corporate purposes;
- make it more difficult for us to satisfy our obligations with respect to our indebtedness, and any failure to comply with the obligations of any of our debt instruments, including any restrictive covenants, could result in an event of default under the indentures governing the unsecured senior notes or under the agreements governing our other indebtedness which, if not cured or waived, could result in the acceleration of our indebtedness under our other debt instruments or the unsecured senior notes;
- subject us to increased sensitivity to interest rate increases;
- make us more vulnerable to economic downturns, adverse industry conditions or catastrophic events, including the COVID-19 pandemic and climate change;
- reduce our flexibility in planning for or responding to changing business, industry and economic conditions; and/or
- place us at a competitive disadvantage to competitors that have relatively less debt than we have.

In addition, our substantial level of indebtedness could limit our ability to obtain additional financing on acceptable terms, or at all, for working capital and general corporate purposes. Our liquidity needs vary significantly from time to time and may be affected by general economic conditions, industry trends, performance and many other factors outside our control.

We rely on external financial arrangements to fund mortgage loans and operate our business and our inability to refinance or enter new financial arrangements could be detrimental to our business.

Our ability to finance our business operations and repay maturing obligations rests in large part on our ability to borrow money. Unlike some of our competitors who fund mortgage loans through bank deposits, we generally fund our mortgage loans through borrowings under warehouse facilities and other financing arrangements as well as funds from our operations. Our borrowings are generally repaid with the proceeds we receive from mortgage loan sales. We require new and continued financing to fund mortgage loans and operate our business. We are generally required to renew many of our financing arrangements on a regular basis, which exposes us to refinancing and interest rate risks. Our ability to refinance our existing financial obligations and borrow additional funds is affected by a variety of factors beyond our control including:

- limitations imposed on us under our financing agreements that contain restrictive covenants and borrowing conditions, which may limit our ability to raise additional debt;
- restrictions imposed upon us by regulatory agencies that mandate certain minimum capital and liquidity requirements and additional scrutiny from such regulatory agencies;
- liquidity in the credit markets;
- prevailing interest rates;
- the strength of the lenders from which we borrow, and the regulatory environment in which they operate, including proposed capital strengthening requirements;
- limitations on borrowings from financing arrangements imposed by the amount of eligible collateral pledged, which may be less than the borrowing capacity of the credit facility; and
- accounting changes that may impact calculations of covenants in our financing arrangements.

We are also dependent on a limited number of banking institutions that extend us credit on terms that we have determined to be commercially reasonable. These banking institutions are subject to their own regulatory supervision, liquidity and capital requirements, risk management frameworks, profitability and risk thresholds and tolerances, any of which may change materially and negatively impact their business strategies, including their extension of credit to us specifically or mortgage lenders and servicers generally. Certain banking institutions have already exited, and others may in the future decide to exit the mortgage business. Such actions may increase our cost of capital and limit or otherwise eliminate our access to capital, in which case our business, financial condition, liquidity and results of operations would be materially and adversely affected.

In the event that any of our financial arrangements is terminated or is not renewed, or if the principal amount that may be drawn under our funding agreements that provide for immediate funding at closing were to significantly decrease, we may be unable to find replacement financing on commercially favorable terms, or at all, which could be detrimental to our business.

We finance our loans and other assets under secured financing agreements and utilize various other sources of borrowings, which exposes us to significant risk and may materially and adversely affect our business, financial condition, liquidity and results of operations.

We finance and, to the extent available, we intend to continue to leverage the loans produced through our loan production businesses with borrowings under repurchase agreements. When we enter into repurchase agreements, we sell mortgage loans to lenders, which are the repurchase agreement counterparties, and receive cash from the lenders. The lenders are obligated to resell the same assets back to us at the end of the term of the transaction. Because the cash that we receive from a lender when we initially sell the assets to that lender is less than the fair value of those assets (this difference is referred to as the haircut or margin), if the lender defaults on its obligation to resell the same assets back to us we could incur a loss on the transaction equal to the amount of the haircut or margin reduced by interest accrued on the repurchase agreement (assuming that there was no change in the fair value of the assets). Repurchase agreements generally allow the counterparties, to varying degrees, to determine a new fair value of the collateral to reflect current market conditions. If a counterparty lender determines that the fair value of the collateral has decreased, it may initiate a margin call and require us to either post additional collateral to cover such decrease or repay a portion of the outstanding borrowing. Should this occur, in order to obtain cash to satisfy a margin call, we may be required to liquidate assets at a disadvantageous time, which could cause us to incur further losses. If we are unable to satisfy a margin call, our counterparty may sell the collateral, which may result in significant losses to us.

In addition, we invest in certain assets, including MSRs and EBOs, for which financing has historically been difficult to obtain. We currently leverage certain of our MSRs and EBOs under secured financing arrangements. Freddie Mae MSRs are pledged through a special purpose entity to secure borrowings under a master repurchase agreement. Fannie Mae and Ginnie Mae MSRs are pledged to special purpose entities, each of which issues variable funding notes and term notes that are secured by such Fannie Mae or Ginnie Mae assets, as applicable, and repaid through the servicing cash flows. Some of our EBOs are contributed to a special purpose entity, which issues participation certificates pledged to secure borrowings under a master repurchase agreement. In each case, similar to our repurchase agreements, the cash that we receive under these secured financing arrangements is less than the fair value of the assets and a decrease in the fair value of the pledged collateral can result in a margin call. Should a margin call occur, we may be required to liquidate assets at a disadvantageous time, which could cause us to incur further losses. If we are unable to satisfy a margin call, the secured parties may sell the collateral, which may result in significant losses to us.

Each of the secured financing arrangements pursuant to which we finance MSRs is further subject to the terms of an acknowledgement agreement with Fannie Mae, Freddie Mac or Ginnie Mae, as applicable, pursuant to which our and the secured parties' rights are subordinate in all respects to the rights of the applicable Agency. Accordingly, the exercise by any of Fannie Mae, Freddie Mac or Ginnie Mae of its rights under the applicable acknowledgment agreement could result in the extinguishment of our and the secured parties' rights in the related collateral and result in significant losses to us.

We may in the future utilize other sources of borrowings, including term loans, bank credit facilities and structured financing arrangements, among others. The amount of leverage we employ varies depending on the asset class being financed, our available capital, our ability to obtain and access financing arrangements with lenders and the lenders' and rating agencies' estimate of, among other things, the stability of our cash flows. We can provide no assurance that we will have access to any debt or equity capital on favorable terms or at the desired times, or at all. Our inability to raise such capital or obtain financing on favorable terms could materially and adversely impact our business, financial condition, liquidity and results of operations.

Our financing agreements contain financial and restrictive covenants that could adversely affect our business, financial condition, liquidity and results of operations.

Our various financing agreements require us and/or our subsidiaries to comply with various restrictive covenants, including those relating to tangible net worth, profitability and our ratio of total liabilities to tangible net worth. Incurring substantial debt subjects us to the risk that our cash flows from operations may be insufficient to repurchase the assets that we have sold under our repurchase agreements or otherwise service the debt incurred under our other financing agreements. Our lenders also require us to maintain minimum amounts of cash or cash equivalents sufficient to maintain a specified liquidity position. In addition, the repayment of the unsecured senior notes will depend in part on our restricted subsidiaries' generation of cash flow and our restricted subsidiaries' ability to make such cash available to us, by dividend, debt repayment or other means. The unsecured senior note indentures contain additional restrictive covenants that limit our and our restricted subsidiaries' ability to engage in specified types of transactions, including our ability and/or the ability of our restricted subsidiaries to:

- pay dividends or distributions, redeem or repurchase equity, prepay subordinated debt and make certain loans or investments;
- merge or consolidate with another person or sell all or substantially all of our assets to another person;
- transfer, sell or otherwise dispose of certain assets including capital stock of subsidiaries;
- enter into transactions with affiliates; and
- allow to exist certain restrictions on the ability of non-guarantor restricted subsidiaries to pay dividends or make other payments to us.

If we fail to comply with the restrictive covenants and are unable to obtain a waiver or amendment, an event of default would result under the terms of our financing arrangement or could limit our ability to obtain additional financing on acceptable terms, or at all, for working capital and general corporate purposes. If an event of default occurs, our financing arrangements could be immediately due and payable, requiring us to apply all available cash to repay our financing arrangements, and if we were unable to repay or refinance our financial arrangements then any collateral securing the financial arrangements may be sold by our lenders.

We are subject to risks associated with the discontinuation of LIBOR.

As of December 31, 2021, one-week and two-month United States Dollar LIBOR (and certain non-U.S. dollar LIBOR settings) were discontinued, while the remaining non-U.S. dollar LIBOR settings ceased to be representative and thereafter began to be published only on a "synthetic basis". In addition, the UK Financial Conduct Authority (the "FCA"), which is the regulator of the LIBOR administrator, has announced that the principal United States Dollar LIBOR tenors (overnight and one, three, six and 12 months) will cease to be published by any administrator or will no longer be representative as of June 30, 2023. In addition, despite the expected publication of the principal United States Dollar LIBOR settings through June 30, 2023, the FCA has prohibited the firms it regulates from using such settings in new contracts (subject to limited exceptions).

Accordingly, many LIBOR obligations have transitioned to another benchmark or will soon do so. Different types of financial products have transitioned, or are expected to transition, to different benchmarks; and there is no assurance that any alternative benchmark will be the economic equivalent of any LIBOR setting. For some existing LIBOR-based obligations, the contractual consequences of the discontinuation of LIBOR may not be clear. Although the foregoing reflects the timing (or expected timing) of LIBOR discontinuation and certain consequences, there is no assurance that LIBOR, of any particular currency or tenor, will continue to be published until any particular date or in any particular form, and there is no assurance regarding the consequences of LIBOR discontinuation. Uncertainty as to the foregoing and the nature of alternative reference rates may adversely impact the availability and costs of borrowings.

The discontinuation of LIBOR could have a significant impact on the financial markets and our business activities. The cost of borrowing under certain of our financing arrangements is based on LIBOR. We also may hold assets and instruments used to hedge the value of certain assets with values or cash flows determined by reference to LIBOR. We expect to face challenges during the transition away from LIBOR for all of our LIBOR based financing arrangements, regardless of whether their maturity dates (as applicable) fall before or after the discontinuation date after June 30, 2023. These challenges include, but are not limited to, amending agreements or instruments underlying our existing and/or new LIBOR-based assets, financing arrangements, securities and liabilities with appropriate fallback language in such a way as to ensure economic equivalence with our LIBOR-based assets, financing arrangements and securities prior to the discontinuation of LIBOR, and the possibility that LIBOR may deteriorate as a viable benchmark to ensure a fair cost of funds for our LIBOR-linked liabilities, interest income for our LIBOR-linked assets, and/or the determination of fair value for certain of our assets and hedges using LIBOR as a benchmark rate or used to develop a market discount rate. In addition, the transition to using any new benchmark rate or other financial metric may require changes to existing transaction data, products, systems, models, operations and pricing processes.

We also anticipate additional risks to our current business activities as they relate to the discontinuation of LIBOR. We may service LIBOR-based adjustable rate mortgages for which the underlying mortgage notes incorporate fallback provisions, but we cannot anticipate the response of our borrowers or note holders to such risks. We may also incorporate LIBOR base rates for financial planning and reporting in our financial models.

In the United States, there have been efforts to identify alternative reference interest rates to replace United States Dollar LIBOR. The Alternative Reference Rates Committee has recommended that U.S. dollar LIBOR be replaced by rates based on the Secured Overnight Financing Rate (“SOFR”) plus, in the case of existing LIBOR contracts and obligations, a spread adjustment. The derivatives markets are also expected to use SOFR-based rates to replace U.S. dollar LIBOR. SOFR is intended to be a broad measure of the cost of borrowing funds overnight in transactions that are collateralized by U.S. Treasury securities. LIBOR is intended to be an unsecured rate that represents interbank funding costs for different short-term tenors and, other than its overnight setting, reflects expectations regarding future interest rates. Thus, LIBOR is generally intended to be sensitive to bank credit risk and to short-term interest rate expectations and SOFR is intended to be insensitive to credit risk and to risks related to interest rates other than overnight rates. These fundamental differences between LIBOR and SOFR mean we are unable to clearly assess the risk of transitioning from LIBOR to SOFR for any of our LIBOR-based liabilities or assets.

Due to these risks, we expect that both the impending and actual discontinuation of LIBOR could affect our interest expense and earnings, our cost of capital, and the fair value of certain of our assets and the instruments we use to hedge their fair value. For the same reason, we also can provide no assurance that changes in the fair value of our hedge instruments will effectively offset changes in the fair value of the assets they are expected to hedge. Furthermore, the transition away from widely used benchmark rates like LIBOR could result in customers or other market participants challenging the determination of their interest or dividend payments, disputing the interpretations or implementation of contract or instrument “fallback” provisions and other transition related changes. Our inability to manage these risks effectively may adversely affect our business, financial condition, liquidity and results of operations.

Hedging against interest rate exposure may materially and adversely affect our results of operations and cash flows.

We pursue hedging strategies primarily in an effort to mitigate the effect of changes in interest rates on the fair value of our assets. To manage this price risk, we use derivative financial instruments acquired with the intention of moderating the risk that changes in market interest rates will result in unfavorable changes in the fair value of our assets, primarily prepayment exposure on our MSR investments as well as interest rate lock commitments (“IRLCs”) and our inventory of loans held for sale. For example, with respect to our IRLCs and inventory of loans held for sale, we may use MBS forward sale contracts to lock in the price at which we will sell the mortgage loans or resulting MBS, and MBS put options to mitigate the risk of our IRLCs not closing at the rate we expect. In addition, with respect to our MSRs, we may use MBS forward purchase and sale contracts to address exposures to smaller interest rate shifts with Treasury and interest rate swap futures, and use options and swaptions to achieve target coverage levels for larger interest rate shocks.

Our hedging activity will vary in scope based on the risks being mitigated, the level of interest rates, the type of investments held, and other changing market conditions such as those resulting from the long term impact of the COVID-19 pandemic. Hedging instruments involve risk because they often are not traded on regulated exchanges, guaranteed by an exchange or its clearing house, or regulated by any U.S. or foreign governmental authorities, and our interest rate hedging may fail to protect or could adversely affect us because, among other things:

- interest rate hedging can be expensive, particularly during periods of rising and volatile interest rates;
- available interest rate hedging may not correspond directly with the interest rate risk for which protection is sought;
- the duration of the hedge may not match the duration of the related liability or asset;
- the credit quality of the hedging counterparty owing money on the hedge may be downgraded to such an extent that it impairs our ability to sell or assign our side of the hedging transaction; and
- the hedging counterparty owing the money in the hedging transaction may default on its obligation to pay.

In addition, we may fail to recalculate, re-adjust and execute hedges in an efficient manner. Any hedging activity, which is intended to limit losses, may materially and adversely affect our results of operations and cash flows. Therefore, while we may enter into such transactions seeking to reduce interest rate risk, unanticipated changes in interest rates may result in worse overall investment performance than if we had not engaged in any such hedging transactions. A liquid secondary market may not exist for a hedging instrument purchased or sold, and we may be required to maintain a position until exercise or expiration, which could result in significant losses. In addition, the degree of correlation between price movements of the instruments used in hedging strategies and price movements in the portfolio positions or liabilities being hedged may vary materially. Moreover, for a variety of reasons, we may not establish an effective correlation between such hedging instruments and the portfolio positions or liabilities being hedged. Any such ineffective correlation may prevent us from achieving the intended hedge and expose us to risk of loss. Numerous regulations currently apply to hedging and any new regulations or changes in existing regulations may significantly increase our administrative or compliance costs. Our derivative agreements generally provide for the daily mark to market of our hedge exposures. If a hedge counterparty determines that its exposure to us exceeds its exposure threshold, it may initiate a margin call and require us to post collateral. If we are unable to satisfy a margin call, we would be in default of our agreement, which could have a material adverse effect on our business, financial condition, liquidity and results of operations.

We utilize derivative financial instruments, which could subject us to risk of loss.

We utilize derivative financial instruments for hedging purposes, which may include swaps, options and futures; however, the prices of derivative financial instruments are highly volatile. As a result, the cost of utilizing derivatives may reduce our income that would otherwise be available for distribution to stockholders or for other purposes, and the derivative instruments that we utilize may fail to effectively hedge our positions. We are also subject to credit risk with regard to the counterparties involved in the derivative transactions.

We are exposed to a number of risks relating to holding derivative instruments. A liquid secondary market may not exist for a hedging instrument purchased or sold, and we may be required to maintain a position until exercise or expiration, which could result in significant losses. In addition, the degree of correlation between price movements of the instruments used in hedging strategies and price movements in the portfolio positions or liabilities being hedged may vary materially. Moreover, for a variety of reasons, we may not establish an effective correlation between such hedging instruments and the portfolio positions or liabilities being hedged. Any such ineffective correlation may prevent us from achieving the intended hedge and expose us to risk of loss. Numerous regulations currently apply to hedging and any new regulations or changes in existing regulations may significantly increase our administrative or compliance costs. Our derivative agreements generally provide for the daily mark to market of our hedge exposures. If a hedge counterparty determines that its exposure to us exceeds its exposure threshold, it may initiate a margin call and require us to post collateral. If we are unable to satisfy a margin call, we would be in default of our agreement, which could have a material adverse effect on our business, financial condition, liquidity and results of operations.

The use of derivative instruments is also subject to an increasing number of laws and regulations, including the Dodd-Frank Act and other federal regulations. These laws and regulations are complex, compliance with them may be costly and time consuming, and our failure to comply with any of these laws and regulations could subject us to lawsuits or government actions and damage our reputation, which could materially and adversely affect our business, financial condition, liquidity, results of operations and ability to make distributions to our stockholders.

We use estimates in determining the fair value of our MSRs, which are highly volatile assets with continually changing fair values. If our estimates of their value prove to be inaccurate, we may be required to write down the fair values of the MSRs which could adversely affect our business, financial condition, liquidity and results of operations.

Our estimates of the fair value of our MSRs is based on the cash flows projected to result from the servicing of the related mortgage loans and continually fluctuates due to a number of factors. These factors include prepayment speeds, interest rate changes, costs to service the loans and other market conditions.

We use internal financial models that utilize our understanding of inputs used by market participants to value our MSRs for purposes of financial reporting and for purposes of determining the price that we pay for portfolios of MSRs and to acquire loans for which we will retain MSRs. These models are complex and use asset-specific collateral data and market inputs for interest and discount rates. In addition, the modeling requirements of MSRs are complex because of the high number of variables that drive cash flows associated with MSRs. Even if the general accuracy of our valuation models is validated, valuations are highly dependent upon the reasonableness of our inputs and the results of the models.

If loan delinquencies or prepayment speeds are different than anticipated or other factors perform differently than modeled, the recorded fair value of certain of our MSRs may change. Significant differences in performance could increase the chance that we do not adequately estimate the effect of these factors on our valuations which could result in misstatements of our financial results, restatements of our financial statements, or otherwise materially and adversely affect our business, financial condition, liquidity and results of operations.

The geographic concentration of our servicing portfolio may be affected by weaker economic conditions or adverse events specific to certain regions which could decrease the fair value of our MSRs and adversely affect our business, financial condition, liquidity and results of operations.

A decline in the economy, the long term impact of the COVID-19 pandemic or other difficulties in certain real estate markets may cause a decline in the value of residential and commercial properties. To the extent that certain states in which we have greater concentrations of business in the future experience weaker economic conditions or greater rates of decline in real estate values than the United States generally, such concentration may disproportionately decrease the fair value of our MSRs and adversely affect our loan production businesses. The impact of property value declines may increase in magnitude and it may continue for a long period of time. Additionally, if states in which we have greater concentrations of business were to change their licensing or other regulatory requirements to make our business cost-prohibitive, we may be required to stop doing business in those states or may be subject to a higher cost of doing business in those states, which could have a material adverse effect on our business, financial condition, liquidity and results of operations.

Increases in delinquencies and defaults may adversely affect our business, financial condition, liquidity and results of operations.

Delinquencies can result from many factors including unemployment, weak economic conditions or real estate values, or catastrophic events such as man-made or natural disasters, pandemics, war or terrorist attacks. A decrease in home prices may result in higher loan-to-value ratios (“LTVs”), lower recoveries in foreclosure and an increase in loss severities above those that would have been realized had property values remained the same or continued to increase. Some borrowers do not have sufficient equity in their homes to permit them to refinance their existing loans, which may reduce the volume of our loan production business. This may also provide borrowers with an incentive to default on their mortgage loans even if they have the ability to make principal and interest payments.

Increased mortgage delinquencies, defaults and foreclosures may result in lower revenue for loans that we service for the Agencies because we only collect servicing fees from the Agencies for performing loans, and our failure to service delinquent and defaulted loans in accordance with the applicable servicing guidelines could result in our failure to benefit from available monetary incentives and/or expose us to monetary penalties and curtailments. Additionally, while increased delinquencies generate higher ancillary fees, including late fees, these fees may not be recoverable if the related loan is liquidated or due to CARES Act restrictions or other requirements or as a result of the COVID-19 pandemic. In addition, an increase in delinquencies lowers the interest income that we receive on cash held in collection and other accounts because there is less cash in those accounts. Also, increased mortgage defaults may ultimately reduce the number of mortgages that we service.

Increased mortgage delinquencies, defaults and foreclosures will also result in a higher cost to service those loans due to the increased time and effort required to collect payments from delinquent borrowers and to acquire and liquidate the properties securing the loans or otherwise resolve loan defaults if payment collection is unsuccessful, and only a portion of these increased costs are recoverable under our servicing agreements. Increased mortgage delinquencies, defaults and foreclosures may also result in an increase in servicing advances we are obligated to make to fulfill our obligations to MBS holders and to protect our investors' interests in the properties securing the delinquent mortgage loans. An increase in required advances also may cause an increase in our interest expense and affect our liquidity as a result of increased borrowings under our financing agreements to fund any such increase in the advances.

We are required to make servicing advances that can be subject to delays in recovery or may not be recoverable due to delinquencies, defaults and foreclosures that could adversely affect our business, financial condition, liquidity and results of operations.

During any period in which a borrower is not making payments, we may be required under our servicing agreements in respect of our MSRs to advance our own funds to pay property taxes and insurance premiums, legal expenses and other protective advances, and may be required to advance principal and interest payments to security holders of the MBS into which the loans are sold. We also advance funds under these agreements to maintain, repair and market real estate properties on behalf of investors. As home values change, we may have to reconsider certain of the assumptions underlying our decisions to make advances and, in certain situations, our contractual obligations may require us to make advances for which we may not be reimbursed. In addition, if a loan serviced by us is in default or becomes delinquent, the repayment to us of the advance may be delayed until the loan is repaid or refinanced or a liquidation occurs. Federal, state or local regulatory actions may also result in an increase in the amount of servicing advances that we are required to make, lengthen the time it takes for us to be reimbursed for such advances and increase the costs incurred while the loan is delinquent. A delay in our ability to collect advances may adversely affect our liquidity, and our inability to be reimbursed for advances could have a material adverse effect on our business, financial condition, liquidity, results of operations and ability to make distributions to our stockholders.

In addition, increased mortgage delinquencies, defaults and foreclosures will also result in a higher cost to service those loans due to the increased time and effort required to collect payments from delinquent borrowers, to foreclose on the loan and to liquidate properties or otherwise resolve loan defaults if payment collection is unsuccessful.

Any significant increases in delinquencies, defaults and foreclosures on loans that we service in respect of FHA, VA, and USDA related MSRs could result in an increase in servicing expenses as well as losses since the loans may not be fully insured or guaranteed under each of the VA, the FHA and the USDA government loan programs.

- **FHA Insurance** - FHA loans are insured for the entire unpaid principal balance of the loan. However, if the FHA loan defaults or goes into foreclosure, the servicer is only compensated for two-thirds of its incurred foreclosure costs. In addition, the servicer is only reimbursed for any interest accrued and unpaid from a date 60 days after the borrower's first uncorrected failure to perform, and the interest is reimbursed at the HUD debenture interest rate that may be lower than the actual loan rate.

- *VA and USDA Guarantees* - VA and USDA loans are only partially guaranteed by the government and if such loan defaults or goes into foreclosure, the VA or USDA guarantees may not fully cover all principal, interest and other fees and advances we may have incurred on the outstanding VA or USDA loan, and we may suffer a loss.

We may also be subject to additional curtailments to servicing and advance reimbursements if we have not satisfied VA, USDA or FHA timing, service and other regulatory requirements during the foreclosure and conveyance process.

We have MSR and MSL servicing agreements of \$253.0 billion of UPB consisting of FHA, VA, and USDA mortgage loans that represent approximately 80% of our total outstanding UPB of MSRs as of December 31, 2022. Any significant increase in delinquencies, defaults and foreclosures on loans that increase our servicing advances, reduce property value or otherwise delay our ability to dispose of the properties underlying the loan could have a material adverse effect on our business, financial condition, liquidity and results of operations.

Our acquisition and ownership of mortgage servicing rights exposes us to significant risks.

MSRs arise from contractual agreements between us and the investors (or their agents) in loans and MBS that we service on their behalf. We generally acquire MSRs in connection with our sale of loans to the Agencies where we assume the obligation to service such loans on their behalf. Any MSRs we acquire are initially recorded at fair value on our balance sheet. The determination of the fair value of MSRs requires our management to make numerous estimates and assumptions. Such estimates and assumptions include, without limitation, estimates of future cash flows associated with MSRs based upon assumptions involving interest rates as well as the prepayment rates, delinquencies and foreclosure rates of the underlying serviced loans. The ultimate realization of the MSRs may be materially different than the values of such MSRs as may be reflected in our consolidated balance sheet as of any particular date. Different persons in possession of the same facts may reasonably arrive at different conclusions as to the inputs and assumptions used to determine MSR fair value. The use of different estimates or assumptions in connection with the valuation of these assets could produce materially different fair values for such assets, which could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Prepayment speeds significantly affect MSRs. Prepayment speed is the measurement of how quickly borrowers pay down the unpaid principal balance of their loans or how quickly loans are otherwise brought current, modified, liquidated or charged off. We base the price we pay for MSRs on, among other things, our projection of the cash flows from the related pool of loans. Our expectation of prepayment speeds is a significant input to our cash flow projections. If prepayment speed expectations increase significantly, the fair value of the MSRs could decline and we may be required to record a non-cash charge that would have a negative impact on our financial results.

Furthermore, a significant increase in prepayment speeds could materially reduce the cash flows we receive from MSRs, and we could ultimately receive substantially less than what we paid for such assets. Delinquency rates have a significant impact on the valuation of MSRs. An increase in delinquencies generally results in lower revenue because typically we only collect servicing fees from Agencies or mortgage owners when we collect payments from the borrower. Our expectation of delinquencies is also a significant input underlying our cash flow projections. If delinquencies are significantly greater than we expect, the estimated fair value of the MSRs could be diminished. When the estimated fair value of MSRs is reduced, we could suffer a loss, which could have a material adverse effect on our business, financial condition, liquidity, results of operations and ability to make distributions to our stockholders.

Changes in interest rates are a key driver of the performance of MSRs. Historically, the fair value of MSRs has increased when interest rates increase and decrease when interest rates decrease due to the effect those changes in interest rates have on prepayment estimates. We may pursue various hedging strategies to seek to reduce our exposure to adverse changes in fair value resulting from changes in interest rates. Our hedging activity will vary in scope based on the level and volatility of interest rates, the type of assets held and other changing market conditions. Interest rate hedging may fail to protect or could adversely affect us. To the extent we do not utilize derivative financial instruments to hedge against changes in fair value of MSRs or the derivatives we use in our hedging activities do not perform as expected, our business, financial condition, liquidity, results of operations and ability to make distributions to our stockholders would be more susceptible to volatility due to changes in the fair value of, or cash flows from, MSRs as interest rates change. Furthermore, MSRs and the related servicing activities are subject to numerous federal, state and local laws and regulations and may be subject to various judicial and administrative decisions imposing various requirements and restrictions on our business. For example, the CARES Act allows borrowers with federally-backed loans to request temporary payment forbearance in response to the increased borrower hardships resulting from the long term impact of the COVID-19 pandemic.

Our failure to comply, or the failure of the servicer to comply, with the laws, rules or regulations to which we or they are subject by virtue of ownership of MSRs, whether actual or alleged, could expose us to fines, penalties or potential litigation liabilities, including costs, settlements and judgments, any of which could have a material adverse effect on our business, financial condition, liquidity, results of operations and ability to make distributions to our stockholders.

A disruption in the MBS market could materially and adversely affect our business, financial condition, liquidity and results of operations.

Most of the loans that we produce are pooled into MBS issued by Fannie Mae or Freddie Mac or guaranteed by Ginnie Mae. In addition, interest rates and the liquidity of the MBS market could be impacted by Federal Reserve increasing the federal funds rate, tapering future MBS purchases or selling MBS. Any significant disruption or period of illiquidity in the general MBS market would directly affect our own liquidity because no existing alternative secondary market would likely be willing and able to accommodate on a timely basis the volume of loans that we typically sell in any given period. Furthermore, we would remain contractually obligated to fund loans under our outstanding IRLCs without being able to sell our existing inventory of mortgage loans. Accordingly, if the MBS market experiences a period of illiquidity, we might be prevented from selling the loans that we produce into the secondary market in a timely manner or at favorable prices and we would be required to hold a larger inventory of loans than we have committed facilities to fund or we may be required to repay a portion of the debt secured by these assets, which could materially and adversely affect our business, financial condition and results of operations.

We may be required to indemnify the purchasers of loans that we originate, acquire or assist in the fulfillment of, or repurchase those loans, if those loans fail to meet certain criteria or characteristics or under other circumstances and we may be unable to seek indemnity or require our counterparties to repurchase loans if they breach representations and warranties they make to us.

Our contracts with purchasers of newly originated loans that we fund or acquire through our loan production business contain provisions that require us to indemnify the purchaser of the related loans or repurchase such loans under certain circumstances. Our loan sale agreements with purchasers, including the Agencies, contain provisions that generally require us to indemnify or repurchase these loans if our representations and warranties concerning loan quality and loan characteristics are inaccurate; or the loans fail to comply with the respective Agency's underwriting or regulatory requirements.

When we purchase mortgage loans, our counterparty typically makes customary representations and warranties to us about such loans and we may be entitled to seek indemnity or demand repurchase or substitution of the loans in the event our counterparty breaches a representation or warranty given to us. However, there can be no assurance that our loan purchase agreements will contain appropriate representations and warranties, that we will be able to enforce our contractual right to demand repurchase or substitution, or that our counterparty will remain solvent or otherwise be willing and able to honor its obligations under our loan purchase agreements. Depending on the volume of repurchase and indemnification requests, some of these mortgage lenders may not be able to financially fulfill their obligation to indemnify us or repurchase the affected loans. If a material amount of recovery cannot be obtained from these mortgage lenders, our business, financial condition, liquidity and results of operations could be materially and adversely affected.

Repurchased loans typically can only be financed at a steep discount to their repurchase price, if at all. Although our indemnification and repurchase exposure cannot be quantified with certainty, to recognize these potential indemnification and repurchase losses, we have recorded a liability of \$32.4 million as of December 31, 2022. Because of the increase in our loan production over time, we expect that indemnification and repurchase requests are also likely to increase. Should home values decrease and negatively impact the related loan values, our realized loan losses from indemnifications and repurchases may increase as well. As such, our indemnification and repurchase costs may increase well beyond our current expectations. In addition, our mortgage banking services agreement with PMT requires us to indemnify it with respect to loans for which we provide fulfillment services in certain instances. If we are required to indemnify PMT or other purchasers against losses, or repurchase loans from PMT or other purchasers, that result in losses that exceed the recorded liability, this could have a material adverse effect on our business, financial condition, liquidity and results of operations.

We depend on the accuracy and completeness of information about borrowers and counterparties and any misrepresented information could adversely affect our business, financial condition, liquidity and results of operations.

In deciding whether to approve loans or to enter into other transactions across our businesses with counterparties, including borrowers, brokers and correspondent lenders, we may rely on information furnished to us by or on behalf of borrowers and such counterparties, including financial statements and other financial information. We also may rely on representations of borrowers and such counterparties as to the accuracy and completeness of that information and, with respect to financial statements, on reports of independent auditors.

If any of this information is intentionally or negligently misrepresented and such misrepresentation is not detected prior to loan funding, the fair value of the loan may be significantly lower than expected. Whether a misrepresentation is made by the loan applicant, another party or one of our employees, we generally bear the risk of loss associated with the misrepresentation. Our controls and processes may not have detected or may not detect all misrepresented information in our loan originations or acquisitions. Any such misrepresented information could have a material adverse effect on our business, financial condition, liquidity and results of operations.

Our counterparties may terminate our MSRs, which could adversely affect our business, financial condition, liquidity and results of operations.

As is standard in the industry, under the terms of our master servicing agreements with the Agencies in respect of Agency MSRs that we retain in connection with our loan production, the Agencies have the right to terminate us as servicer of the loans we service on their behalf at any time (and, in certain instances, without the payment of any termination fee) and also have the right to cause us to sell the MSRs to a third party. In addition, our failure to comply with applicable servicing guidelines could result in our termination under such master servicing agreements by the Agencies with little or no notice and without any compensation. The owners of other non-Agency loans that we service may also terminate certain of our MSRs if we fail to comply with applicable servicing guidelines. If the MSRs are terminated on a material portion of our servicing portfolio, our business, financial condition, liquidity and results of operations could be adversely affected.

Failure to successfully modify, resell or refinance EBO loans or defaults of the EBO loans beyond expected levels may adversely affect our business, financial condition, liquidity and results of operations.

As a mortgage servicer, we have an early buyout repurchase option for loans that are at least three months delinquent in our Ginnie Mae MSR portfolio. Purchasing delinquent Ginnie Mae loans provides us with an alternative to our mortgage servicing obligation of advancing principal and interest at the coupon rate of the related Ginnie Mae security. While our EBO program reduces the cost of servicing the Ginnie Mae loans, it may also accelerate loss recognition when the loans are repurchased because we are required to write off accumulated non-reimbursable interest advances and other costs at the time of repurchase. After purchasing delinquent Ginnie Mae loans, we expect to repool many of the delinquent loans into another Ginnie Mae guaranteed security upon the delinquent loans becoming current either through the borrower's reperformance or through the completion of a loan modification; however, there is no guarantee that any delinquent loan will reperform or be modified or resold. Failure to successfully modify, resell or refinance our repurchased Ginnie Mae loans or a significant portion of the repurchased Ginnie Mae loans defaulting beyond expectations may adversely affect our business, financial condition, liquidity and results of operations.

We may not realize all of the anticipated benefits of potential future acquisitions of MSRs, which could adversely affect our business, financial condition, liquidity and results of operations.

Our ability to realize the anticipated benefits of potential future acquisitions of servicing portfolios will depend, in part, on our ability to appropriately service any such assets. The process of acquiring these assets may disrupt our business and may not result in the full benefits expected. The risks associated with these acquisitions include, among others, unanticipated issues in integrating information regarding the new loans to be serviced into our information technology systems, and the diversion of management's attention from other ongoing business concerns. Moreover, if we inappropriately value the assets that we acquire or the fair value of the assets that we acquire declines after we acquire them, the resulting charges may negatively affect both the carrying value of the assets on our balance sheet and our earnings. Furthermore, if we incur additional indebtedness to finance an acquisition, the acquired servicing portfolio may not be able to generate sufficient cash flows to service that additional indebtedness. Unsuitable or unsuccessful acquisitions could have a material adverse effect on our business, financial condition, liquidity and results of operations.

We are subject to significant financial and reputational risks from potential liability arising from lawsuits, and regulatory and government action.

We face significant legal risks in our business, and the volume of claims and amount of damages, penalties and fines claimed in litigation, and regulatory and government proceedings against us and other financial institutions remains high. For example, in 2019 Black Knight Servicing Technologies, LLC filed a legal claim against us for alleged breach of contract and misappropriation of trade secrets. Greater than expected investigation costs and litigation, including class action lawsuits associated with compliance related issues, substantial legal liability or significant regulatory or government action against us could have adverse effects on our financial condition and results of operations or cause significant reputational harm to us, which in turn could adversely impact our business results and prospects. We may experience a significant volume of litigation and other disputes, including claims for contractual indemnification, with counterparties regarding relative rights and responsibilities. Consumers, clients and other counterparties may also become increasingly litigious.

We also may be exposed to the risk of litigation by investors and entities that we manage from time to time if our management advice is alleged to constitute gross negligence or willful misconduct, up to the entire amount of loss. Further, we may be subject to litigation arising from investor dissatisfaction with PMT's financial performance or if we improperly exercised control or influence over PMT. In addition, we are exposed to risks of litigation or investigation relating to transactions which presented conflicts of interest that were not properly addressed. In such actions, we would be obligated to bear legal, settlement and other costs (which may be in excess of available insurance coverage). In addition, although we are generally indemnified by PMT, our rights to indemnification may be challenged. If we are required to incur all or a portion of the costs arising out of litigation or investigations as a result of inadequate insurance proceeds or failure to obtain indemnification, our business, financial condition, liquidity and results of operations would be materially and adversely affected.

We depend on counterparties and vendors to provide services that are critical to our business, which subjects us to a variety of risks.

We have a number of counterparties and vendors, who provide us with financial, technology and other services that are critical to support our businesses. If our current counterparties and vendors were to stop providing services to us on acceptable terms or if we had a disruption in service due to a vendor dispute, we may be unable to procure alternative services from other counterparties or vendors in a timely and efficient manner and on similarly acceptable terms, or at all. Some of these counterparties and vendors have significant operations outside of the United States. If we or our vendors had to curtail or cease operations in these countries due to political unrest or natural disasters and then transfer some or all of these operations to another geographic area, we could experience disruptions in service and incur significant transition costs as well as higher future overhead costs. We may also outsource certain services to vendors located in foreign countries such as India and the Philippines with emerging technology, political and regulatory infrastructures that could result in future business disruptions or reputational damages. With respect to vendors engaged to perform certain servicing activities, we are required to assess their compliance with various regulations and establish procedures to provide reasonable assurance that the vendor's activities comply in all material respects with such regulations. In the event that a vendor's activities are not in compliance, it could negatively impact our relationships with our regulators, as well as our business and operations. Further, we may incur significant costs to resolve any such disruptions in service which could have a material adverse effect on our business, financial condition, liquidity and results of operations.

Our failure to appropriately address various issues that may give rise to reputational risk could cause harm to our business and adversely affect our earnings.

Our business is subject to significant reputational risks. If we fail, or appear to fail, to address various issues that may give rise to reputational risk, we could significantly harm our business prospects and earnings. Such issues include, but are not limited to, actual or perceived conflicts of interest, violations of legal or regulatory requirements, and any of the other risks discussed in this Item 1A. Similarly, market rumors and actual or perceived association with counterparties whose own reputations are under question could harm our business.

Certain of our officers also serve as officers of PMT. As we expand the scope of our businesses, we increasingly confront potential conflicts of interest relating to investment activities that we manage for PMT. The SEC and certain regulators have increased their scrutiny of potential conflicts of interest, and as we experience growth in our businesses, we continue to monitor and mitigate or otherwise address any conflicts between our interests and those of PMT through the implementation of procedures and controls. Reputational risk incurred in connection with conflicts of interest could negatively affect our business, strain our working relationships with regulators and government agencies, expose us to litigation and regulatory action, impact our ability to attract and retain clients, customers, trading counterparties, investors and employees and adversely affect our results of operations.

Reputational damage can result from our actual or alleged conduct in any number of activities, including lending and debt collection practices, corporate governance, and actions taken by government regulators and community organizations in response to those activities. Negative public opinion can also result from social media and media coverage, whether accurate or not. Our reputation may also be negatively impacted by our environmental, social and governance (“ESG”) practices and disclosures, including climate change practices and disclosures. In addition, various private third party organizations have developed ratings processes for evaluating companies on their approach to ESG matters. These third party ESG ratings may be used by some investors to assist with their investment and voting decisions. Any unfavorable ESG ratings may lead to reputational damage and negative sentiment among our investors and other stakeholders. These factors could impair our working relationships with government agencies and investors, expose us to litigation and regulatory action, negatively affect our ability to attract and retain customers, trading counterparties and employees, significantly harm our stock price and ability to raise capital, and adversely affect our results of operations.

Accounting rules for certain of our transactions are highly complex and involve significant judgment and assumptions. Changes in accounting interpretations or assumptions could impact our financial statements.

Accounting rules for mortgage loan sales and securitizations, valuations of financial instruments and MSRs, investment consolidations, income taxes and other aspects of our operations are highly complex and involve significant judgment and assumptions. These complexities could lead to a delay in preparation of financial information and the delivery of this information to our stockholders and also increase the risk of errors and restatements, as well as the cost of compliance. Our inability to timely prepare our financial statements in the future would likely be considered a breach of our financial covenants and adversely affect our share price significantly. Changes in accounting interpretations or assumptions as well as accounting rule misinterpretations could result in differences in our financial results or otherwise have a material adverse effect on our business, financial condition, liquidity and results of operations.

The success and growth of our business depends upon our ability to adapt to and implement technological changes and to successfully develop, implement and protect proprietary technology.

Our success in the mortgage industry is highly dependent upon our ability to adapt to constant technological changes, successfully enhance our current information technology solutions through the use of third-party and our proprietary technologies, and introduce new solutions and services that more efficiently address the needs of our customers.

Our mortgage loan production businesses are dependent upon our ability to effectively interface with our borrowers, mortgage lenders and other third parties and to efficiently process loan applications and closings. The direct lending processes are becoming more dependent upon technological advancement, such as our continued ability to process applications over the Internet, accept electronic signatures, provide process status updates instantly and other borrower- or counterparty-expected conveniences. In our correspondent production activities, our and PMT's correspondent sellers also expect and require certain conveniences and service levels that are dependent on technological advancement.

We have developed a workflow-driven, cloud-based loan acquisition platform and while we anticipate that the cloud-based system will increase scalability and produce other efficiencies, there can be no assurance that the cloud-based system will prove to be effective or that such correspondent sellers will easily adapt to the cloud-based system. Any failure to effectively or timely transition to our new system and meet our expectations and the expectations of our correspondent sellers could have a material adverse effect on our business, financial condition and results of operations.

Similarly, our servicing business is dependent on our ability to effectively interface with our customers and investors, as well as service mortgage loans in compliance with applicable laws and regulations and the contractual requirements of such investors. For example, our proprietary workflow-driven, cloud-based servicing system provides for real-time processing and advanced workflow management thereby reducing servicing costs, increasing scalability and creating sustainable efficiencies.

The development, implementation and protection of these technologies and becoming more proficient with them may also require significant capital and operating expenditures. As these technological advancements increase in the future, we will need to further develop and invest in these technological capabilities to remain competitive. Moreover, litigation has become required to protect our technologies and such litigation is expected to be time consuming and result in substantial costs and diversion of resources.

We rely on a combination of trademarks, copyrights, and trade secrets, as well as confidentiality and contractual provisions to protect our intellectual property and proprietary technologies. In addition, we also license and utilize third party proprietary technologies and loss of rights to significant third party proprietary technologies may result in decreased product functionality. The development, implementation and protection of our intellectual property and proprietary technologies requires significant human resources and capital expenditures. As these technological advancements and investor and compliance requirements increase in the future, we will need to further develop these technological capabilities to remain competitive, and we will need to implement, execute and maintain them in an operating and regulatory environment that exposes us to significant risk.

There is no assurance that we will be able to successfully adopt new technologies as critical systems and applications become obsolete and better ones become available. Any failure by us to develop, implement, integrate, execute or maintain our technological capabilities and any litigation costs associated with protection of our technologies could have a material adverse effect on our business, financial condition and results of operations.

Climate change, adverse weather conditions, man-made or natural disasters, pandemics, terrorist attacks, and other long term physical and environmental changes and conditions could adversely impact properties that we own or that collateralize loans we own or service, as well as geographic areas where we conduct business.

Climate change, adverse weather conditions, man-made or natural disasters, pandemics, terrorist attacks and other long term physical and environmental changes and conditions could adversely impact properties that we own or that collateralize loans we own or service, as well as geographic areas where we conduct business. In addition, such adverse conditions and long term physical and environmental changes could impact the demand for, and value of, our assets, as well as the cost to service or manage such assets, or directly impact the value of our assets through damage, destruction or loss, and thereafter materially impact the availability or cost of insurance to protect against these events. Upon the occurrence of a catastrophic event, we may be unable to continue our operations and may endure significant business interruptions, reputational harm, delays in servicing our customers and working with our partners, interruptions in the availability of our technology and systems, breaches of data security, and loss of critical data, all of which could have an adverse effect on our future operating results. Catastrophic events may also be uninsurable or not economically insurable and might make the insurance proceeds insufficient to repair or replace a property if it is damaged or destroyed.

There is an increasing global concern over the risks of climate change and related environmental sustainability matters. The physical risks of climate change may include rising average global temperatures, rising sea levels and an increase in the frequency and severity of extreme weather events and natural disasters, including floods, wildfires, hurricanes, earthquakes and tornados, and these events could impact our owned real estate and the properties collateralizing our loan assets or underlying our MSR assets and the local economies of certain areas in which we operate. Although we believe our owned real estate and the properties collateralizing our loan assets or underlying our MSR assets are appropriately covered by insurance, we cannot predict at this time if we or our borrowers will be able to obtain appropriate coverage at a reasonable cost in the future, or if we will be able to continue to pass along all of the costs of insurance. There also is a risk that one or more of our property insurers may not be able to fulfill their obligations with respect to payment claims due to a deterioration in its financial condition or may even cancel policies due to increasing costs of providing insurance coverage in certain geographic areas. Further, numerous treaties, laws and regulations have been enacted or proposed in an effort to regulate climate change, including regulations aimed at limiting greenhouse gas emissions and the implementation of “green” building codes. These laws and regulations may impact the rates at which we obtain property insurance and result in increased operating costs, or impose substantial costs on our borrowers or affect their ability to obtain appropriate coverage at reasonable costs. We may also incur costs associated with increased regulations or investor requirements for increased environmental and social disclosures and reporting. Additionally, climate change concerns could result in transition risk. Changes in consumer preferences and additional legislation and regulatory requirements, including those associated with a transition to a low-carbon economy, could increase expenses or otherwise adversely impact our operations and business.

Regulatory Risks

We operate in a highly regulated industry and the continually changing federal, state and local laws and regulations could materially and adversely affect our business, financial condition, liquidity and results of operations.

We are required to comply with a wide array of federal, state and local laws and regulations that regulate, among other things, the manner in which we conduct our businesses. These regulations directly impact our business and require constant compliance, monitoring and internal and external audits and examinations by federal and state regulators. Our failure to operate effectively and in compliance with any of these laws, regulations and rules could subject us to lawsuits or governmental actions and damage our reputation, which could materially and adversely affect our business, financial condition, liquidity and results of operations. In addition, our failure to comply with these laws, regulations and rules may result in increased costs of doing business, reduced payments by borrowers, modification of the original terms of mortgage loans, permanent forgiveness of debt, delays in the foreclosure process, increased

servicing advances, litigation, reputational damage, enforcement actions, and repurchase and indemnification obligations. Further, we may be required to pay substantial penalties imposed by our regulators due to compliance errors, or we may lose our licenses to originate and/or service loans.

We must also comply with a number of federal, state and local consumer protection and state foreclosure laws. These statutes apply to loan origination, servicing, debt collection, marketing, use of credit reports, safeguarding of non-public, personally identifiable information about our clients, foreclosure and claims handling, investment of and interest payments on escrow balances and escrow payment features, and mandate certain disclosures and notices to customers.

Because we are not a federally chartered depository institution, we generally do not benefit from federal pre-emption of state mortgage loan banking, loan servicing or debt collection licensing and regulatory requirements and must comply with multiple state licensing and compliance requirements. These state rules and regulations generally provide for, but are not limited to: originator, servicer and debt collector licensing requirements, requirements as to the form and content of contracts and other documentation, employee licensing and background check requirements, fee requirements, interest rate limits, and disclosure and record-keeping requirements.

Regulatory agencies and consumer advocacy groups are becoming more aggressive in asserting fair lending, fair housing and other claims that the practices of lenders and loan servicers result in a disparate impact on protected classes. Antidiscrimination statutes, such as the Fair Housing Act and the Equal Credit Opportunity Act, prohibit creditors from discriminating against loan applicants and borrowers based on certain characteristics, such as race, religion and national origin. Various federal regulatory agencies and departments take the position that these laws apply not only to intentional discrimination, but also to neutral practices that have a disparate impact on a group that shares a characteristic that a creditor may not consider in making credit decisions (i.e., creditor or servicing practices that have a disproportionately negative affect on a protected class of individuals).

The failure of our correspondent sellers to comply with any applicable laws, regulations and rules may also result in these adverse consequences. We have in place a due diligence program designed to assess areas of risk with respect to loans we acquire from such correspondent sellers. However, we may not detect every violation of law and, to the extent any correspondent sellers, third party originators, servicers or brokers with which we do business fail to comply with applicable laws or regulations and any of their mortgage loans or MSRs become part of our assets, it could subject us, as an assignee or purchaser of the related mortgage loans or MSRs, to monetary penalties or other losses. While we may have contractual rights to seek indemnity or repurchase from certain of these lenders, third party originators, servicers or brokers, if any of them are unable to fulfill their indemnity or repurchase obligations to us to a material extent, our business, liquidity, financial condition and results of operations could be materially and adversely affected. Our service providers and other vendors are also required to operate in compliance with applicable laws, regulations and rules. Our failure to adequately manage service providers and other vendors to mitigate risks of noncompliance with applicable laws may also have these negative results.

Federal and state administrations could enact significant policy changes increasing regulatory scrutiny and enforcement actions in our industry. While it is not possible to predict when and whether significant policy or regulatory changes would occur, any such changes on the federal, state or local level could significantly impact, among other things, our operating expenses, the availability of mortgage financing, interest rates, consumer spending, the economy and the geopolitical landscape. To the extent that the current government administration takes action by proposing and/or passing regulatory policies that could have a negative impact on our industry, such actions may have a material adverse effect on our business, financial condition and results of operations.

The Financial Stability Oversight Council (“FSOC”) and Conference of State Bank Supervisors (“CSBS”) have been reviewing whether state chartered nonbank mortgage servicers should be subject to “safety and soundness” standards similar to those imposed by federal law on insured depository institutions, even though nonbank mortgage servicers do not have any federally insured deposit accounts. For example, on July 26, 2021, the CSBS released model state regulatory prudential standards for state oversight of nonbank mortgage servicers. The model CSBS prudential standards include revised minimum net worth, capital ratio and liquidity standards similar to current FHFA requirements and require servicers to maintain sufficient allowable assets to cover normal operating expenses in addition to the amounts required for servicing expenses. In addition, on August 17, 2022, the FHFA and Ginnie Mae

announced enhanced minimum net capital and liquidity eligibility requirements for sellers, servicers and issuers that will go into effect in 2023 and 2024. To the extent any new minimum net worth, capital ratio and liquidity standards and requirements are overly burdensome, complying with such standards and requirements may have a material adverse effect on our business, financial condition and results of operations.

New CFPB or state rules and regulations or more stringent enforcement of existing rules and regulations by these regulators could result in enforcement actions, fines, penalties and the inherent reputational risk that results from such actions.

The CFPB has regulatory authority over certain aspects of our business as a result of our residential mortgage banking activities, including, without limitation, the authority to conduct investigations, bring enforcement actions, impose monetary penalties, require remediation of practices, pursue administrative proceedings or litigation, and obtain cease and desist orders for violations of applicable federal consumer financial laws. The current CFPB administration has stated its intention to aggressively supervise, investigate and, where it deems appropriate, bring enforcement actions against lenders and servicers the CFPB believes are engaged in activities that violate federal laws and regulations. In addition, examinations by state regulators and enforcement actions in the residential mortgage origination and servicing sectors by state attorneys general have increased and may continue to increase. Failure to comply with the CFPB and state laws, rules or regulations to which we are subject, whether actual or alleged, could have a material adverse effect on our business, liquidity, financial condition and results of operations.

Our failure to comply with the laws, rules or regulations to which we are subject, whether actual or alleged, would expose us to fines, penalties or potential litigation liabilities, including costs, settlements and judgments, any of which could have a material adverse effect on our business, liquidity, financial condition and results of operations and our ability to make distributions to our stockholders.

We are highly dependent on U.S. government-sponsored entities and government agencies, and any organizational or pricing changes at such entities or their regulators could materially and adversely affect our business, liquidity, financial condition and results of operations.

Our ability to generate revenues through mortgage loan sales depends on programs administered by GSEs, such as Fannie Mae and Freddie Mac, government agencies, including Ginnie Mae, and others that facilitate the issuance of MBS in the secondary market. We originate mortgage loans directly with borrowers and brokers and assist PMT in acquiring loans from mortgage lenders through our correspondent production activities that qualify under existing standards for inclusion in MBS issued by Fannie Mae or Freddie Mac or guaranteed by Ginnie Mae. We, or PMT, also derive other material financial benefits from our Agency relationships, including the ability to avoid certain loan inventory finance costs through streamlined loan funding and sale procedures.

A number of legislative proposals have been introduced in recent years that would wind down or phase out the GSEs in their current form, including a proposal by the prior federal administration to end the conservatorship and privatize Fannie Mae and Freddie Mac. It is not possible to predict the scope and nature of the actions that the U.S. government, including the current federal administration, will ultimately take with respect to the GSEs. Any changes in laws and regulations affecting the relationship between Fannie Mae and Freddie Mac and their regulators or the U.S. federal government, and any changes in leadership at these entities, could adversely affect our business and prospects. Any discontinuation of, or significant reduction in, the operation of Fannie Mae or Freddie Mac or any significant adverse change in their capital structure, financial condition, activity levels in the primary or secondary mortgage markets or in underwriting criteria could materially and adversely affect our business, financial condition, liquidity and results of operations and our ability to make distributions to our stockholders.

Our ability to generate revenue from newly originated loans that we acquire or assist PMT in acquiring is highly dependent on the fact that the Agencies have not historically acquired such loans directly from mortgage lenders, but have instead relied on banks and non-bank aggregators such as us to acquire, aggregate and securitize or otherwise sell such loans to investors in the secondary market. Certain of the Agencies have approved new and smaller lenders that traditionally may not have qualified for such approvals. To the extent that these mortgage lenders choose to sell directly to the Agencies rather than through loan aggregators like us, the number of loans available for purchase by aggregators is reduced, which could materially and adversely affect our business and results of operations. In addition, under certain Agency capital rules, loans sourced from loan aggregators such as PMT that we assist have higher capital requirements and may incur higher Agency fees for third party originated loans that PMT aggregates and delivers to the Agencies as compared to individual loans delivered by third party mortgage lenders directly to the Agencies' cash windows without the assistance of a loan aggregator. To the extent the Agencies increase the number of purchases and sales directly for their own accounts, our business and results of operations could be materially and adversely affected.

We are required to have various Agency approvals and state licenses in order to conduct our business and there is no assurance we will be able to obtain or maintain those Agency approvals or state licenses.

Because we are not a federally chartered depository institutions we do not benefit from exemptions to state mortgage lending, loan servicing or debt collection licensing and regulatory requirements. We are licensed in all state jurisdictions, and for those activities, where we are required to be licensed and believe it is cost effective and appropriate to become licensed. Our failure to maintain any necessary licenses, comply with applicable licensing laws or satisfy the various requirements to maintain them over time could restrict our direct business activities, result in litigation or civil and other monetary penalties, or cause us to default under certain of our lending arrangements, any of which could materially and adversely impact our business, financial condition, liquidity, results of operations and ability to make distributions to our stockholders.

We are also required to hold the Agency approvals in order to sell loans to the Agencies and service such loans on their behalf. Our failure to satisfy the various requirements necessary to maintain such Agency approvals over time would also restrict our business activities and could adversely impact our business. We are subject to periodic examinations by federal, state and Agency auditors and regulators, which can result in increases in our administrative costs, and we may be required to pay substantial penalties imposed by these regulators due to compliance errors, or we may lose our licenses. Negative publicity or fines and penalties incurred in one jurisdiction may cause investigations or other actions by regulators in other jurisdictions and could adversely impact our business.

Our inability to meet certain net worth and liquidity requirements imposed by the Agencies could have a material adverse effect on our business, financial condition, liquidity and results of operation.

We are subject to minimum financial eligibility requirements established by the Agencies. For example, on August 2022, the FHFA and Ginnie Mae announced enhanced minimum net capital and liquidity eligibility requirements for sellers, servicers and issuers that will go into effect in 2023 and 2024. These eligibility requirements align the minimum financial requirements for mortgage sellers/servicers and MBS issuers to do business with the Agencies. These minimum financial requirements include net worth, capital ratio and/or liquidity criteria in order to set a minimum level of capital needed to adequately absorb potential losses and a minimum amount of liquidity needed to service Agency loans and MBS and cover the associated financial obligations and risks.

In order to meet these minimum financial requirements, we are required to maintain rather than spend or invest, cash and cash equivalents in amounts that may adversely affect our business, financial condition, liquidity, results of operations and ability to make distributions to our stockholders, and this could significantly impede us, as a non-bank mortgage lender, from growing our respective businesses and place us at a competitive disadvantage in relation to federally chartered banks and certain other financial institutions. To the extent that such minimum financial requirements are not met, the Agencies may suspend or terminate Agency approval or certain agreements with us, which could cause us to cross default under financing arrangements and/or have a material adverse effect on our business, financial condition, liquidity, results of operations and ability to make distributions to our stockholders.

The failure of PennyMac Loan Services, LLC to avail itself of an appropriate exemption from registration as an investment company under the Investment Company Act of 1940 could have a material and adverse effect on our business.

We intend to operate so that we, and each of our subsidiaries, are not required to register as investment companies under the Investment Company Act of 1940, as amended (“Investment Company Act”). We believe that our subsidiary, PLS, qualifies for one or more exemptions provided in the Investment Company Act because of the historical and current composition of its assets and income; however, there can be no assurances that the composition of PLS’ assets and income will remain the same over time such that one or more exemptions will continue to be applicable.

If PLS is required to register as an investment company, we would be required to comply with a variety of substantive requirements under the Investment Company Act that impose, among other things: limitations on capital structure; restrictions on specified investments; prohibitions on transactions with affiliates; compliance with reporting, record keeping, voting and proxy disclosure; and, other rules and regulations that would significantly increase our operating expenses. Further, if PLS was or is required to register as an investment company, PLS would be in breach of various representations and warranties contained in its credit and other agreements resulting in a default as to certain of our contracts and obligations. This could also subject us to civil or criminal actions or regulatory proceedings, or result in a court appointed receiver to take control of us and liquidate our business, any or all of which could have a material adverse effect on our business, financial condition, liquidity and results of operations.

Our business, financial condition and results of operations may be adversely affected by the long term impact of the COVID-19 pandemic.

The COVID-19 pandemic, inclusive of any variants, has created unprecedented economic, financial and public health disruptions that may continue to adversely affect, our business, financial condition and results of operations. The extent to which COVID-19 continues to affect our business, financial condition and results of operations will depend on future developments, including the scope and duration of the COVID-19 pandemic and actions taken by governmental authorities and other third parties in response to the COVID-19 pandemic.

The federal government enacted the CARES Act, which allows borrowers with federally-backed loans to request temporary payment forbearance in response to the increased borrower hardships resulting from the long term impact of the COVID-19 pandemic. As a result of the CARES Act and other forbearance requirements, we may experience delinquencies in our servicing portfolio that require us to finance advances of principal and interest payments to the investors holding those loans, as well as advances of property taxes, insurance premiums and other expenses to protect investors’ interests in the properties securing the loans. The CARES Act and other forbearance requirements have reduced our servicing fee income and increased our servicing expenses due to the increased number of delinquent loans, significant levels of forbearance that we have granted and continue to grant, as well as the resolution of loans that we expect to ultimately default as the result of the long term impact of the COVID-19 pandemic. Future servicing advances will be driven by a number of factors, including: the number of borrower delinquencies, including those resulting from payment forbearance; the length of time borrowers remain delinquent; and the level of successful resolution of delinquent payments, all of which will be impacted by the pace at which the economy recovers from the long term impact of the COVID-19 pandemic. As of December 31, 2022, 1.3% of loans in our predominantly government-insured or guaranteed MSR portfolio were in forbearance plans and delinquent, resulting in an increase in the level of servicing advances we have been required to make due to borrower delinquencies. Servicing advances resulting from the COVID-19 pandemic could have a significant adverse impact on our cash flows and could also have a detrimental effect on our business and financial condition.

The CARES Act and other forbearance requirements have negatively impacted the fair value of our servicing assets and further market volatility or economic weakness may result in additional reductions in the value of our servicing assets and make it increasingly difficult to optimize our hedging activities. Our liquidity and/or regulatory capital could also be adversely impacted by volatility and disruptions in the capital and credit markets. If we fail to meet or satisfy any of the covenants in our repurchase agreements or other financing arrangements as a result of the impact of the COVID-19 pandemic, we would be in default under these agreements, which could result in a cross-default or cross-acceleration under other financing arrangements, and our lenders could elect to declare outstanding amounts due and payable (or such amounts may automatically become due and payable), terminate their commitments, require the posting of additional collateral and enforce their respective interests against existing collateral.

We may have difficulty accessing debt and equity capital on attractive terms, or at all, as a result of the impact of the COVID-19 pandemic, which may adversely affect our access to capital necessary to fund our operations or address maturing liabilities on a timely basis. This includes renewals of our existing credit facilities with our lenders who may be adversely impacted by the volatility and dislocations in the financial markets and may not be willing or able to continue to extend us credit on the same terms, or on favorable terms, or at all.

Our business could be disrupted if we are unable to operate due to changing governmental restrictions such as travel bans and quarantines placed or reinstated on our employees or operations, including, successfully operating our business from remote locations, ensuring the protection of our employees' health and maintaining our information technology infrastructure. Further, increased operational expenses to address these restrictions and widespread employee illnesses could negatively affect staffing within our various businesses and geographies.

Federal, state, and local executive, legislative and regulatory responses to the long term impact of the COVID-19 pandemic may be inconsistent and conflict in scope or application, and may be subject to change without advance notice. These regulatory responses may impose additional compliance obligations, and may extend existing CARES Act and other forbearance requirements. In addition, the CARES Act and other federal, state and local regulations are subject to interpretation given the existing ambiguities in the rules and regulations, which may result in future class action and other litigation risk.

The outcome of the COVID-19 related governmental measures are unknown and they may not be sufficient to address future market dislocations or avert severe and prolonged reductions in economic activity. We may also face increased risks of disputes with our business partners, litigation and governmental and regulatory scrutiny as a result of the effects of the COVID-19 pandemic. The final scope and duration of the COVID-19 pandemic and the efficacy of the extraordinary government measures put in place to address it are currently unknown. Even after the COVID-19 pandemic subsides, the economy may not fully recover for some time and we may be materially and adversely affected by a prolonged recession or economic downturn.

Related Party Risks

We rely on PMT as a significant source of financing for, and revenue related to, our mortgage banking business, and the termination of, or material adverse change in, the terms of this relationship, or a material adverse change to PMT or its operations, could adversely affect our business, financial condition, liquidity and results of operations.

PMT is the counterparty that currently acquires newly originated mortgage loans in connection with our correspondent production activities. A portion of our income is derived from a fulfillment fee earned in connection with PMT's acquisition of conventional loans. We are able to conduct our correspondent production activities without having to incur the significant additional debt financing that would be required for us to purchase those loans from the originating lender. We also purchase all government-insured and some conventional loans from PMT at PMT's cost plus a sourcing fee and fulfill these loans for our own account. We earn interest income and gains or losses during the holding period and upon the sale of these securities, and we retain the MSRs with respect to the loans. If this relationship with PMT is terminated by PMT or PMT reduces the volume of these loans that it acquires for any reason, we would have to acquire these loans from the correspondent sellers for our own account, something that we may be unable to do, or enter into another similar counterparty arrangement with a third party, which we may not be able to enter into on terms that are as favorable to us, or at all.

The management agreement, the mortgage banking services agreement and certain of the other agreements that we have entered into with PMT contain cross-termination provisions that allow PMT to terminate one or more of those agreements under certain circumstances where another one of such agreements is terminated. Accordingly, the termination of this relationship with PMT, or a material change in the terms thereof that is adverse to us, would likely have a material adverse effect on our business, financial condition, liquidity and results of operations. The terms of these agreements extend until June 30, 2025, subject to automatic renewal for additional 18-month periods, but any of the agreements may be terminated earlier under certain circumstances or otherwise non-renewed. If any agreement is terminated or non-renewed and not replaced by a new agreement, it would materially and adversely affect our ability to continue to execute our business plan.

We expect that PMT will continue to qualify as a REIT for U.S. federal income tax purposes. However, it is possible that PMT may not meet the requirements for qualification as a REIT. If PMT were to lose its REIT status, corporate-level income taxes, would apply to all of PMT's taxable income at federal and state tax rates. Either of these scenarios would potentially impair PMT's financial position and its ability to raise capital, which could have a material adverse effect on our business, financial condition, liquidity and results of operations.

A significant portion of our loan servicing operations are conducted pursuant to subservicing contracts with PMT, and any termination by PMT of these contracts, or a material change in the terms thereof that is adverse to us, would adversely affect our business, financial condition, liquidity and results of operations.

PMT, as the owner of a substantial number of MSRs or mortgage loans that we subservice, may, under certain circumstances, terminate our subservicing contract with or without cause, in some instances with little notice and little to no compensation. Upon any such termination, it would be difficult to replace such a large volume of subservicing in a short period of time, or perhaps at all. Accordingly, we may not generate as much revenue from subservicing for other third parties. If we were to have our subservicing terminated by PMT, or if there was a change in the terms under which we perform subservicing for PMT that was material and adverse to us, this would have a material adverse effect on our business, financial condition, liquidity and results of operations.

PMT has an exclusive right to acquire conventional conforming loans that are produced through our correspondent production activities, which may limit the revenues that we could otherwise earn in respect of those loans.

Our mortgage banking services agreement with PMT requires PLS to provide fulfillment services for correspondent production activities exclusively to PMT as long as PMT has the legal and financial capacity to purchase correspondent loans. As a result, the revenue that we earn with respect to these loans will be limited to the fulfillment fees that we earn in connection with the production of these loans, which may be less than the revenues that we might otherwise be able to realize by acquiring these loans ourselves and selling them in the secondary loan market.

Risks Related to Our Investment Management Segment

Market conditions could reduce the fair value of the assets that we manage, which would reduce our management and incentive fees.

A portion of the fees that we earn under our investment management agreement is based on the fair value of the assets that we manage. The fair values of the securities and other assets held in the portfolios that we manage and, therefore, our assets under management may decline due to any number of factors beyond our control, including, among others, a decline in housing demand or value, the long term impact of the COVID-19 pandemic, changes to interest rates, stock or bond market movements or volatility, a general economic downturn, inflation, political uncertainty, acts of terrorism, military conflict or acts of war, cyber-attacks or infrastructure outages. The economic outlook cannot be predicted with certainty and we continue to operate in a challenging business environment. If volatile market conditions cause a decline in the fair value of our assets under management, that decline in fair value could materially reduce our management fees and incentive fees under our management agreement with PMT and adversely affect our revenues. If our revenues decline without a commensurate reduction in our expenses, our net income will be reduced.

We currently manage assets for a single client, the loss of which would significantly reduce our management and incentive fees and have a material adverse effect on our results of operations.

Our management and incentive fees result from our management of PMT. The term of the management agreement that we have entered into with PMT, as amended, expires on June 30, 2025, subject to automatic renewal for additional 18-month periods, unless terminated earlier in accordance with the terms of the agreement. In the event of a termination of one or more related party agreements by PMT in certain circumstances, we may be entitled to a termination fee under our management agreement. However, the termination of such management agreement and the loss of PMT as a client would significantly affect our investment management segment and negatively impact our management fees and incentive fees.

The historical returns on the assets that we select and manage for PMT, and our resulting management and incentive fees, may not be indicative of future results.

The historical returns of the assets that we manage should not be considered indicative of the future returns on those assets or future returns on other assets that we may select for investment by PMT. The investment performance that is achieved for the assets that we manage varies over time, and the nature and mix of assets we manage has changed significantly over the past several years. As a result, the change and variance in investment performance can be significant. For example, although we earned performance incentive fees in prior years, in fiscal year 2022, we did not earn any performance incentive fees due to losses incurred by PMT during the associated performance measurement periods. Accordingly, the management and incentive fees that we have earned in the past based on those returns should not be considered indicative of the management or incentive fees that we may earn in the future from managing those same assets or from managing other assets for PMT.

Changes in regulations applicable to our investment management segment could materially and adversely affect our business, financial condition, liquidity and results of operations.

The legislative and regulatory environment in which we operate is constantly evolving. New laws or regulations, or changes in the enforcement of existing laws or regulations, applicable to us and PMT, may adversely affect our business. Our ability to succeed in this environment will depend on our ability to monitor and comply with regulatory changes. Regulatory changes that will affect other market participants are likely to change the way in which we conduct business with our counterparties. The uncertainty regarding the continued implementation of laws and regulations and their impact on the investment management industry and us cannot be predicted with certainty at this time but will continue to be a risk for our business.

We may be adversely affected as a result of new or revised legislation or regulations imposed by the SEC, other U.S. or non-U.S. governmental regulatory authorities or self-regulatory organizations that supervise the financial markets. We also may be adversely affected by changes in the interpretation or enforcement of existing laws and rules

by these governmental authorities and self-regulatory organizations, as well as by U.S. and non-U.S. courts. It is impossible to determine the extent of the impact of any new laws, regulations or initiatives that may be imposed on us or the markets in which we trade, or whether any of the proposals will become law. Compliance with any new laws or regulations could add to our compliance burden and costs and adversely affect the manner in which we conduct business, as well as our financial condition, liquidity and results of operations.

Our failure to comply with the extensive amount of regulation applicable to our investment management segment could materially and adversely affect our business, financial condition, liquidity and results of operations.

Our investment management segment is subject to extensive regulation in the United States. These regulations are designed primarily to ensure the integrity of the financial markets and to protect investors in any entity that we advise and are not designed to protect our stockholders. Consequently, these regulations may limit our activities. These requirements relate to, among other things, fiduciary duties to clients, solicitation agreements, conflicts of interest, recordkeeping and reporting requirements, disclosure requirements, limitations on cross trades and principal transactions between an adviser and an advisory clients and general anti-fraud prohibitions. We are required to maintain an effective compliance program, and are subject to inspection and examinations by the SEC and state regulators.

The failure by us or our service providers to comply with applicable laws or regulations, or our failure to design and successfully implement and administer our compliance program, could result in fines, suspensions of individual employees, limitations on engaging in other businesses and other sanctions, any of which could have a material adverse effect on our business, financial condition, liquidity and results of operations. Even if an investigation or proceeding did not result in a fine or sanction or the fine or sanction imposed against us or our employees by a regulator were small in monetary amount, the adverse publicity relating to an investigation, proceeding or imposition of these fines or sanctions could harm our reputation.

We may encounter conflicts of interest in trying to appropriately allocate our time and services between activities for our own account and for PMT, or in trying to appropriately allocate investment opportunities among ourselves and for PMT.

Pursuant to our management agreement with PMT, we are obligated to provide PMT with the services of our senior management team, and the members of that team are required to devote such time as is necessary and appropriate, commensurate with the level of activity of PMT. The members of our senior management team may have conflicts in allocating their time and services between our operations and the activities of PMT and any other entities or accounts that we may manage in the future.

In addition, we and the other entities or accounts that we may manage may participate in some of PMT's investment strategies now or in the future, which may not be the result of arm's length negotiations and may involve or later result in potential conflicts between our interests and those of PMT or such other entities. Any such perceived or actual conflicts of interest could damage our reputation and materially and adversely affect our business, financial condition, liquidity and results of operations.

Risks Related to Our Organizational Structure

HC Partners may be able to significantly influence the outcome of votes of our common stock, or exercise certain other rights pursuant to a stockholder agreement we have entered into with it, and its interests may differ from those of our other public stockholders.

HC Partners, our largest stockholder, has the right under a stockholder agreement to nominate up to two individuals for election to our board of directors depending on the percentage of the voting power of our outstanding shares common stock that it holds, and we are obligated to use our best efforts to cause the election of those director nominees. In addition, the HC Partners' stockholder agreement requires that we obtain their consent with respect to amendments to our certificate of incorporation or bylaws. As a result, HC Partners may be able to significantly influence our management and affairs. In addition, as a result of the size of its individual equity holding it may be able to

significantly influence the outcome of all matters requiring stockholder approval, including mergers and other material transactions, and may be able to cause or prevent a change in the composition of our board of directors or a change in control of our Company that could deprive our other public stockholders of an opportunity to receive a premium for their common stock as part of a sale of our company and might ultimately affect the market price of our common stock.

We have not established a minimum dividend payment level and no assurance can be given that we will be able to make dividends to our stockholders in the future at current levels or at all.

We have not established a minimum dividend payment level, and our ability to pay dividends to our stockholders may be materially and adversely affected by the risk factors discussed in our SEC periodic reports. Although we paid, and anticipate continuing to pay, quarterly dividends to our stockholders, our board of directors has the sole discretion to determine the timing, form and amount of any future dividends to our stockholders, and such determination will depend upon, among other factors, our historical and projected results of operations, financial condition, cash flows and liquidity, capital requirements and other expense obligations, debt covenants, contractual legal, tax, regulatory and other restrictions and such other factors as our board of directors may deem relevant from time to time. As a result, no assurance can be given that we will be able to continue to pay dividends to our stockholders in the future or that the level of any future dividends will achieve a market yield or increase or even be maintained over time, any of which could materially and adversely affect the market price of our common stock.

Anti-takeover provisions in our charter documents and Delaware law might discourage or delay acquisition attempts for us that other stockholders might consider favorable.

Our certificate of incorporation and bylaws contain provisions that may make the acquisition of our company more difficult without the approval of our board of directors. Among other things, these provisions:

- authorize the issuance of undesignated preferred stock, the terms of which may be established and the shares of which may be issued without stockholder approval;
- prohibit stockholder action by written consent unless the matter as to which action is being taken has been approved by our board of directors;
- provide that our board of directors is expressly authorized to make, alter, or repeal our bylaws (provided that, if that action adversely affects HC Partners when that entity, together with its affiliates, holds at least 5% of the voting power of our outstanding shares of capital stock, our stockholder agreements provide that such action must be approved by that entity);
- establish advance notice requirements for nominations for elections to our board or for proposing matters that can be acted upon by stockholders at stockholder meetings; and
- prevent a sale of substantially all of our assets or completion of a merger or other business combination that constitutes a change of control without the approval of a majority of our independent directors.

These and other provisions under Delaware law could discourage, delay or prevent a transaction involving a change in control of our company or negatively affect the trading price of our common stock. These provisions could also discourage proxy contests and make it more difficult for you and other stockholders to elect directors of and take other corporate actions.

Our bylaws include an exclusive forum provision that could limit our stockholders' ability to obtain a judicial forum viewed by the stockholders as more favorable for disputes with us or our directors, officers or other employees.

Our bylaws provide that the state or federal court located within the State of Delaware is the exclusive forum for any derivative action or proceeding brought on our behalf; any action asserting a claim of breach of fiduciary duty; any action asserting a claim against us arising pursuant to the Delaware General Corporation Law, our certificate of incorporation or our bylaws; or any action asserting a claim against us that is governed by the internal affairs doctrine. This exclusive forum provision may limit a stockholder's ability to bring a claim in a judicial forum that it finds favorable for disputes with us or our directors, officers or other associates, which may discourage such lawsuits against us and our directors, officers and other employees. Alternatively, if a court were to find the exclusive forum provision contained in our bylaws to be inapplicable or unenforceable in an action, we may incur additional costs associated with resolving such action in other jurisdictions, which could adversely affect our business, financial condition, liquidity and results of operations.

Ownership of Our Common Stock

The market price and trading volume of our common stock may be volatile, which could result in rapid and substantial losses for our stockholders.

The market price and trading volume of our common stock has fluctuated significantly in the past and may be highly volatile in the future and could be subject to wide fluctuations. In addition, the trading volume in our common stock may fluctuate and cause significant price variations to occur. Further, if the market price of our common stock declines significantly, you may be unable to resell your shares at or above your purchase price, if at all. Some of the factors that could negatively affect the market price or trading volume of our common stock include:

- variations in our actual and anticipated financial and operating results and those expected by investors and analysts;
- changes in the manner that investors and securities analysts who provide research to the marketplace on us analyze the value of our common stock and similar companies;
- changes in recommendations or in estimated financial results published by securities analysts who provide research to the marketplace on us, our competitors or our industry;
- litigation and governmental investigations;
- increases in market interest rates that may lead purchasers of our shares to demand a higher yield;
- announcements by us or our competitors of significant contracts, acquisitions, dispositions, strategic relationships, joint ventures or capital commitments; and
- general market, political and economic conditions, including any such conditions and local conditions in the markets in which our customers are located.

These broad market and industry factors may decrease the market price and trading volume of our common stock, regardless of our actual operating performance.

The market price of our common stock could be negatively affected by sales of substantial amounts of our common stock into the public trading market.

We were founded in 2008 by members of our executive leadership team and strategic investors, including HC Partners, our largest stockholder. Sales of substantial numbers of shares of our common stock into the public trading market by HC Partners, or the perception that such sales could occur, could adversely affect the market price of our common stock and impede our ability to raise capital through the issuance of additional common stock or other equity securities.

The future issuance of additional common stock in connection with our incentive plans, acquisitions or otherwise will dilute all other stockholdings.

As of December 31, 2022, we have an aggregate of 4.6 million shares of common stock authorized and remaining available for future issuance under our 2022 Equity Incentive Plan. We may issue all of these shares of common stock without any action or approval by our stockholders, subject to certain exceptions. Any common stock issued in connection with our equity incentive plans or future acquisitions would dilute the percentage ownership held by investors who purchase our common stock.

Future offerings of debt or equity securities by us may adversely affect the market price of our common stock.

In the future, we may attempt to obtain financing or further increase our capital resources by issuing additional shares of our common stock or offering debt or other equity securities, including commercial paper, medium-term notes, senior or subordinated notes, convertible debt securities or shares of preferred stock. The issuance of additional shares of our common stock or other equity securities or securities convertible into equity may dilute the economic and voting rights of our existing stockholders or reduce the market price of our common stock or both. Upon liquidation, holders of such debt securities and preferred stock, if issued, and lenders with respect to other borrowings would receive a distribution of our available assets prior to the holders of our common stock. Debt securities convertible into equity could be subject to adjustments in the conversion ratio pursuant to which certain events may increase the number of equity securities issuable upon conversion. Preferred stock, if issued, could have a preference with respect to liquidating distributions or a preference with respect to dividend payments that could limit our ability to pay dividends to the holders of our common stock. Any issuance of securities in future offerings may reduce the market price of our common stock and dilute existing stockholders' interests in us.

General Risks

Our risk management efforts may not be effective.

We could incur substantial losses and our business operations could be disrupted if we are unable to effectively identify, manage, monitor, and mitigate financial risks, such as credit risk, interest rate risk, prepayment risk, liquidity risk, climate risk and other market-related risks, as well as operational and legal risks related to our business, assets, and liabilities. We also are subject to various laws, regulations and rules that are not industry specific, including employment laws related to employee hiring and termination practices, health and safety laws, environmental laws and other federal, state and local laws, regulations and rules in the jurisdictions in which we operate. Our risk management policies, procedures, and techniques may not be sufficient to identify all of the risks to which we are exposed, mitigate the risks we have identified, or identify additional risks to which we may become subject in the future. Our risk management framework is designed to identify, monitor and mitigate risks that could have a negative impact on our financial condition or reputation. This framework includes divisions or groups dedicated to enterprise risk management, credit risk, climate risk, corporate sustainability and ESG, information security, disaster recovery and other information technology-related risks, business continuity, legal and compliance, compensation structures and other human resources matters, vendor management and internal audit, among others. Expansion of our business activities may also result in our being exposed to risks to which we have not previously been exposed or may increase our exposure to certain types of risks, and we may not effectively identify, manage, monitor, and mitigate these risks as our business activities change or increase.

Initiating new business activities, developing new products or significantly expanding existing business activities may expose us to new risks and increase our cost of doing business.

Initiating new business activities, developing new products, or significantly expanding existing business activities, such as our consumer direct and wholesale broker lending businesses, may expose us to new risks and regulatory compliance requirements. We cannot be certain that we will be able to manage these risks and compliance requirements effectively. Furthermore, our efforts may not succeed, and any revenues we earn from any new or expanded business initiative may not be sufficient to offset the initial and ongoing costs of that initiative, which would result in a loss with respect to that initiative.

We could be harmed by misconduct or fraud that is difficult to detect.

We are exposed to risks relating to misconduct by our employees, contractors we use, or other third parties with whom we have relationships. For example, our employees could execute unauthorized transactions, use our assets improperly or without authorization, perform improper activities, use confidential information for improper purposes, or misrecord or otherwise try to hide improper activities from us. This type of misconduct could also relate to assets we manage for others through our investment advisory subsidiary, and can be difficult to detect. If not prevented or detected, misconduct by employees, contractors, or others could result in losses, claims or enforcement actions against us, or could seriously harm our reputation. Our controls may not be effective in detecting this type of activity.

If we fail to maintain an effective system of internal controls, we may not be able to accurately determine our financial results or prevent fraud. As a result, our stockholders could lose confidence in our financial results, which could harm our business and the market value of our common stock.

Effective internal controls are necessary for us to provide reliable financial reports and effectively prevent fraud. We may in the future discover areas of our internal controls that need improvement. Section 404 of the Sarbanes-Oxley Act of 2002 (the “Sarbanes-Oxley Act”) requires that we evaluate and report on our internal control over financial reporting. We cannot be certain that we will be successful in maintaining adequate control over our financial reporting and financial processes. Section 404(b) of the Sarbanes-Oxley Act requires our auditors to formally attest to and report on the effectiveness of our internal control over financial reporting.

If we cannot maintain effective internal control over financial reporting, or our independent registered public accounting firm cannot provide an unqualified attestation report on the effectiveness of our internal control over financial reporting, investor confidence and, in turn, the market price of our common stock could decline. If we or our independent auditors discover a material weakness, the disclosure of that fact, even if quickly remedied, could result in an event of default under one or more of our lending arrangements and/or reduce the market value of shares of our common stock. Additionally, the existence of any material weakness or significant deficiency could require management to devote significant time and incur significant expense to remediate any such material weakness or significant deficiency, and management may not be able to remediate any such material weakness or significant deficiency in a timely manner, or at all. Accordingly, our failure to maintain effective internal control over financial reporting could result in misstatements of our financial results or restatements of our financial statements or otherwise have a material adverse effect on our business, financial condition, liquidity and results of operations.

Cybersecurity risks, cyber incidents and technology failures may adversely affect our business by causing a disruption to our operations, a compromise or corruption of our confidential information, and/or damage to our business relationships, all of which could negatively impact our financial results.

A cyber incident is considered to be any adverse event that threatens the confidentiality, integrity or availability of our information resources. These incidents may be an intentional attack or an unintentional event and could involve gaining unauthorized access to our information systems for purposes of theft of certain personally identifiable information of consumers, misappropriating assets, stealing confidential information, corrupting data or causing operational disruption. The result of these incidents may include disrupted operations, misstated or unreliable financial data, liability for stolen assets or information, increased cybersecurity protection and insurance costs, litigation and damage to our investor relationships.

As our reliance on rapidly changing technology has increased, so have the risks posed to our information systems, both proprietary and those provided to us by third-party service providers including cloud-based computing service providers. System disruptions and failures caused by fire, power loss, telecommunications outages, unauthorized intrusion, malware, natural disasters and other similar events may interrupt or delay our ability to provide services to our customers. The risk of a security breach or disruption, particularly through cyber attack or cyber intrusion, including by computer hackers, foreign governments and cyber terrorists, has generally increased as the number, intensity and sophistication of attempted attacks and intrusions from around the world have increased, which, in turn, may lead to increased costs to protect our network and systems.

Despite our efforts to ensure the integrity of our systems and our investment in significant physical and technological security measures, employee training, contractual precautions, policies and procedures, board oversight and business continuity plans, there can be no assurance that any such cyber intrusions will not occur or, if they do occur, that they will be adequately addressed. We also may not be able to anticipate or implement effective preventive measures against all security breaches, especially because the methods of attack change frequently or may not be recognized until after such attack has been launched, and because security attacks can originate from a wide variety of sources, including third parties such as persons involved with organized crime or associated with external service providers. Additionally, third-party security events at our vendors or other service providers could also impact our data and operations via unauthorized access to information or disruption of services. Our data security management program includes identity, trust, vulnerability and threat management business processes as well as the adoption of standard data protection policies. We are also held accountable for the actions and inactions of our third-party vendors regarding cybersecurity and other consumer-related matters.

Any of the foregoing events could result in violations of applicable privacy and other laws, financial loss to us or to our customers, loss of confidence in our security measures, customer dissatisfaction, additional regulatory scrutiny, significant litigation exposure and harm to our reputation, any of which could have a material adverse effect on our business, financial condition, liquidity and results of operations, any of which could have a material adverse effect on our business, financial condition, liquidity and results of operations.

We operate in a highly competitive market and decreased margins resulting from increased competition or our inability to compete successfully could adversely affect our business, financial condition, liquidity and results of operations.

We operate in a highly competitive industry that could become even more competitive as a result of economic, legislative, regulatory and technological changes. With respect to mortgage loan production, we face competition in such areas as mortgage loan offerings, rates, fees and customer service. With respect to servicing, we face competition in areas such as fees, cost to service and service levels, including our performance in reducing delinquencies and entering into successful modifications.

Large commercial banks and savings institutions and other non-bank mortgage originators and servicers are increasingly competitive in the origination or acquisition of newly originated mortgage loans and the servicing of mortgage loans. Many of these institutions have significantly greater resources and access to capital and financing arrangements than we do, which may give them the benefit of a lower cost of funds. Additionally, our existing and potential competitors may decide to modify their business models to compete more directly with our loan production and servicing models.

As new competitors enter these markets and as commercial banks aggressively compete for market share, our mortgage banking businesses may generate lower volumes and/or margins. If our loan production volumes and profit margins significantly decrease, then our business, financial condition, liquidity and results of operations could be materially and adversely affected.

Our future success depends on our ability to continue to hire, integrate, develop and retain highly qualified personnel. Any talent acquisition and retention challenges could reduce our operating efficiency, increase our costs of operations and harm our overall financial condition. We could face these additional challenges if competition for qualified personnel intensifies or the pool of qualified candidates becomes more limited. Additionally, we invest heavily in training our personnel, which increases their value to competitors who may seek to recruit them. If we are unable to attract and retain qualified personnel, we may not be able to take advantage of future business opportunities and this could materially affect our business, financial condition and results of operations.

The financial services industry is undergoing rapid technological changes, with frequent introductions of new technology-driven products and services. We may not be able to effectively implement new technology-driven products and services as quickly as competitors or be successful in marketing these products and services to our clients. In addition, technological advances and heightened e-commerce activities have increased consumers' access to products and services. This has intensified competition among banks and non-banks in offering and servicing mortgage loans. To the extent we are unable to keep pace with technological advances, we may be unable to compete successfully in our mortgage banking businesses and this could materially and adversely affect our business, financial condition, liquidity and results of operations.

Item 1B. *Unresolved Staff Comments*

None.

Item 2. *Properties*

As of December 31, 2022, we have approximately 20 leased facilities in various locations throughout the United States. Our principal executive offices are located at 3043 & 3059 Townsgate Road, Westlake Village, California 91361 and total approximately 66,000 of leased square feet. Our business segment operations and support offices are primarily in the following locations in the United States:

- Our servicing segment is primarily located in California, Texas and Nevada.
- Our production segment is primarily located in California, Texas, Florida, Arizona, Missouri and North Carolina. In addition, we maintain loan production centers in California, Tennessee, Minnesota and Hawaii.
- Our investment management segment, as well as our information technology division, is primarily located in California.

We believe that our current facilities are sufficient for the operation of our business. We periodically review our space requirements and we look to consolidate and dispose of facilities we no longer need, as and when appropriate.

The financial commitments of our leases are disclosed in Note 10—*Leases* to our consolidated financial statements included in Item 8 of this Report.

Item 3. *Legal Proceedings*

From time to time, we may be involved in various legal and regulatory proceedings, lawsuits and other claims arising in the ordinary course of business. The amount, if any, of ultimate liability with respect to such matters cannot be determined, but despite the inherent uncertainties of litigation, we currently believe that the ultimate disposition of any such proceedings and exposure will not have, individually or taken together, a material adverse effect on our financial condition, results of operations, or cash flows. See Note 16 — *Commitments and Contingencies*, to the financial statements contained in this Report for a discussion of legal proceedings that are incorporated by reference into this Item 3.

Item 4. *Mine Safety Disclosures*

Not applicable.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Our shares of common stock are listed on the New York Stock Exchange (Symbol: PFSI). As of February 17, 2023, our shares of common stock were held by 26 holders of record.

Our dividend level is reviewed each quarter and determined based on a number of factors, including, among other things, our earnings, our financial condition, growth outlook, the capital required to support ongoing growth opportunities and compliance with other internal and external requirements. Payments of dividends are subject to approval by our board of directors. Our ability to pay dividends may be adversely affected for the reasons described in Item 1A of this Report in the section entitled *Risk Factors*.

Unregistered Sales of Equity Securities and Use of Proceeds

There were no sales of unregistered equity securities during the year ended December 31, 2022.

Repurchase of our Common Stock

The following table summarized the stock repurchase activity for the quarter ended December 31, 2022:

	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plans or program (1)	Approximate dollar value of shares that may yet be purchased under the plans or program (1)
October 1, 2022 – October 31, 2022	1,002,354	\$ 46.46	1,002,354	\$ 288,048,024
November 1, 2022 – November 30, 2022	71,400	\$ 52.51	71,400	\$ 284,298,967
December 1, 2022 – December 31, 2022	18,187	\$ 55.33	18,187	\$ 283,292,664
Total	<u>1,091,941</u>	\$ 47.01	<u>1,091,941</u>	\$ 283,292,664

- (1) In August 2021, our board of directors approved an increase to our common stock repurchase program from \$1 billion to \$2 billion. The stock repurchase program does not require us to purchase a specific number of shares, and the timing and amount of any shares repurchased are based on market conditions and other factors, including price, regulatory requirements and capital availability. Stock repurchases may be effected through negotiated transactions or open market purchases, including pursuant to a trading plan implemented pursuant to Rule 10b5-1 of the Securities Exchange Act of 1934, as amended. The stock repurchase program does not have an expiration date but may be suspended, modified or discontinued at any time without prior notice.

Item 6. Reserved

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read together with our consolidated financial statements and related notes appearing elsewhere in this Report. The following discussion and analysis contains forward-looking statements that involve risks and uncertainties. When reviewing the discussion below, you should keep in mind the substantial risks and uncertainties that could impact our business. In particular, we encourage you to review the risks and uncertainties described in the section titled "Risk Factors" included elsewhere in this Report. These risks and uncertainties could cause actual results to differ materially from those projected in forward-looking statements contained in this report or implied by past results and trends.

Critical Accounting Policies

Preparation of financial statements in compliance with accounting principles generally accepted in the United States ("GAAP") requires us to make estimates that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the reporting period. Certain of these estimates significantly influence the portrayal of our financial condition and results, and they require us to make difficult, subjective or complex judgments. Our critical accounting policies primarily relate to our fair value estimates.

Fair Value

We group assets measured at or based on fair value in three levels based on the markets in which the assets are traded and the observability of the inputs used to determine fair value. These levels are:

Level/Description	December 31, 2022		
	Carrying value of assets (in thousands)	Percentage of	
		Total assets	Total stockholders' equity
1: Prices determined using quoted prices in active markets for identical assets or liabilities.	\$ 45,146	0%	1%
2: Prices determined using other significant observable inputs. Observable inputs are inputs that other market participants would use in pricing an asset or liability and are developed based on market data obtained from sources independent of us.	3,193,780	19%	92%
3: Prices determined using significant unobservable inputs. Unobservable inputs reflect our judgements about the factors that market participants use in pricing an asset or liability, and are based on the best information available in the circumstances.	6,347,618	38%	183%
Total assets measured at or based on fair value (1)	\$ 9,586,544	57%	276%
Total assets	\$ 16,822,584		
Total stockholders' equity	\$ 3,471,049		

- (1) Includes assets measured on both a recurring and nonrecurring basis based on the accounting principles applicable to the specific asset and whether we have elected to carry the asset at its fair value.

At December 31, 2022, \$9.6 billion or 57% of our total assets were carried at fair value on a recurring basis and \$11.5 million (real estate acquired in settlement of loans ("REO")), were carried based on fair value on a non-recurring basis when fair value indicates evidence of impairment of individual properties.

Changes in fair value of our holdings of assets carried at fair value have significant effects on our financial position and results of operations. As summarized above, changes in fair values of “Level 1” and “Level 2” fair value assets are determinable with reference to direct quotes in active markets on the measurement date in the case of “Level 1” fair value assets, or reference to publicly available pricing inputs (such as reference interest rates and credit spreads and prices of similar assets) in the case of “Level 2” fair value assets.

\$6.3 billion or 38% of our total assets are measured using “Level 3” fair value inputs – significant inputs where there is difficulty observing the inputs used by market participants to establish fair value. Different approaches to valuing those assets or changes in inputs to measurement of these assets can have a significant effect on the amounts reported for these items including their reported balances and their effects on our income.

During the three years ended December 31, 2022, we recognized significant changes in the fair value of our holdings of “Level 3” fair value assets and liabilities as shown below:

Year ended December 31,	Interest rate lock commitments	Loans held for sale at fair value	Mortgage servicing rights (1)	Excess servicing spread financing	Mortgage servicing liabilities (1)	Total	Pre-tax Income
(positive (negative) effects on net revenues in thousands)							
2022	\$ (624,905)	(66,639)	877,324	—	347	\$ 186,127	\$ 665,247
2021	\$ 489,547	285,501	(136,350)	(1,037)	68,020	\$ 705,681	\$ 1,359,183
2020	\$ 1,254,235	127,780	(1,078,084)	24,970	(31,757)	\$ 297,144	\$ 2,240,609

(1) Excludes changes in fair value attributable to realization of cash flows.

The changes above primarily reflect changes attributable to our observations of changes in the markets for those assets and liabilities as opposed to changes in accounting policies or approaches to the valuation of those instruments.

As a result of the difficulty in observing certain significant valuation inputs affecting our “Level 3” fair value assets and liabilities, we are required to make judgments regarding these items’ fair values. Different persons in possession of the same facts may reasonably arrive at different conclusions as to the inputs to be applied in valuing these assets and liabilities and their fair values. Such differences may result in significantly different fair value measurements. Likewise, due to the general illiquidity of some of these assets, subsequent transactions may be at values significantly different from those reported.

Because the fair value of “Level 3” fair value assets and liabilities are difficult to estimate, our valuation process includes performance of these items’ fair value estimation by specialized staff with significant senior management oversight. We have assigned the responsibility for estimating the fair values of non-interest rate lock commitment “Level 3” fair value assets and liabilities to our Financial Analysis and Valuation group (the “FAV group”), which is responsible for valuing and monitoring these items and maintenance of our valuation policies and procedures for non-interest rate lock commitment (“IRLC”) assets and liabilities. The FAV group submits the results of its valuations to our senior management valuation committee, which oversees the valuations. Our senior management valuation committee includes the Company’s chief financial, risk, credit and deputy chief investment officers as well as other senior members of the Company’s finance, capital markets and risk management staff.

The fair value of our IRLC is developed by our Capital Markets Risk Management staff and is reviewed by our Capital Markets Operations group.

Following is a discussion of our approach to measuring the balance sheet items that are most affected by “Level 3” fair value estimates.

Interest Rate Lock Commitments

Our net gains on loans held for sale include our estimates of the gains or losses we expect to realize upon the sale of loans we have contractually committed to fund or purchase but have not yet funded, purchased or sold. We recognize a substantial portion of our net gains on loans held for sale at fair value before we fund or purchase the loans as the result of these commitments. We call these commitments IRLCs. We recognize the fair value of IRLCs at the time we make the commitment to the correspondent seller, broker or loan applicant and adjust the fair value of such IRLCs as the loan approaches the point of funding or purchase or the prospective transaction is canceled.

We carry IRLCs as either *Derivative assets* or *Derivative liabilities* on our consolidated balance sheet. The fair value of an IRLC is transferred to *Loans held for sale at fair value* when the loan is funded or purchased.

An active, observable market for IRLCs does not exist. Therefore, we measure the fair value of IRLCs using methods we believe that market participants use in pricing IRLCs. We estimate the fair value of IRLCs based on observable Agency MBS prices, our estimates of the fair value of the MSRs we expect to receive in the sale of the loans and the probability that we will fund or purchase the loans (the “pull-through rate”).

Pull-through rates and MSR fair values are based on our estimates as these inputs are difficult to observe in the marketplace. Our estimate of the probability that a loan will be funded and market interest rates are updated as the loans move through the funding or purchase process and as market interest rates change and may result in significant changes in our estimates of the fair value of the IRLCs. Such changes are reflected in the change in fair value of IRLCs which is a component of our *Net gains on loans held for sale at fair value* in the period of the change. The financial effects of changes in these inputs are generally inversely correlated. Increasing interest rates have a positive effect on the fair value of the MSR component of IRLC fair value but increase the pull-through rate for the loan principal and interest payment cash flow component, which decreases in fair value.

A shift in our assessment of an input to the valuation of IRLCs can have a significant effect on the amount of *Net gains on loans held for sale at fair value* for the period. We believe that the most significant “Level 3” fair value input to the measurement of IRLCs is the pull-through rate. At December 31, 2022, we held \$25.8 million of net IRLC assets at fair value. Following is a quantitative summary of the effect of changes in the pull-through rate input on the fair value of IRLCs at December 31, 2022:

Change in input (1)	Effect on fair value of IRLC of a change in pull-through rate	
	(in thousands)	
(20)%	\$	(8,207)
(10)%	\$	(4,095)
(5)%	\$	(2,039)
5 %	\$	2,124
10 %	\$	4,161
20 %	\$	7,420

- (1) The upward shift in input amount on a per-loan basis is limited to the amount of shift required to reach a 100% pull-through rate.

The preceding analysis holds constant all of the other inputs to show an estimate of the effect on fair value of a change in the pull-through rate. We expect that in a market shock event, multiple inputs would be affected and the effects of these changes may compound or counteract each other. Therefore the preceding analysis is not a projection of the effects of a shock event or a change in our estimate of an input and should not be relied upon as an earnings projection.

Loans Held for Sale

We carry loans at their fair values. We recognize changes in the fair value of loans in current period income as a component of *Net gains on loans held for sale at fair value*. How we estimate the fair value of loans is based on whether the loans are saleable into active markets with observable fair value inputs.

- We categorize loans that are saleable into active markets as “Level 2” fair value assets. We estimate the fair value of such loans using their quoted market price or market price equivalent. At December 31, 2022, we held \$3.2 billion of such loans.
- We categorize loans that are not saleable into active markets as “Level 3” fair value assets. “Level 3” fair value loans arise primarily from the following sources:
 - We may purchase certain delinquent government guaranteed or insured loans from Ginnie Mae guaranteed securitizations included in our loan servicing portfolio. Our right to purchase such loans arises as the result of the loan being at least three months delinquent when we buy the loan. Our ability to purchase delinquent loans provides us with an alternative to our obligation to continue advancing principal and interest at the coupon rate of the related Ginnie Mae security. Such repurchased loans are referred to as early buyout (“EBO”) loans and may be resold to investors and thereafter may be repurchased to the extent eligible for resale into a new Ginnie Mae guaranteed security. Such eligibility occurs when the repurchased loans either become current through completion of a modification of a loan’s terms or otherwise after three months of timely payments and when the issuance date of the new security is at least 120 days after the date the loan was last delinquent. At December 31, 2022, we held \$257.2 million of such loans.
 - Certain of our loans may become non-saleable into active markets due to our identification of one or more defects. At December 31 2022, we held \$42.0 million of such loans.
 - There is no active market with observable inputs that are significant to the estimation of the fair value of home equity loans we produce. At December 31, 2022, we held \$46.6 million of such loans.

We use a discounted cash flow model to estimate the fair value of “Level 3” fair value loans. The significant unobservable inputs used in the fair value measurement of our “Level 3” fair value loans held for sale are discount rates, home price projections and prepayment speeds. Significant changes in any of those inputs in isolation could result in a significant change to the loans’ fair value measurement.

Mortgage Servicing Rights and Mortgage Servicing Liabilities

MSRs and MSLs represent the fair value assigned to contracts that obligate us to service the mortgage loans on behalf of the owners of the mortgage loans in exchange for servicing fees and the right to collect certain ancillary income from the borrower. We recognize MSRs and MSLs at our estimate of the fair value of the contract to service the loans.

We include changes in fair value of MSRs and MSLs in current period income as a component of *Net loan servicing fees—Change in fair value of mortgage servicing rights and mortgage servicing liabilities*. Both our estimate of the change in fair value attributable to realization of cash flows and of other changes in fair value are affected by changes in fair value inputs. In the year ended December 31, 2022, we recognized a \$354.2 million net increase in fair value of MSRs and MSLs: \$877.7 million of the increase due to changes in fair value inputs, partially offset by \$523.5 million of reduction due to realization of cash flows underlying the fair value of MSRs.

We estimate fair value of MSRs and MSLs using a discounted cash flow approach. We believe the most significant “Level 3” fair value inputs to the valuation of MSRs and MSLs are the pricing spread (used to develop periodic discount rates), prepayment speed and annual per-loan cost of servicing.

A shift in the market for MSRs and MSLs or a change in our assessment of an input to the valuation of MSRs and MSLs can have a significant effect on their fair value and in our income for the period. The net fair value of MSRs and MSLs that we held at December 31, 2022 was \$6.0 billion.

Following is a summary of the effect on fair value of MSRs of various changes to these key inputs at December 31, 2022:

Change in input	Effect on fair value of MSRs and MSLs of a change in input value (in thousands)		
	Pricing spread	Prepayment speed	Servicing cost
(20)%	\$ 347,610	\$ 337,167	\$ 165,053
(10)%	\$ 168,917	\$ 162,725	\$ 82,527
(5)%	\$ 83,283	\$ 79,976	\$ 41,263
5 %	\$ (81,021)	\$ (77,346)	\$ (41,263)
10 %	\$ (159,863)	\$ (152,192)	\$ (82,527)
20 %	\$ (311,329)	\$ (294,872)	\$ (165,053)

The preceding analyses hold constant all of the inputs other than the input that is being changed to show an estimate of the effect on fair value of a change in a specific input. We expect that in a market shock event, multiple inputs would be affected and the effects of these changes may compound or counteract each other. Therefore the preceding analyses are not projections of the effects of a shock event or a change in our estimate of an input and should not be relied upon as earnings projections.

Results of Operations

Business Trends

Due to significant inflationary pressures, the U.S. Federal Reserve raised the federal funds rates throughout the year in 2022, as well as reduced its overall holdings of Treasury and mortgage-backed securities. Higher interest rates are expected to contribute to reducing the size of the mortgage origination market from an estimated \$2.2 trillion in 2022 to a projected range from \$1.6 trillion to \$1.9 trillion for 2023 according to leading economists.

Lower projected mortgage transaction volumes and increasing interest rates caused a decrease in all mortgage production activities, reduced gains from the redelivery of EBO loans bought from Ginnie Mae securities and increased competition in the mortgage production business, while also leading to a reduction in prepayment speeds in our mortgage servicing portfolio from the elevated levels experienced in 2021. Rising interest rates increased the costs of certain floating rate borrowings, as well as driving higher earnings rates from our placement fees on deposits and loans held for sale. We expect some of these business trends to continue in 2023. Due to the significant contraction in the mortgage market, we reduced business expenses to align with the lower mortgage production activities during the year ended December 31, 2022 and expected mortgage production activity levels in 2023.

Our results of operations are summarized below:

	Year ended December 31,		
	2022	2021	2020
(dollars in thousands except per share amounts)			
Revenues:			
Net gains on loans held for sale at fair value	\$ 791,633	\$ 2,464,401	\$ 2,740,785
Loan origination fees	169,859	384,154	285,551
Fulfillment fees from PennyMac Mortgage Investment Trust	67,991	178,927	222,200
Net loan servicing fees	951,329	182,954	439,448
Net interest expense	(41,365)	(90,530)	(24,525)
Management fees	31,065	37,801	34,538
Other	15,243	9,654	7,600
Total net revenues	1,985,755	3,167,361	3,705,597
Expenses:			
Compensation	735,231	999,802	738,569
Loan origination	173,622	330,788	219,746
Technology	139,950	141,426	112,570
Servicing	59,628	109,835	256,934
Other	212,077	226,327	137,169
Total expenses	1,320,508	1,808,178	1,464,988
Income before provision for income taxes	665,247	1,359,183	2,240,609
Provision for income taxes	189,740	355,693	593,725
Net income	\$ 475,507	\$ 1,003,490	\$ 1,646,884
Earnings per share

Book value per share	\$ 69.44	\$ 60.11	\$ 47.80

- (1) To provide investors with information in addition to our results as determined by GAAP, we disclose Adjusted EBITDA as a non-GAAP measure. Adjusted EBITDA is a measure that is frequently used in our industry to measure performance and we believe that this measure provides supplemental information that is useful to investors. Adjusted EBITDA is not a financial measure calculated in accordance with GAAP and should not be considered as a substitute for net income, or any other performance measure calculated in accordance with GAAP.

We define "Adjusted EBITDA" as net income plus provision for income taxes, depreciation and amortization, excluding decrease (increase) in fair value of MSRs net of MSLs, due to changes in the valuation inputs we use in

our valuation models, increase (decrease) in fair value of excess servicing spread (“ESS”) payable to PMT, hedging losses (gains) associated with MSRs, stock-based compensation and interest expense on corporate debt or corporate revolving credit facilities and capital lease.

We believe that the presentation of Adjusted EBITDA provides useful information to investors regarding our results of operations because each measure assists both investors and management in analyzing and benchmarking the performance and value of our business. However, other companies may define Adjusted EBITDA differently, and as a result, our measures of Adjusted EBITDA may not be directly comparable to those of other companies.

Adjusted EBITDA measures have limitations as analytical tools, and should not be considered in isolation or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are:

- they do not reflect every cash expenditure, future requirements for capital expenditures or contractual commitments;
- they do not reflect the significant interest expense or the cash requirements necessary to service interest or principal payment on our debt; and
- they are not adjusted for all non-cash income or expense items that are reflected in our consolidated statements of cash flows.

Because of these limitations, Adjusted EBITDA measures are not intended as alternatives to net income as an indicator of our operating performance and should not be considered as measures of discretionary cash available to us to invest in the growth of our business or as measures of cash that will be available to us to meet our obligations.

The following table presents a reconciliation of Adjusted EBITDA to our net income, the most directly comparable financial measure calculated and presented in accordance with GAAP, for each of the years indicated:

	Year ended December 31,		
	2022	2021	2020
		(in thousands)	
Net income	\$ 475,507	\$ 1,003,490	\$ 1,646,884
Provision for income taxes	189,740	355,693	593,725
Income before provision for income taxes	665,247	1,359,183	2,240,609
Depreciation and amortization	34,409	28,645	25,575
(Increase) decrease in fair value of MSRs net of MSLs due to changes in valuation inputs used in valuation models	(877,671)	68,330	1,109,841
Increase (decrease) in fair value of ESS payable to PennyMac Mortgage Investment Trust	—	1,037	(24,970)
Hedging losses (gains) associated with MSRs	631,484	475,215	(918,180)
Stock-based compensation	42,552	37,794	45,105
Interest expense on corporate debt or corporate revolving credit facilities and capital lease	95,034	70,377	10,736
Adjusted EBITDA	\$ 591,055	\$ 2,040,581	\$ 2,488,716

Comparison of the years ended December 31, 2022, 2021 and 2020

Income Before Provisions for Income Taxes

In the year ended December 31, 2022, we recorded income before provision for income taxes of \$665.2 million, a decrease of \$693.9 million or 51% from 2021. The decrease was primarily due to a \$2.0 billion decrease in production income (*Net gains on loans held for sale at fair value, Loan origination fees and Fulfillment fees from PennyMac Mortgage Investment Trust*) primarily due to lower production volume and gain on sale margins across all channels, partially offset by a \$768.4 million increase in *Net loan servicing fees* reflecting improved valuation results in our MSRs, net of hedging results, and a \$487.7 million decrease in total expenses, primarily due to reductions in compensation, loan origination and servicing expenses.

In the year ended December 31, 2021, we recorded income before provision for income taxes of \$1.4 billion, a decrease of \$881.4 million or 39% from 2020. The decrease was primarily due to a \$221.1 million decrease in production income (*Net gains on loans held for sale at fair value, Loan origination fees and Fulfillment fees from PennyMac Mortgage Investment Trust*) primarily due to lower gain on sale margins across all production channels and reduced fulfillment fee rates during the year ended December 31, 2021 compared to 2020, a \$256.5 million decrease in *Net loan servicing fees* reflecting elevated prepayment speeds and a \$343.2 million increase in total expenses. The increase in total expenses was mainly due to increases in compensation and origination expenses reflecting the growth of our direct lending production.

Net gains on loans held for sale at fair value

In our production segment, revenues reflect the effects of increasing interest rates on both demand for mortgage loans and gain on sale margins during the year ended December 31, 2022, compared to the strong demand due to the historically low interest rate environment that prevailed during 2021 and 2020.

In the year ended December 31, 2022, we recognized *Net gains on loans held for sale at fair value* totaling \$791.6 million, as compared to \$2.5 billion and \$2.7 billion in 2021 and 2020, respectively. The decrease was primarily due to lower gains from production due to decreased production volumes and gain on sale margins and lower EBO loan redelivery gains due to reduced reperformance and modifications and diminished redelivery margins in the year ended December 31, 2022 compared to 2021 and 2020.

Our net gains on loans held for sale are summarized below:

	Year ended December 31,		
	2022	2021	2020
	(in thousands)		
From non-affiliates:			
Cash (losses) gains:			
Loans	\$ (2,128,195)	\$ 600,840	\$ 2,025,260
Hedging activities	1,347,843	443,341	(767,588)
Total cash (losses) gains	(780,352)	1,044,181	1,257,672
Non-cash (losses) gains:			
Change in fair value of loans and derivative financial instruments outstanding at end of year:			
Interest rate lock commitments	(296,349)	(354,833)	540,376
Loans	188,849	210,961	(326,986)
Hedging derivatives	(20,879)	(124,200)	116,690
	(128,379)	(268,072)	330,080
Mortgage servicing rights and mortgage servicing liabilities resulting from loan sales	1,718,094	1,755,318	1,114,720
Provisions for losses relating to representations and warranties:			
Pursuant to loan sales	(9,617)	(31,590)	(21,035)
Reductions in liability due to change in estimate	8,451	16,037	8,667
Total non-cash gains	1,588,549	1,471,693	1,432,432
Total gains on sale from non-affiliates	808,197	2,515,874	2,690,104
From PennyMac Mortgage Investment Trust (primarily cash)	(16,564)	(51,473)	50,681
	\$ 791,633	\$ 2,464,401	\$ 2,740,785
During the year:			
Interest rate lock commitments issued:			
By loan type:			
Government-insured or guaranteed loans	\$ 57,882,469	\$ 95,070,027	\$ 91,922,406
Conventional conforming loans	22,060,564	46,363,332	33,682,284
Jumbo loans	98,158	—	8,304
Home equity loans	102,215	—	—
Home equity lines of credit	—	—	1,676
	\$ 80,143,406	\$ 141,433,359	\$ 125,614,670
By production channel:			
Consumer direct	\$ 18,925,722	\$ 58,018,371	\$ 39,850,344
Broker direct	9,625,043	18,920,730	18,077,816
Correspondent	51,592,641	64,494,258	67,686,510
	\$ 80,143,406	\$ 141,433,359	\$ 125,614,670
At end of year:			
Loans held for sale at fair value	\$ 3,509,300	\$ 9,742,483	\$ 11,616,400
Commitments to fund and purchase loans	\$ 7,009,119	\$ 14,111,795	\$ 20,624,535
Non-cash elements of gain on sale of loans			

Our gains on loans held for sale include both cash and non-cash elements. We recognize a significant portion of our gains on loans held for sale when we make commitments to purchase or fund mortgage loans. We recognize this gain in the form of IRLCs. We adjust our initial gain estimate as the loan purchase or origination process progresses until the loan is either funded or cancelled. We also receive non-cash proceeds on sale that include our estimate of the fair value of MSRs and we incur liabilities for MSLs (which represent the fair value of the costs we expect to incur in excess of the fees we receive to service the EBO loans we have resold) and for the fair value of our estimate of the losses we expect to incur relating to the representations and warranties we provide in our loan sale transactions.

The MSRs, MSLs, and liability for representations and warranties we recognize represent our estimate of the fair value of future benefits and costs we will realize for years in the future. These estimates represented approximately 217% of our gain on sale of loans at fair value for the year ended December 31, 2022, as compared to 71% and 40% in 2021 and 2020, respectively. These estimates change as circumstances change and changes in these estimates are recognized in income in subsequent periods.

Interest Rate Lock Commitments, Mortgage Servicing Rights and Mortgage Servicing Liabilities

The methods and key inputs we use to measure and update our measurements of IRLCs, MSRs and MSLs is detailed in Note 6 – *Fair value – Valuation Techniques and Inputs* to the consolidated financial statements included in this Annual Report.

Representations and Warranties

Our agreements with the purchasers and insurers include representations and warranties related to the loans we sell. The representations and warranties require adherence to purchaser and insurer origination and underwriting guidelines, including but not limited to the validity of the lien securing the loan, property eligibility, borrower credit, income and asset requirements, and compliance with applicable federal, state and local law.

In the event of a breach of our representations and warranties, we may be required to either repurchase the loans with the identified defects or indemnify the purchaser or insurer. In such cases, we bear any subsequent credit loss on the loans. Our credit loss may be reduced by any recourse we have to correspondent originators that sold such loans to us and breached similar or other representations and warranties. In such event, we have the right to seek a recovery of related repurchase losses from that correspondent seller.

Our representations and warranties are generally not subject to stated limits of exposure. However, we believe that the current UPB of loans sold by us and subject to representation and warranty liability to date represents the maximum exposure to repurchases related to representations and warranties.

The level of the liability for losses under representations and warranties is difficult to estimate and requires considerable judgment. The level of loan repurchase losses is dependent on economic factors, purchaser or insurer loss mitigation strategies, and other external conditions that may change over the lives of the underlying loans. Our estimate of the liability for representations and warranties is developed by our credit administration staff and approved by our senior management credit committee which includes our senior executives and senior management in our loan production, loan servicing and credit risk management areas.

The method used to estimate our losses on representations and warranties is a function of our estimate of future defaults, loan repurchase rates, the severity of loss in the event of default, if applicable, and the probability of reimbursement by the correspondent loan seller. We establish a liability at the time loans are sold and review our liability estimate on a periodic basis.

In the years ended December 31, 2022, 2021, and 2020 we recorded provisions for losses under representations and warranties relating to current loan sales as a component of *Net gains on loans held for sale at fair value* totaling \$9.6 million, \$31.6 million, and \$21.0 million, respectively. The decrease in provision relating to current loan sales reflects the decrease in our loan production in the year ended December 31, 2022 compared to 2021, and the increase in 2021 compared to 2020 was due to a change in the mix of loan deliveries between the years. We also recorded reductions in the liability relating to previously sold loans of \$8.5 million, \$16.0 million, and \$8.7 million, for the years ended December 31, 2022, 2021 and 2020, respectively. The reductions in the liability relating to previously sold loans resulted from those loans meeting performance criteria established by the Agencies which significantly limits the likelihood of certain repurchase or indemnification claims.

Following is a summary of mortgage loan repurchase activity and the unpaid balance of mortgage loans subject to representations and warranties:

	Year ended December 31,					
	2022	2021	2020			
	(in thousands)					
During the year:						
Indemnification activity:						
Loans indemnified at beginning of year	\$ 15,079	\$ 13,788	\$ 15,366			
New indemnifications	24,016	9,544	4,544			
Less indemnified loans sold, repaid or refinanced	3,134	8,253	6,122			
Loans indemnified at end of year	<u>\$ 35,961</u>	<u>\$ 15,079</u>	<u>\$ 13,788</u>			
Repurchase activity:						
Total loans repurchased	\$ 93,011	\$ 99,496	\$ 58,410			
Less:						
Loans repurchased by correspondent lenders	32,660	37,280	28,658			
Loans repaid by borrowers or resold with defects resolved	<u>54,044</u>	<u>25,223</u>	<u>24,810</u>			
Net loans repurchased with losses chargeable to liability for representations and warranties	\$ 6,307	\$ 36,993	\$ 4,942			
Losses charged to liability for representations and warranties	<u>\$ 12,266</u>	<u>\$ 4,720</u>	<u>\$ 1,126</u>			
At end of year:						
Unpaid principal balance of loans subject to representations and warranties	\$ 296,774,121	\$ 257,369,777	\$ 210,222,447			
Liability for representations and warranties	\$ 32,421	\$ 43,521	\$ 32,688			

In the year ended December 31, 2022, we repurchased loans with unpaid principal balances totaling \$93.0 million and charged \$12.3 million in net incurred losses relating to repurchases against our liability for representations and warranties. Our losses arising from representations and warranties have historically been reduced by our ability to either recover most of the losses from our correspondent sellers or from our ability to profitably refinance and resell repurchased loans.

If the outstanding balance of loans we purchase and sell subject to representations and warranties increases, the loans sold continue to season, economic conditions change, correspondent lenders become unwilling or unable to repurchase defective loans, or investor and insurer loss mitigation strategies are adjusted, the level of repurchase and loss activity may increase. Furthermore, as expected economic conditions, such as interest rates, home values and borrower default rates change, our realized loss rates may increase. Such increases may require us to adjust our estimate of future losses relating to loans previously sold. Such increased loss estimates, if recognized, would be reflected in *Net gains on loans held for sale at fair value* in the period we recognize the change.

The recent increases in market interest rates may affect certain of our correspondent sellers' ability to honor their obligations to repurchase defective loans. Furthermore, these market factors and the expected economic slowdown may increase the level of borrower defaults, increasing the level of repurchases we are required to make, and may make it more difficult to minimize losses on repurchased loans due to reduced opportunities to refinance loans and decreasing market values for resales of loans. We expect these developments will increase the losses we incur in relation to our representations and warranties compared to our historical experience. However, we believe our recorded liability is presently adequate to absorb such losses.

Loan origination fees

Following is a summary of our loan origination fees:

	Year ended December 31,		
	2022	2021 (in thousands)	2020
Loan origination fee revenue	\$ 169,859	\$ 384,154	\$ 285,551
Unpaid principal balance of loans purchased and originated for sale to non-affiliates	\$ 72,025,798	\$ 124,594,308	\$ 96,200,101

Loan origination fees decreased \$214.3 million in the year ended December 31, 2022 compared to 2021, primarily due to a decrease in loan production volumes. Loan origination fees increased \$98.6 million in the year ended December 31, 2021 compared to 2020, primarily due to an increase in loan production volumes.

Fulfillment fees from PennyMac Mortgage Investment Trust

Following is a summary of our fulfillment fees:

	Year ended December 31,		
	2022	2021 (in thousands)	2020
Fulfillment fee revenue	\$ 67,991	\$ 178,927	\$ 222,200
Unpaid principal balance of loans fulfilled subject to fulfillment fees	\$ 37,090,031	\$ 110,003,574	\$ 100,389,252
Average fulfillment fee rate (in basis points)	18	16	22

Fulfillment fees from PMT represent fees we collect for services we perform on behalf of PMT in connection with the acquisition, packaging and sale of loans. We charged fulfillment fees as a percentage of the UPB of the loans we fulfilled for PMT through June 30, 2020. Effective July 1, 2020, we charge fulfillment fees based on the number of loans we lock and fulfill for PMT.

Fulfillment fees decreased \$110.9 million in the year ended December 31, 2022 compared to 2021, primarily due to a decrease in loan production volume. Fulfillment fees decreased \$43.3 million in the year ended December 31, 2021 compared to 2020. The decrease was primarily due to fulfillment fee structure changes, which generally reduced the fulfillment fees per loan fulfilled, and an increase in discretionary reductions in the fulfillment fee rate in the year ended December 31, 2021 compared to 2020.

Net loan servicing fees

Our net loan servicing fee income has two primary components: fees earned for servicing the loans and the effects of MSR and MSL valuation changes, net of hedging results as summarized below:

	Year ended December 31,		
	2022	2021 (in thousands)	2020
Loan servicing fees	\$ 1,228,637	\$ 1,075,112	\$ 998,291
Effects of MSRs and MSLs	(277,308)	(892,158)	(558,843)
Net loan servicing fees	\$ 951,329	\$ 182,954	\$ 439,448

Loan Servicing Fees

Following is a summary of our loan servicing fees:

	Year ended December 31,		
	2022	2021 (in thousands)	2020
From non-affiliates	\$ 1,054,828	\$ 875,570	\$ 814,646
From PennyMac Mortgage Investment Trust	81,915	80,658	67,181
Other			
Late charges	48,166	34,957	41,100
Other	43,728	83,927	75,364
	<u>91,894</u>	<u>118,884</u>	<u>116,464</u>
	<u><u>\$ 1,228,637</u></u>	<u><u>\$ 1,075,112</u></u>	<u><u>\$ 998,291</u></u>
Average loan servicing portfolio			
MSRs and MSLs	\$ 297,207,950	\$ 258,759,523	\$ 235,567,838
Subserviced for PMT	\$ 226,817,005	\$ 202,047,495	\$ 151,379,311

Loan servicing fees from non-affiliates generally relate to our MSRs which are primarily related to servicing we provide for loans included in Agency securitizations. These fees are contractually established at an annualized percentage of the unpaid principal balance of the loan serviced and we collect these fees from borrower payments. Loan servicing fees from PMT are primarily related to PMT's MSRs and are established at monthly per-loan amounts based on whether the loan is a fixed-rate or adjustable-rate loan and the loan's delinquency or foreclosure status as detailed in Note 4 – *Transactions with Affiliates* to the consolidated financial statements included in this Annual Report. Other loan servicing fees are comprised primarily of fees charged to correspondent lenders relating to loans that are repaid shortly after we purchase them and borrower-contracted fees such as late charges and reconveyance fees.

The increases in loan servicing fees from non-affiliates and from PMT for the year ended December 31, 2022, compared to 2021 and 2020, were primarily due to growth of our loan servicing portfolio. The decrease in other loan servicing fees for the year ended December 31, 2022 compared to 2021 was primarily due to a decrease in fees charged to correspondent lenders related to borrower early loan payoffs and decreased recording and release fees charged to borrowers due to lower prepayment activity we experienced in the current rising interest rate environment compared to 2021. The increases in other loan servicing fees for the year ended December 31, 2021 compared to 2020 was primarily due to an increase in fees charged to correspondent lenders related to borrower early loan payoffs resulting from the low interest rate environment.

Mortgage Servicing Rights and Mortgage Servicing Liabilities

We have elected to carry our servicing assets and liabilities at fair value. Changes in fair value have two components: changes due to realization of the contractual servicing fees and changes due to changes in market inputs used to estimate the fair value of MSRs and MSLs. We endeavor to moderate the effects of changes in fair value by entering into derivatives transactions and, until March of 2021, by financing certain of our purchases of MSRs with the sale of a portion of the MSR assets' cash flows to PMT in the form of ESS certificates.

Change in fair value of MSR, MSL and ESS and the related hedging results are summarized below:

	Year ended December 31,		
	2022	2021	2020
	(in thousands)		
MSR and MSL valuation changes:			
Realization of cash flows	\$ (523,495)	\$ (347,576)	\$ (392,152)
Other changes in fair value of mortgage servicing rights and mortgage servicing liabilities	877,671	(68,330)	(1,109,841)
	354,176	(415,906)	(1,501,993)
Change in fair value of excess servicing spread	—	(1,037)	24,970
Hedging results	(631,484)	(475,215)	918,180
Total change in fair value of mortgage servicing rights, mortgage servicing liabilities and excess servicing spread financing net of hedging results	\$ (277,308)	\$ (892,158)	\$ (558,843)
Average balances:			
Mortgage servicing rights	\$ 5,117,835	\$ 3,347,980	\$ 2,404,621
Mortgage servicing liabilities	\$ 2,397	\$ 55,623	\$ 32,071
Excess servicing spread financing	\$ —	\$ 21,563	\$ 153,768
At end of year:			
Mortgage servicing rights	\$ 5,953,621	\$ 3,878,078	\$ 2,581,174
Mortgage servicing liabilities	\$ 2,096	\$ 2,816	\$ 45,324
Excess servicing spread financing	\$ —	\$ —	\$ 131,750

Changes in realization of cash flows are influenced by changes in the level of servicing assets and liabilities and changes in estimates of the remaining cash flows to be realized. Realization of cash flows increased in the year ended December 31, 2022 compared to 2021 primarily due to the growth in our investment in MSRs. Realization of cash flows decreased in the year ended December 31, 2021, compared to 2020, primarily due to lower prepayment expectations through 2021 which slows the rate at which cash flows are expected to be realized.

Other changes in fair value of MSRs increased in the year ended December 31, 2022 compared to 2021 and 2020 primarily due to significant increases in interest rates and resulting decreases in expected future prepayment speeds in 2022.

Hedging results reflect valuation losses attributable to the effects of interest rate increases on the fair value of the hedging instruments in the year ended December 31, 2022 compared to lesser or opposite circumstances and effects in 2021 and 2020.

Following is a summary of our loan servicing portfolio:

	December 31,	
	2022	2021
	(in thousands)

(1) Loan-to-Value

(2) MSRs and MSLs on government loans include loans securitized in Ginnie Mae pools as well as loans sold to private investors.

(3) Represents MSRs on conventional loans sold to private investors.

Net Interest Expense

Net interest expense is summarized below:

	Year ended December 31,		
	2022	2021	2020
(in thousands)			
Interest income:			
From non-affiliates:			
Cash and short-term investments	\$ 19,839	\$ 3,280	\$ 6,154
Loans held for sale at fair value	172,124	275,176	184,789
Placement fees relating to custodial funds	<u>102,099</u>	<u>21,326</u>	<u>52,758</u>
	<u>294,062</u>	<u>299,782</u>	<u>243,701</u>
From PennyMac Mortgage Investment Trust—Assets purchased from PennyMac Mortgage Investment Trust under agreements to resell	<u>—</u>	<u>387</u>	<u>3,325</u>
	<u>294,062</u>	<u>300,169</u>	<u>247,026</u>
Interest expense:			
To non-affiliates:			
Short-term debt	112,773	168,285	119,248
Long-term debt	174,847	110,159	55,421
Interest shortfall on repayments of mortgage loans serviced for Agency securitizations	40,741	105,430	82,285
Interest on mortgage loan impound deposits	<u>7,066</u>	<u>5,545</u>	<u>6,179</u>
	<u>335,427</u>	<u>389,419</u>	<u>263,133</u>
To PennyMac Mortgage Investment Trust—Excess servicing spread financing at fair value	<u>—</u>	<u>1,280</u>	<u>8,418</u>
	<u>335,427</u>	<u>390,699</u>	<u>271,551</u>
	<u><u>\$ (41,365)</u></u>	<u><u>\$ (90,530)</u></u>	<u><u>\$ (24,525)</u></u>

Net interest expense decreased \$49.2 million in the year ended December 31, 2022 compared to 2021. The decrease was primarily due to:

- an increase of \$80.8 million in placement fees we receive relating to custodial funds that we manage due to increased earning rates;
- a decrease of \$64.7 million in interest shortfall on repayments of loans serviced for Agency securitizations, reflecting decreased loan payoffs as a result of decreased borrower refinancing activity due to the higher interest rates. When a borrower repays a loan, we are responsible in many cases for paying the full month's interest to the holders of the Agency securities that are backed by the loan regardless of when in the month the borrower repays the loan. The decrease in refinancing activity in our MSR portfolio caused the decrease in the interest shortfall; and
- an increase of \$16.6 million in interest income from cash balances reflecting increasing interest rates; partially offset by
- a decrease of \$103.1 million in interest income from loans held for sale reflecting lower average levels of inventory; and
- an increase of \$9.2 million in interest expense on borrowings due to the higher interest rate environment.

Net interest expense increased \$66.0 million in the year ended December 31, 2021 compared to 2020. The increase was primarily due to:

- a decrease of \$31.4 million in placement fees we receive relating to custodial funds that we manage due to decreased earning rates; and
- an increase of \$23.1 million in interest shortfall on repayments of loans serviced for Agency securitizations, reflecting increased loan payoffs as a result of increased borrower refinancing activity due to the lower interest rates; and
- an increase in the level of unsecured borrowings due to issuance of unsecured senior notes, which generally bear higher rates of interest as compared to secured borrowings.

Management fees

Management fees are summarized below:

	Year ended December 31,		
	2022	2021	2020
Base management	\$ 31,065	\$ 34,794	\$ 34,538
Performance incentive	—	3,007	—
	<u>\$ 31,065</u>	<u>\$ 37,801</u>	<u>\$ 34,538</u>
Net assets of PMT at end of year	\$ 1,962,815	\$ 2,367,518	\$ 2,296,859

Management fees decreased \$6.7 million in the year ended December 31, 2022 compared to 2021, reflecting the decrease in PMT's average shareholders' equity upon which its base management fees are based and a decrease in performance incentive fees.

Management fees increased \$3.3 million in the year ended December 31, 2021 compared to 2020. The increase is primarily due to \$3.0 million of performance incentive fees earned as a result of PMT's increased profitability during one of the twelve-month measurement periods used to measure PMT's profitability during 2021 compared to 2020.

Change in Fair Value of Investment in and Dividends Received from PMT

The results of our holdings of common shares of PMT, which is included in *Changes in fair value of investment in, and dividends received from PMT* are summarized below:

	Year ended December 31,		
	2022	2021	2020
	(in thousands)		
Dividends from PennyMac Mortgage Investment Trust	\$ 136	\$ 141	\$ 114
Change in fair value of investment in PennyMac Mortgage Investment Trust	(371)	195	(567)
Dividends received and change in fair value	\$ (235)	\$ 336	\$ (453)
Fair value of PennyMac Mortgage Investment Trust shares at end of year	\$ 929	\$ 1,300	\$ 1,105

Change in fair value of investment in and dividends received from PMT decreased \$571,000 in the year ended December 31, 2022 compared to 2021 and increased \$789,000 in the year ended December 31, 2021 compared to 2020, primarily due to changes in the fair value of our investment in PMT. We held 75,000 common shares of PMT during each of the three years ended December 31, 2022.

Expenses

Compensation

Our compensation expense is summarized below:

	Year ended December 31,		
	2022	2021	2020
	(dollars in thousands)		
Salaries and wages	\$ 445,779	\$ 594,188	\$ 437,157
Severance	18,797	156	187
Incentive compensation	135,461	248,551	171,323
Taxes and benefits	92,642	119,113	84,797
Stock and unit-based compensation	42,552	37,794	45,105
	\$ 735,231	\$ 999,802	\$ 738,569
Head count:			
Average	5,508	7,118	5,313
Period end	4,135	7,208	6,632

Compensation expense decreased \$264.6 million in the year ended December 31, 2022 compared to 2021 primarily due to work force reductions necessitated by reductions in loan production in 2022 and decreased incentive compensation accruals due to reduced staffing levels and lower achievement of profitability targets. Compensation expense increased \$261.2 million in the year ended December 31, 2021 compared to 2020. The increase was primarily due to growth in staffing levels made to accommodate the growth in our loan production and servicing activities as well as to increases in incentive compensation primarily due to higher production volume. The decrease in stock based compensation in the year ended December 31, 2021 compared to 2020 was primarily due to a 2020 stock option grant that vested on its grant date.

Loan origination

Loan origination expense decreased \$157.2 million in the year ended December 31, 2022 compared to 2021 due to decreased lending activities. Loan origination expense increased \$111.0 million in the year ended December 31, 2021 compared to 2020 due to increased lending activities.

Servicing

Servicing expense decreased \$50.2 million in the year ended December 31, 2022 compared to 2021 and \$147.1 million in the year ended December 31, 2021 compared to 2020. These decreases were primarily due to a larger reversal of the provision for estimated servicing advance losses recorded in prior years and decreased purchases of EBO loans from Ginnie Mae guaranteed pools. The reduction reflects the improvements in the performance of our servicing portfolio due to the resolution of delinquent loans relating to the COVID-19 pandemic.

Technology

Technology expense decreased \$1.5 million in the year ended December 31, 2022 compared to 2021 and increased \$28.9 million in the year ended December 31, 2021 compared to 2020. The increase between 2020 and 2021 was primarily due to growth in our direct lending and loan servicing operations and continued investment in our loan production and servicing infrastructure. We recorded \$728,000 and \$13.1 million of impairment of capitalized software during the years ended December 31, 2021 and 2020, respectively.

Provision for income taxes

For the years ended December 31, 2022, 2021 and 2020, our effective tax rates were 28.5%, 26.2%, and 26.5%, respectively. The higher effective tax rate for 2022 is primarily due to the effect of the repricing of the net deferred tax liability resulting from the higher booking tax rate partially offset by the effect of the reduction in the future tax rate for some states. The higher effective tax rate additionally reflects the effect of an increase in non-deductible compensation.

The Inflation Reduction Act was signed into law on August 16, 2022 ("Act"), effective for tax years beginning after December 31, 2022. The Inflation Reduction Act imposes a 15% Alternative Minimum Tax ("AMT") on the adjusted financial statement income ("AFSI") of applicable corporations. Applicable corporations generally include any corporation whose 3-year average AFSI exceeds \$1 billion. Based on the current legislation and the definition of AFSI, we do not expect the Company will be subject to this corporate minimum tax.

Balance Sheet Analysis

Following is a summary of key balance sheet items as of the dates presented:

	December 31,	
	2022	2021
	(in thousands)	
ASSETS		
Cash and short-term investments	\$ 1,340,730	\$ 346,942
Loans held for sale at fair value	3,509,300	9,742,483
Derivative assets	99,003	333,695
Servicing advances, net	696,753	702,160
Investments in and advances to affiliates	37,301	41,391
Mortgage servicing rights	5,953,621	3,878,078
Loans eligible for repurchase	4,702,103	3,026,207
Other	483,773	705,656
Total assets	<u>\$ 16,822,584</u>	<u>\$ 18,776,612</u>
LIABILITIES AND STOCKHOLDERS' EQUITY		
Short-term debt	\$ 3,288,875	\$ 7,772,580
Long-term debt	<u>3,722,566</u>	<u>3,077,330</u>
	<u>7,011,441</u>	<u>10,849,910</u>
Liability for loans eligible for repurchase	4,702,103	3,026,207
Income taxes payable	1,002,744	685,262
Other	635,247	796,908
Total liabilities	<u>13,351,535</u>	<u>15,358,287</u>
Stockholders' equity	<u>3,471,049</u>	<u>3,418,325</u>
Total liabilities and stockholders' equity	<u>\$ 16,822,584</u>	<u>\$ 18,776,612</u>
Leverage ratios:		
Total debt / Stockholders' equity	2.0	3.2
Total debt / Tangible stockholders' equity (1)	2.1	3.3

- (1) Tangible stockholders' equity represents total stockholder's equity reduced by intangible assets, primarily capitalized software, for the dates presented.

Total assets decreased \$2.0 billion from \$18.8 billion at December 31, 2021 to \$16.8 billion at December 31, 2022. The decrease was primarily due to a \$6.2 billion decrease in loans held for sale at fair value, partially offset by a \$2.1 billion increase in MSRs and a \$1.7 billion increase in loans eligible for repurchase. The decrease in loans held for sale at fair value was primarily due to lower loan production volume in 2022.

Total liabilities decreased by \$2.0 billion from \$15.4 billion as of December 31, 2021 to \$13.4 billion at December 31, 2022. The decrease was primarily due to a \$3.8 billion decrease in borrowings, partially offset by a \$1.7 billion increase in liability for loans eligible for repurchase.

Cash Flows

Our cash flows for the three years ended December 31, 2022 are summarized below:

	Year ended December 31,		
	2022	2021	2020
	(in thousands)		
Operating	\$ 6,033,235	\$ 2,563,061	\$ (6,198,938)
Investing	(721,582)	(304,369)	783,034
Financing	(4,323,207)	(2,451,380)	5,760,107
Net increase (decrease) in cash and restricted cash	<u>\$ 988,446</u>	<u>\$ (192,688)</u>	<u>\$ 344,203</u>

Operating activities

Net cash provided by (used in) operating activities totaled \$6.0 billion, \$2.6 billion, and \$(6.2) billion in the years ended December 31, 2022, 2021, and 2020, respectively. Our cash flows from operating activities are primarily influenced by changes in the levels of our inventory of loans held for sale as shown below:

	Year ended December 31,		
	2022	2021	2020
	(in thousands)		
Cash flows from:			
Loans held for sale	\$ 5,676,655	\$ 3,102,134	\$ (5,326,837)
Other operating sources	356,580	(539,073)	(872,101)
	<u>\$ 6,033,235</u>	<u>\$ 2,563,061</u>	<u>\$ (6,198,938)</u>

Investing activities

Net cash used in investing activities was \$721.6 million in the year ended December 31, 2022, primarily comprised of \$871.9 million in net settlement of derivative financial instruments used to hedge our investment in MSRs and \$71.9 million used in acquisition of capitalized software, partially offset by a \$238.7 million decrease in margin deposits.

Net cash used in investing activities was \$304.4 million in the year ended December 31, 2021, primarily comprised of \$434.4 million in net settlement of derivative financial instruments used to hedge our investment in MSRs, partially offset by a \$97.7 million decrease in margin deposits.

Net cash provided by investing activities was \$783.0 million in the year ended December 2020, primarily comprised of \$913.1 million in net settlement of derivative financial instruments used to hedge our investment in MSRs, partially offset by \$131.8 million increase in margin deposits.

Financing activities

Net cash used in financing activities was \$4.3 billion in the year ended December 31, 2022, primarily due to a \$4.5 billion decrease in short-term borrowings, which reflects decreased borrowing requirements relating to our reduced inventory of loans held for sale, and \$406.1 million in repurchases of common stock, partially offset by issuance of a \$650 million note payable secured by mortgage servicing rights.

Net cash used in financing activities was \$2.5 billion in the year ended December 31, 2021, primarily due to a \$2.4 billion decrease in short-term borrowings, which reflects decreased borrowing requirements relating to our inventory of loans held for sale, and a \$958.2 million repurchase of common stock, partially offset by issuance of \$1.2 billion of unsecured senior notes.

Net cash provided by financing activities totaled \$5.8 billion in the year ended December 31, 2020, primarily due to an increase of \$6.1 billion in borrowings to finance the growth in our inventory of loans held for sale, partially offset by \$337.5 million of repurchases of common stock and \$30.9 million of dividends paid to our common stock holders.

Liquidity and Capital Resources

Our liquidity reflects our ability to meet our current obligations (including our operating expenses and, when applicable, the retirement of, and margin calls relating to, our debt, and margin calls relating to hedges on our commitments to purchase or originate mortgage loans and on our MSR investments), fund new originations and purchases, and make investments as we identify them. We expect our primary sources of liquidity to be through cash flows from business activities, proceeds from bank borrowings, proceeds from and issuance of equity or debt offerings. In addition, we utilized existing borrowing facilities to increase our cash balances to \$1.3 billion at December 31, 2022. We believe that our liquidity is sufficient to meet our current liquidity needs.

Our current borrowing strategy is to finance our assets where we believe such borrowing is prudent, appropriate and available. Our borrowing activities are in the form of sales of assets under agreements to repurchase, sales of mortgage loan participation purchase and sale certificates, notes payable, a capital lease and unsecured senior notes. A significant amount of our borrowings have short-term maturities and provide for advances with terms ranging from 30 days to 270 days. Because a significant portion of our current debt facilities consist of short-term borrowings, we expect to renew these facilities in advance of maturity in order to ensure our ongoing liquidity and access to capital or otherwise allow ourselves sufficient time to replace any necessary financing.

On June 8, 2022, the Company, through its indirect subsidiary, PNMAC GMSR ISSUER TRUST (“Issuer Trust”), issued an aggregate principal amount of \$500 million in secured term notes (the “2022-GT1 Notes”) to qualified institutional buyers under Rule 144A of the Securities Act of 1933, as amended (the “Securities Act”). The 2022-GT1 Notes bear interest at a rate equal to United States 30 Day Average Secured Overnight Financing Rate or SOFR plus 4.25% per annum, payable each month beginning in June 2022, on the 25th day of such month or, if such 25th day is not a business day, the next business day and mature on May 25, 2027 unless extended to either May 25, 2028 or May 25, 2029.

In December 16, 2022, the Company issued a note payable that is secured by Freddie Mac MSRs. Interest is charged at a rate based on SOFR plus a spread as defined in the agreement. The facility expires on November 13, 2024. The maximum amount that the Company may borrow under the note payable is \$400 million, \$350 million of which is committed and which may be reduced by other debt outstanding with the counter party.

Our repurchase agreements represent the sales of assets together with agreements for us to buy back the assets at a later date. The table below presents the average outstanding, maximum and ending balances:

	Year ended December 31,		
	2022	2021	2020
	(in thousands)		
Average balance	\$ 2,580,513	\$ 6,911,843	\$ 3,348,928
Maximum daily balance	\$ 7,289,147	\$ 10,969,029	\$ 9,663,995
Balance at year end	\$ 3,004,690	\$ 7,297,360	9,663,995

The differences between the average and maximum daily balances on our repurchase agreements reflect the fluctuations throughout the years of our inventory as we fund and pool mortgage loans for sale in guaranteed mortgage securitizations.

Our debt repurchase agreements also contain margin call provisions that, upon notice from the applicable lender at its option, require us to transfer cash or, in some instances, additional assets in an amount sufficient to eliminate any margin deficit. A margin deficit will generally result from any decline in the market value (as determined by the applicable lender) of the assets subject to the related financing agreement. Upon notice from the applicable lender, we

will generally be required to satisfy the margin call on the day of such notice or within one business day thereafter, depending on the timing of the notice.

Our secured financing agreements at PLS require us to comply with various financial covenants. The most significant financial covenants currently include the following:

- a minimum in unrestricted cash and cash equivalents of \$100 million;
- a minimum tangible net worth of \$1.25 billion;
- a maximum ratio of total liabilities to tangible net worth of 10:1; and
- at least one other warehouse or repurchase facility that finances amounts and assets that are similar to those being financed under certain of our existing secured financing agreements.

With respect to servicing performed for PMT, PLS is also subject to certain covenants under PMT's debt agreements. Covenants in PMT's debt agreements are equally, or sometimes less, restrictive than the covenants described above.

Our unsecured senior notes contain covenants that limit our and our restricted subsidiaries' ability to engage in specified types of transactions, including, but not limited to, the following:

- pay dividends or distributions, redeem or repurchase equity, prepay subordinated debt and make certain loans or investments;
- incur, assume or guarantee additional debt or issue preferred stock;
- incur liens on assets;
- merge or consolidate with another person or sell all or substantially all of our assets to another person;
- transfer, sell or otherwise dispose of certain assets including capital stock of subsidiaries;
- enter into transactions with affiliates; and
- allow to exist certain restrictions on the ability of our non-guarantor restricted subsidiaries to pay dividends or make other payments to us.

Although these financial covenants limit the amount of indebtedness that we may incur and affect our liquidity through minimum cash reserve requirements, we believe that these covenants currently provide us with sufficient flexibility to successfully operate our business and obtain the financing necessary to achieve that purpose.

We are also subject to liquidity and net worth requirements established by FHFA for Agency seller/servicers and Ginnie Mae for single-family issuers. FHFA and Ginnie Mae have established minimum liquidity requirements and revised their net worth requirements for their approved non-depository single-family sellers/servicers or issuers as summarized below:

- The FHFA liquidity requirement is equal to 0.035% (3.5 basis points) of total Agency servicing UPB plus an incremental 200 basis points of the amount by which total nonperforming Agency servicing UPB (reduced by 70% of the UPB of nonperforming Agency loans that are in pandemic-related payment forbearance and were current when they entered such forbearance) exceeds 6% of the applicable Agency servicing UPB; allowable assets to satisfy the liquidity requirement include cash and cash equivalents (unrestricted), certain investment-grade securities that are available for sale or held for trading including Agency mortgage-backed securities, obligations of Fannie Mae or Freddie Mac, and U.S. Treasury obligations, and unused and available portions of committed servicing advance lines;
- The FHFA net worth requirement is a minimum net worth of \$2.5 million plus 0.25% (25 basis points) of UPB for total 1-4 unit residential mortgage loans serviced and a tangible net worth/total assets ratio greater than or equal to 6%;
- The Ginnie Mae single-family issuer minimum liquidity requirement is equal to the greater of \$1.0 million or 0.10% (10 basis points) of the issuer's outstanding Ginnie Mae single-family securities, which must be met with cash and cash equivalents; and
- The Ginnie Mae net worth requirement is equal to \$2.5 million plus 0.35% (35 basis points) of the issuer's outstanding Ginnie Mae single-family obligations.

We believe that we are currently in compliance with the applicable Agency requirements. In August 2022, the Agencies issued revised capital and liquidity requirements. The requirements will be effective at various dates beginning September 30, 2023, for issuers of securities guaranteed by Ginnie Mae and seller/servicers of mortgage loans to Fannie Mae and Freddie Mac. We believe that we are also in compliance with Agencies' revised requirements as currently interpreted as of December 31, 2022.

On August 4, 2021, our Board of Directors increased our common stock repurchase program from \$1 billion to \$2 billion. Share repurchases may be effected through open market purchases or privately negotiated transactions in accordance with applicable rules and regulations. The stock repurchase program does not have an expiration date and the authorization does not obligate us to acquire any particular amount of common stock. From inception through December 31, 2022, we have repurchased approximately \$1.7 billion of common shares under our stock repurchase program.

We continue to explore a variety of means of financing our business, including debt financing through bank warehouse lines of credit, bank loans, repurchase agreements, securitization transactions and corporate debt. However, there can be no assurance as to how much additional financing capacity such efforts will produce, what form the financing will take or whether such efforts will be successful.

Debt Obligations

As described further above in "Liquidity and Capital Resources," we currently finance certain of our assets through short-term borrowings with major financial institutions in the form of sales of assets under agreements to repurchase and mortgage loan participation purchase and sale agreements. We access the capital market for long-term debt through the issuance of secured term notes and unsecured senior notes and we have an outstanding long term capital lease. The issuer under our secured term note facilities is PLS or a wholly-owned issuer trust guaranteed by PNMAC. In addition, we have issued unsecured senior notes guaranteed by certain of our restricted wholly-owned subsidiaries.

Under the terms of these financing agreements, PLS is required to comply with certain financial covenants, as described further above in “Liquidity and Capital Resources,” and various non-financial covenants customary for transactions of this nature. As of December 31, 2022, we believe we were in compliance in all material respects with these covenants.

Many of our debt financing agreements contain a condition precedent to obtaining additional funding that requires PLS to maintain positive net income for at least one of the previous two consecutive quarters, or other similar measures. PLS is compliant with all such conditions.

The financing agreements also contain margin call provisions that, upon notice from the applicable lender, require us to transfer cash or, in some instances, additional assets in an amount sufficient to eliminate any margin deficit. Upon notice from the applicable lender, we will generally be required to satisfy the margin call on the day of such notice or within one business day thereafter, depending on the timing of the notice.

In addition, the financing agreements contain events of default (subject to certain materiality thresholds and grace periods), including payment defaults, breaches of covenants and/or certain representations and warranties, cross-defaults, guarantor defaults, servicer termination events and defaults, material adverse changes, bankruptcy or insolvency proceedings and other events of default customary for these types of transactions. The remedies for such events of default are also customary for these types of transactions and include the acceleration of the principal amount outstanding under the agreements and the liquidation by our lenders of the mortgage loans or other collateral then subject to the agreements.

The Company has issued unsecured senior notes (the “Unsecured Notes”) to qualified institutional buyers under Rule 144A of the Securities Act of 1933, as amended. The Unsecured Notes are fully and unconditionally guaranteed, jointly and severally, on a senior unsecured basis by the Company’s existing and future wholly-owned domestic subsidiaries (other than certain excluded subsidiaries defined in the indentures under which the Unsecured Notes were issued). The Company is required to maintain certain financial covenants under terms of the Unsecured Notes, as described above in Liquidity and Capital Resources. We believe the Company was in compliance with all financial covenants in the Unsecured Notes as of December 31, 2022.

Our borrowings have maturities as follows:

Lender	Outstanding indebtedness (1)	Total facility size (2) (dollar amounts in thousands)	Committed facility (2)	Facility Maturity date (2)
Assets sold under agreements to repurchase				
Credit Suisse First Boston Mortgage Capital LLC	\$ 918,804	\$ 2,950,000	\$ 1,200,000	May 31, 2024
Credit Suisse First Boston Mortgage Capital LLC and Citibank, N.A. (3)	\$ 100,000	\$ 100,000	\$ 100,000	May 31, 2024

GMSR 2018-GT2 Notes	\$ 650,000	\$ 650,000		August 25, 2023
GMSR 2022-GT1 Notes	\$ 500,000	\$ 500,000		May 25, 2027
MSR Note Payable (4)	\$ 150,000	\$ 150,000	\$ 150,000	November 13, 2024
Unsecured Senior Notes - 5.375%	\$ 650,000	\$ 650,000		October 15, 2025
Unsecured Senior Notes - 4.25%	\$ 650,000	\$ 650,000		February 15, 2029
Unsecured Senior Notes - 5.75%	\$ 500,000	\$ 500,000		September 15, 2031

(1) Outstanding indebtedness as of December 31, 2022.

(2) Total facility size, committed facility and maturity date include contractual changes through the date of this Report.

(3) The \$100 million is borrowed from CSFB and Citibank, N.A. under the sale of a VFN under an agreement to repurchase up to a maximum of \$500 million secured by Ginnie Mae MSRs. No borrowing is outstanding from CSFB and Citibank, N.A. under a sale of the GMSR Servicing Advance Notes under an agreement to repurchase up to a maximum of \$600 million. Maximum amounts borrowed under both agreements to repurchase may be reduced by amounts utilized under other debt agreements with CSFB and Citibank N.A.

(4) The maximum amount that the Company may borrow under this note payable is \$400 million, \$350 million of which is committed and may be reduced by other debt outstanding with the counterparty.

The amount at risk (the fair value of the assets pledged plus the related margin deposit, less the amount advanced by the counterparty and accrued interest) relating to our assets sold under agreements to repurchase is summarized by counterparty below as of December 31, 2022:

Counterparty	Amount at risk (in thousands)	Weighted average maturity of advances under repurchase agreement	Facility maturity
Credit Suisse First Boston Mortgage Capital LLC and Citibank, N.A. (1)	\$ 3,831,311	May 31, 2024	May 31, 2024
Credit Suisse First Boston Mortgage Capital LLC (2)	\$ 75,634	March 1, 2023	May 31, 2024
Bank of America, N.A.	\$ 68,918	March 16, 2023	June 5, 2024
Royal Bank of Canada	\$ 19,895	April 12, 2023	December 14, 2023
JP Morgan Chase Bank, N.A. (EBO facility)	\$ 13,316	February 14, 2023	October 11, 2024
JP Morgan Chase Bank, N.A. (warehouse facility)	\$ 11,908	February 26, 2023	June 17, 2024
BNP Paribas	\$ 11,131	March 19, 2023	July 31, 2024
Wells Fargo Bank, N.A.	\$ 9,664	March 16, 2023	November 17, 2023
Morgan Stanley Bank, N.A.	\$ 8,310	March 6, 2023	January 3, 2024
Barclays Bank PLC	\$ 7,248	November 13, 2024	November 13, 2024
Goldman Sachs	\$ 4,326	March 19, 2023	December 23, 2023
Citibank, N.A. (2)	\$ 1,657	February 12, 2023	April 26, 2024

- (1) The borrowing facility with Credit Suisse First Boston Mortgage Capital LLC and Citibank, N.A. is in the form of a sale of a variable funding note under an agreement to repurchase.
- (2) The borrowing facilities with Credit Suisse First Boston Mortgage Capital LLC and Citibank, N.A. are in the form of asset sales under agreements to repurchase.

All debt financing arrangements that matured between December 31, 2022 and the date of this Annual Report have been renewed or extended and are described in Note 12—*Short-Term Borrowings* to the accompanying consolidated financial statements.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

Market risk is the exposure to loss resulting from changes in interest rates, foreign currency exchange rates, commodity prices, equity prices, real estate values and other market-based risks. The primary market risks that we are exposed to are fair value risk, interest rate and prepayment risk.

Fair Value Risk

Our IRLCs, mortgage loans held for sale, MSRs, MSLs and ESS financing are reported at their fair values. The fair value of these assets fluctuates primarily due to changes in interest rates. The fair value risk we face is primarily attributable to interest rate risk and prepayment risk.

Interest Rate Risk

Interest rate risk is highly sensitive to many factors, including governmental monetary and tax policies, domestic and international economic and political considerations, and other factors beyond our control. Changes in interest rates affect both the fair value of, and interest income we earn from, our mortgage-related investments and our derivative financial instruments. This effect is most pronounced with fixed-rate mortgage assets.

In general, rising interest rates negatively affect the fair value of our IRLCs and inventory of mortgage loans held for sale and positively affect the fair value of our MSRs. Changes in interest rates significantly influence the prepayment speeds of the loans underlying our investments in MSRs, which can have a significant effect on their fair values. Changes in interest rate are most prominently reflected in the prepayment speeds of the loans underlying our investments in MSRs and the discount rate used in their valuation.

Our operating results will depend, in part, on differences between the income from our investments and our financing costs. Presently most of our secured debt financing is based on a floating rate of interest calculated on a fixed spread over the relevant index, as determined by the particular financing arrangement.

Prepayment Risk

To the extent that the actual prepayment rate on the mortgage loans underlying our MSRs differs from what we projected when we initially recognized these assets and liabilities when we measure fair value as of the end of each reporting period, the carrying value of these assets and liabilities will be affected. In general, a decrease in the principal balances of the mortgage loans underlying our MSRs or an increase in prepayment expectations will decrease our estimates of the fair value of the MSRs, thereby reducing net servicing income, partially offset by the beneficial effect on net servicing income of a corresponding reduction in the fair value of our MSLs.

Risk Management Activities

We engage in risk management activities primarily in an effort to mitigate the effect of changes in interest rates on the fair value of our assets. To manage this price risk, we use derivative financial instruments acquired with the intention of moderating the risk that changes in market interest rates will result in unfavorable changes in the fair value of our assets, primarily prepayment exposure on our MSR investments as well as IRLCs and our inventory of loans held for sale. Our objective is to minimize our hedging expense and maximize our loss coverage based on a given hedge expense target. We do not use derivative financial instruments other than IRLCs for purposes other than in support of our risk management activities.

Our strategies are reviewed daily within a disciplined risk management framework. We use a variety of interest rate and spread shifts and scenarios and define target limits for market value and liquidity loss in those scenarios. With respect to our IRLCs and inventory of loans held for sale, we use MBS forward sale contracts to lock in the price at which we will sell the mortgage loans or resulting MBS, and further use MBS put options to mitigate the risk of our IRLCs not closing at the rate we expect. With respect to our MSRs, we seek to mitigate mortgage-based loss exposure utilizing MBS forward purchase and sale contracts, address exposures to smaller interest rate shifts with Treasury and interest rate swap futures, and use options and swaptions to achieve target coverage levels for larger interest rate shocks.

Fair Value Sensitivities

The following sensitivity analyses are limited in that they were performed at a particular point in time; only contemplate the movements in the indicated variables; do not incorporate changes to other variables; are subject to the accuracy of various models and inputs used; and do not incorporate other factors that would affect our overall financial performance in such scenarios, including operational adjustments made by management to account for changing circumstances. For these reasons, the following estimates should not be viewed as earnings forecasts.

Mortgage Servicing Rights

The following tables summarize the estimated change in fair value of MSRs as of December 31, 2022, given several shifts in pricing spreads, prepayment speed and annual per loan cost of servicing:

Change in fair value attributable to shift in:	-20%	-10%	-5%	+5%	+10%	+20%
	(in thousands)					
Prepayment speed	\$ 337,167	\$ 162,725	\$ 79,976	\$ (77,346)	\$ (152,192)	\$ (294,872)
Pricing spread	\$ 347,610	\$ 168,917	\$ 83,283	\$ (81,021)	\$ (159,863)	\$ (311,329)
Annual per-loan cost of servicing	\$ 165,053	\$ 82,527	\$ 41,263	\$ (41,263)	\$ (82,527)	\$ (165,053)

Item 8. Financial Statements and Supplementary Data

The information called for by this Item 8 is hereby incorporated by reference from our Financial Statements and Auditors' Report in Part IV of this Report.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. However, no matter how well a control system is designed and operated, it can provide only reasonable, not absolute, assurance that it will detect or uncover failures within the Company to disclose material information otherwise required to be set forth in our periodic reports.

Our management has conducted an evaluation, with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this Report as required by paragraph (b) of Rule 13a-15 under the Exchange Act. Based on our evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective, as of the end of the period covered by this Report, to provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the applicable rules and forms, and that it is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Exchange Act Rule 13a-15(f). Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Management assessed the effectiveness of its internal control over financial reporting based on the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control—Integrated Framework* (2013). Based on those criteria, management concluded that our internal control over financial reporting was effective as of December 31, 2022.

The effectiveness of our internal control over financial reporting as of December 31, 2022 has been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their report which appears herein.

Changes in Internal Control over Financial Reporting

There have been no changes in internal control over financial reporting during the quarter ended December 31, 2022, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and the Board of Directors of
PennyMac Financial Services, Inc.

Opinion on Internal Control over Financial Reporting

We have audited the internal control over financial reporting of PennyMac Financial Services, Inc. and subsidiaries ("the Company") as of December 31, 2022, based on criteria established in *Internal Control—Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2022, based on criteria established in *Internal Control—Integrated Framework (2013)* issued by COSO.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated financial statements as of and for the year ended December 31, 2022, of the Company and our report dated February 22, 2023, expressed an unqualified opinion on those financial statements.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Item 9C. Disclosure Regarding Foreign Jurisdictions that Prevent Inspections

Not applicable.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

The information required by this Item 10 is hereby incorporated by reference from our definitive proxy statement, or will be contained in an amendment to this Report, in either case to be filed within 120 days after the end of fiscal year 2022.

Item 11. Executive Compensation

The information required by this Item 11 is hereby incorporated by reference from our definitive proxy statement, or will be contained in an amendment to this Report, in either case to be filed within 120 days after the end of fiscal year 2022.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

Equity Compensation Plan Information

Our 2022 Equity Incentive Plan provides for the grant of stock options, stock appreciation rights, restricted stock and stock unit awards, performance units, and stock grants which we collectively refer to as “awards.” Directors, officers and other employees of our Company and our subsidiaries, as well as others performing consulting or advisory services for us, are eligible for grants under the 2022 Equity Incentive Plan. The plan administrator of the equity incentive plan is the compensation committee of the board of directors. The board of directors itself may also exercise any of the powers and responsibilities under the 2022 Equity Incentive Plan. Subject to the terms of the 2022 Equity Incentive Plan, the plan administrator will select the recipients of awards and determine, among other things, the number of shares of common stock covered by the awards and the dates upon which such awards become exercisable or any restrictions lapse, as applicable; the type of award and the exercise or purchase price and method of payment for each such award; the performance measures, if applicable, required to be satisfied prior to vesting; the vesting period for awards, risks of forfeiture and any potential acceleration of vesting or lapses in risks of forfeiture; and the duration of awards.

The following table provides information about our former and current equity compensation plans as of December 31, 2022, which consist of the 2013 Equity Incentive Plan and the 2022 Equity Incentive Plan (collectively the “Equity Incentive Plans”):

Plan category	(a)	(b)	(c)
	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted average exercise price of outstanding options, warrants and rights (1)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (2)
Equity compensation plans approved by security holders (3)	5,776,124	\$ 32.46	4,597,788
Equity compensation plans not approved by security holders (4)	—	—	—
Total	5,776,124	\$ 32.46	4,597,788

- (1) The weighted average exercise price set forth in this column relates only to 4,316,846 shares of stock options outstanding under our Equity Incentive Plans. The remaining securities included in column (a) of this table are performance and time-based restricted stock units, for which no exercise price applies.
- (2) This number includes a general pool of 4,600,000 shares of common stock authorized for future awards, initially authorized under the 2022 Equity Incentive Plan, plus, on or after January 1, 2023, and each January 1st thereafter through January 1, 2032, by an amount equal to the lesser of (i) 1.75% of our outstanding common stock on a fully diluted basis as of the end of our immediately preceding fiscal year, (ii) 1,322,024 shares, and (iii) any lower amount determined by our board of directors.
- (3) Represents our Equity Incentive Plans.
- (4) We do not have any equity plans that have not been approved by our stockholders.

The other information required by this Item 12 is hereby incorporated by reference from our definitive proxy statement, or will be contained in an amendment to this Report, in either case to be filed within 120 days after the end of fiscal year 2022.

Item 13. Certain Relationships and Related Transactions, and Director Independence

The information required by this Item 13 is hereby incorporated by reference from our definitive proxy statement, or will be contained in an amendment to this Report, in either case to be filed within 120 days after the end of fiscal year 2022.

Item 14. Principal Accountant Fees and Services

Our independent public accounting firm is Deloitte & Touche LLP, Los Angeles, CA, PCAOB Auditor ID 34.

The information required by this Item 14 is hereby incorporated by reference from our definitive proxy statement, or will be contained in an amendment to this Report, in either case to be filed within 120 days after the end of fiscal year 2022.

Consolidated Statements of Cash Flows	F-7
Notes to Consolidated Financial Statements	F-9

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and the Board of Directors of
PennyMac Financial Services, Inc.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of PennyMac Financial Services, Inc. and subsidiaries (the “Company”) as of December 31, 2022 and 2021, the related consolidated statements of income, changes in stockholders’ equity, and cash flows, for each of the three years in the period ended December 31, 2022, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2022 and 2021, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2022 in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company’s internal control over financial reporting as of December 31, 2022, based on criteria established in *Internal Control — Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 22, 2023, expressed an unqualified opinion on the Company’s internal control over financial reporting.

Basis for Opinion

These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current-period audit of the financial statements that was communicated or required to be communicated to the audit committee and that (1) relates to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Mortgage Servicing Rights (“MSRs”) – Refer to Notes 3, 6 and 9 to the Financial Statements

Critical Audit Matter Description

The Company accounts for MSRs at fair value and categorizes its MSRs as “Level 3” fair value assets. The Company uses a discounted cash flow approach to estimate the fair value of MSRs. The key inputs used in the estimation of the fair value of MSRs include the applicable pricing spread (a component of the discount rate), the prepayment rates of the underlying loans (“prepayment speed”) and the annual per-loan cost of servicing, all of which are unobservable. Significant changes to any of those inputs in isolation could result in a significant change in the MSRs’ fair value measurement.

We identified the pricing spread and prepayment speed assumptions used in the valuation of MSRs as a critical audit matter because of the significant judgments made by management in determining these assumptions. Auditing these assumptions required a high degree of auditor judgment and an increased extent of effort, including the need to involve our fair value specialists, to evaluate the reasonableness of management's estimates and assumptions related to selection of the pricing spread and prepayment speed.

How the Critical Audit Matter Was Addressed in the Audit

Our audit procedures related to the pricing spread and prepayment speed assumptions used by the Company to estimate the fair value of MSRs included the following, among others:

- We tested the design and operating effectiveness of internal controls over determining the fair value of MSRs, including those over the determination of the pricing spread and prepayment speed assumptions
- With the assistance of our fair value specialists, we evaluated the reasonableness of management's prepayment speed assumptions by preparing a value for comparison to the Company's valuation
- We evaluated the reasonableness of management's prepayment speed assumptions of the underlying mortgage loans, by comparing historical prepayment speed assumptions to actual results
- We tested management's process for determining the pricing spread assumptions by comparing them to the implied spreads within market transactions and other third-party information used by management

/s/ Deloitte & Touche LLP

Los Angeles, California

February 22, 2023

We have served as the Company's auditor since 2008.

**PENNYMAC FINANCIAL SERVICES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

Note 1—Organization

PennyMac Financial Services, Inc. (together, with its consolidated subsidiaries, unless the context indicated otherwise, “PFSI” or the “Company”) is a holding corporation and its primary assets are equity interests in Private National Mortgage Acceptance Company, LLC (“PNMAC”). The Company is the managing member of PNMAC, and it operates and controls all of the businesses and consolidates the financial results of PNMAC and its subsidiaries.

PNMAC is a Delaware limited liability company which, through its subsidiaries, engages in mortgage banking and investment management activities. PNMAC’s mortgage banking activities consist of residential mortgage loan production and loan servicing. PNMAC’s investment management activities and a portion of its mortgage banking activities are conducted on behalf of PennyMac Mortgage Investment Trust (“PMT”), a publicly held real estate investment trust that invests in residential mortgage-related assets. PNMAC’s primary wholly owned subsidiaries are:

- *PennyMac Loan Services, LLC (“PLS”)*—a Delaware limited liability company that services portfolios of residential mortgage loans on behalf of non-affiliates and PMT, purchases, originates and sells new prime credit quality residential mortgage loans and engages in other mortgage banking activities for its account and the account of PMT.

PLS is approved as a seller/servicer of mortgage loans by the Federal National Mortgage Association (“Fannie Mae”) and the Federal Home Loan Mortgage Corporation (“Freddie Mac”) and as an issuer of securities guaranteed by the Government National Mortgage Association (“Ginnie Mae”). PLS is a licensed Federal Housing Administration Nonsupervised Title II Lender with the United States Department of Housing and Urban Development (“HUD”) and a lender/servicer with the Veterans Administration (“VA”) and United States Department of Agriculture (“USDA”) (each of the above an “Agency” and collectively the “Agencies”).

- *PNMAC Capital Management, LLC (“PCM”)*—a Delaware limited liability company registered with the Securities and Exchange Commission as an investment adviser under the Investment Advisers Act of 1940, as amended. PCM has an investment management agreement with PMT.

Note 2—Concentration of Risk

A portion of the Company’s activities relate to PMT. Revenues generated from PMT and its subsidiaries (generally comprised of gains on mortgage loans held for sale, loan origination fees, fulfillment fees, loan servicing fees, management fees and net interest paid to PMT) totaled 9%, 9%, and 11% of total net revenues for the years ended December 31, 2022, 2021 and 2020, respectively. The Company also purchased 70%, 53% and 64% of its newly originated loan production from PMT during the years ended December 31, 2022, 2021 and 2020, respectively.

Note 3—Significant Accounting Policies

A description of the Company’s significant accounting policies applied in the preparation of these consolidated financial statements follows.

Basis of Presentation

The Company’s consolidated financial statements have been prepared in compliance with accounting principles generally accepted in the United States (“GAAP”) as codified in the Financial Accounting Standards Board’s (“FASB”) *Accounting Standards Codification*.

Principles of Consolidation

The consolidated financial statements include the accounts of PFSI and its wholly-owned subsidiaries. Intercompany accounts and transactions have been eliminated.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make judgments and estimates that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results will likely differ from those estimates.

Cash Flows

For the purpose of presentation in the statement of cash flows, the Company has identified tenant security deposits relating to rental properties owned by PMT and managed by the Company as restricted cash. Tenant security deposits are included in *Other* assets on the Company's consolidated balance sheets.

Fair Value

Most of the Company's assets and certain of its liabilities are measured at or based on their fair values. The Company groups its assets and liabilities at fair value in three levels, based on the markets in which the assets and liabilities are traded and the observability of the inputs used to determine fair value. These levels are:

- Level 1—Quoted prices in active markets for identical assets or liabilities.
- Level 2—Prices determined or determinable using other significant observable inputs. Observable inputs are inputs that other market participants would use in pricing an asset or liability and are developed based on market data obtained from sources independent of the Company.
- Level 3—Prices determined using significant unobservable inputs. In situations where observable inputs are unavailable, unobservable inputs may be used. Unobservable inputs reflect the Company's own judgments about the factors that market participants use in pricing an asset or liability, and are based on the best information available in the circumstances.

As a result of the difficulty in observing certain significant valuation inputs affecting "Level 3" fair value assets and liabilities, the Company is required to make judgments regarding these items' fair values.

Different persons in possession of the same facts may reasonably arrive at different conclusions as to the inputs to be applied in valuing these assets and liabilities and their fair values. Such differences may result in significantly different fair value measurements. Likewise, due to the general illiquidity of some of these assets and liabilities, subsequent transactions may be at values significantly different from those reported.

Short-Term Investment

Short-term investment, which represents an investment in an account with a depository institution, is carried at fair value. Changes in fair value are recognized in current period income. The Company classifies its short-term investment as a "Level 1" fair value asset.

Loans Held for Sale at Fair Value

The Company has elected to account for loans held for sale at fair value, with changes in fair value recognized in current period income, to more timely reflect the Company's performance. All changes in fair value are recognized as a component of *Net gains on loans held for sale at fair value*. The Company classifies most of the loans held for sale at fair value as "Level 2" fair value assets. Certain of the Company's loans held for sale may not be saleable into active markets due to identified defects or delinquency. Such loans are classified as "Level 3" fair value assets.

Sale Recognition

The Company recognizes transfers of loans as sales when it surrenders control over the loans. Control over transferred loans is deemed to be surrendered when (i) the loans have been isolated from the Company, (ii) the transferee has the right (free of conditions that constrain it from taking advantage of that right) to pledge or exchange the transferred loans, and (iii) the Company does not maintain effective control over the transferred loans through either (a) an agreement that entitles and obligates the Company to repurchase or redeem them before their maturity or (b) the ability to unilaterally cause the holder to return specific loans.

Interest Income Recognition

Interest income on loans held for sale at fair value is recognized over the life of the loans using their contractual interest rates. Income recognition is suspended and the interest receivable is reversed against interest income when loans become 90 days delinquent. Income recognition is resumed when the loan becomes contractually current.

Derivative Financial Instruments

The Company holds and issues derivative financial instruments that are created as a result of certain of its operations. The Company also enters into derivative transactions as part of its interest rate risk management activities.

Derivative financial instruments created as a result of the Company's operations include:

- Interest rate lock commitments ("IRLCs") that are created when the Company commits to purchase or originate a loan for sale at specified interest rates.
- Derivatives that were embedded in a master repurchase agreement with a non-affiliate that provided for the Company to receive incentives for financing loans that satisfied certain consumer relief characteristics as provided in the master repurchase agreement.

PFSI engages in interest rate risk management activities in an effort to moderate the effect of changes in market interest rates on the fair value of the Company's assets. The Company is exposed to price risk relative to:

- Loans held for sale and IRLCs. The Company bears price risk from the time a commitment to fund a loan is made to a borrower or to purchase a loan from PMT or a non-affiliated entity, to the time either the prospective transaction is cancelled or the loan is sold. During this period, the Company is exposed to losses if market interest rates increase, because the fair value of the purchase commitment or prospective loan decreases.
- Mortgage servicing rights ("MSRs"). MSRs are generally subject to reduction in fair value when mortgage interest rates decrease. Decreasing mortgage interest rates normally encourage increased mortgage refinancing activity. Increased refinancing activity reduces the expected life of the mortgage loans underlying the MSRs, thereby reducing their fair value. Reductions in the fair value of MSRs affect earnings primarily through recognition of the changes in fair value.

To manage the fair value risk resulting from interest rate risk, the Company uses derivative financial instruments acquired with the intention of reducing the risk that changes in market interest rates will result in unfavorable changes in the fair value of the Company's IRLCs, inventory of loans held for sale and MSRs.

IRLCs are accounted for as derivative financial instruments. The Company manages the risk created by IRLCs by entering into forward sale agreements to sell the expected mortgage loans or mortgage-backed securities ("MBS") and by the purchase and sale of options on MBS. Such agreements are also accounted for as derivative financial instruments. These and other interest-rate derivatives are also used to manage the fair value risk created by changes in prepayment speeds on certain of the MSRs the Company holds.

The Company classifies its IRLCs as "Level 3" fair value assets and liabilities. Fair value of hedging derivative financial instruments that are actively traded on an exchange are categorized by the Company as "Level 1" fair value assets and liabilities. Fair value of hedging derivative financial instruments based on observable MBS prices or interest rate volatilities in the MBS market are categorized as "Level 2" fair value assets and liabilities.

The Company does not designate its derivative financial instruments for hedge accounting. Therefore, the Company accounts for its derivative financial instruments as free-standing derivatives. All derivative financial instruments are recognized on the consolidated balance sheet at fair value with changes in the fair values being reported in current period income.

Changes in fair value of derivative financial instruments hedging IRLCs, loans held for sale at fair value and MSRs are included in *Net gains on loans held for sale at fair value* or in *Mortgage servicing rights hedging results*, as applicable, in the Company's consolidated statements of income. Changes in fair value of derivative assets relating to the master repurchase agreement that provided for the Company to receive incentives for loans that satisfied certain consumer relief characteristics are included in *Interest expense*.

Cash flows from derivative financial instruments relating to hedging of IRLCs and loans acquired for sale are included in *Cash flows from operating activities* in *Sale and repayment of loans acquired for sale at fair value to nonaffiliates*; cash flows from derivative financial instruments relating to hedging of MSRs is included in *Cash flows from investing activities*; and cash flows from repurchase agreement derivatives are included in *Cash flows from operating activities*.

When the Company has multiple derivative financial instruments with the same counterparty subject to a master netting arrangement, it offsets the amounts recorded as assets and liabilities and amounts recognized for the right to reclaim cash collateral it has deposited with the counterparty or the obligation to return cash collateral it has collected from the counterparty arising from that master netting arrangement. Such offset amounts are presented as either a net asset or liability by counterparty on the Company's consolidated balance sheets.

Servicing Advances

Servicing advances represent advances made on behalf of borrowers and the mortgage loans' investors to fund property taxes, insurance premiums and out-of-pocket collection costs (e.g., preservation and restoration of mortgaged property or real estate acquired in the settlement of loans ("REO"), legal fees, and appraisals). Servicing advances are made in accordance with the Company's servicing agreements. A valuation allowance is provided for amounts expected to become uncollectable. Servicing advances are written off when they are deemed uncollectable.

Mortgage Servicing Rights and Mortgage Servicing Liabilities

MSRs and mortgage servicing liabilities ("MSLs") arise from contractual agreements between the Company and investors (or their agents) in mortgage securities and mortgage loans. Under these contracts, the Company performs loan servicing functions in exchange for fees and other remuneration. The servicing functions typically performed include, among other responsibilities, collecting and remitting loan payments; responding to borrower inquiries; accounting for principal and interest; holding custodial (impound) funds for payment of property taxes and insurance premiums; counseling delinquent mortgagors; administering loss mitigation activities, including modification and forbearance programs; and supervising foreclosures and property dispositions.

The Company is contractually entitled to receive other remuneration including various mortgagor-contracted fees such as late charges and collateral reconveyance charges, and the Company is generally entitled to retain the placement fees earned on impounded funds and funds held pending remittance related to its collection of mortgagor payments. The Company also generally has the right to solicit the mortgagors for other products and services as well as for new mortgages for those considering refinancing their existing loan or purchasing a new home.

The Company recognizes MSRs and MSLs initially at fair value, either as proceeds from or liabilities incurred in sales of mortgage loans where the Company assumes the obligation to service the mortgage loan in the sale transaction, or from the purchase of MSRs or receipt of cash for acceptance of MSLs.

The fair value of MSRs and MSLs is derived from the net positive or negative, respectively, cash flows associated with the servicing contracts. For loans subject to MSR and MSL contracts, the Company receives a servicing fee, based on the remaining outstanding principal balances of the mortgage loans subject to the servicing contracts. The servicing fees are collected from the monthly payments made by the mortgagors.

The fair value of MSRs and MSLs is difficult to determine because MSRs and MSLs are not actively traded in observable stand-alone markets. Considerable judgment is required to estimate the fair values of MSRs and MSLs and the exercise of such judgment can significantly affect the Company's income. Therefore, the Company classifies its MSRs and MSLs as "Level 3" fair value assets and liabilities.

Changes in fair value of MSLs and MSRs are recognized in current period income in *Change in fair value of mortgage servicing rights and mortgage servicing liabilities* in the consolidated statements of income.

Leases

The Company determines if an arrangement is a lease at inception. If the arrangement is determined to be a lease, the Company recognizes both an *Operating lease right-of-use asset* and a corresponding *Operating lease liability* in its consolidated balance sheet, except leases with initial terms less than or equal to 12 months. Lease expense is recognized on the straight-line basis over the lease term and is recorded in *Occupancy and equipment* in the consolidated statements of income.

The Company's lease agreements include both lease and non-lease components (such as common area maintenance), which are generally included in the lease and are accounted for together with the lease as a single lease component. As such, lease payments represent payments on both lease and non-lease components. At lease commencement, lease liabilities are recognized based on the present value of the remaining lease payments and discounted using the Company's incremental borrowing rate. Right-of-use assets initially equal the lease liability, adjusted for any lease payments made before lease commencement and for any lease incentives.

Furniture, Fixtures, Equipment and Building Improvements

Furniture, fixtures, equipment and building improvements are stated at historical cost less accumulated depreciation and amortization. Depreciation and amortization are computed using the straight-line method over the estimated useful lives of the various classes of assets, which range from five to seven years for furniture and equipment and the lesser of the asset's estimated useful life or the remaining lease term for fixtures and building improvements.

Capitalized Software

The Company capitalizes certain consulting, payroll, and payroll-related costs related to the development of computer software for internal use. Once development is complete and the software is placed in service, the Company amortizes the capitalized costs over three to seven years using the straight-line method.

The Company also periodically assesses capitalized software for recoverability when events or changes in circumstances indicate that its carrying amount may not be recoverable. If the Company identifies an indicator of impairment, it assesses recoverability by comparing the carrying amount of the asset to the sum of the undiscounted cash flows expected to result from the use and the eventual disposal of the asset. An impairment loss is recognized when the carrying amount is not recoverable and is measured as the excess of carrying value over fair value.

Investment in PennyMac Mortgage Investment Trust at Fair Value

Common shares of beneficial interest in PMT are carried at fair value with changes in fair value recognized in current period income. Fair value for purposes of the Company's holdings in PMT is based on the published closing price of the shares as of period end. The Company classifies its investment in common shares of PMT as a "Level 1" fair value asset.

Loans Eligible for Repurchase

The terms of the Ginnie Mae MBS program allow, but do not require, the Company to repurchase loans when the loan is at least three months delinquent. As a result of this right, the Company recognizes the loans in *Loans eligible for repurchase* at their unpaid principal balances and records a corresponding liability in *Liability for loans eligible for repurchase* on its consolidated balance sheets.

Borrowings

The carrying values of borrowings other than excess servicing spread ("ESS") are based on the accrued cost of the agreements. The costs of creating the facilities underlying the agreements (debt issuance costs) are included in the carrying value of the agreements and are charged to *Interest expense* over the terms of the respective borrowing facilities:

- Debt issuance costs relating to revolving facilities, such as repurchase agreement and mortgage loan participation purchase and sale facilities are amortized on the straight line basis over the term of the facility; and
- Debt issuance cost relating to non-revolving debts, such as the Company's *Notes payable secured by mortgage servicing assets* and *Unsecured senior notes* are amortized over the contractual term of the non-revolving debt using the interest method.

Excess Servicing Spread Financing at Fair Value

The Company finances certain of its purchases of Agency MSRs through the sale to PMT of the right to receive the excess of the servicing fee rate over a specified rate of the underlying MSRs. This excess is referred to as ESS. ESS is carried at its fair value. Changes in fair value of ESS are recognized in current period income in *Change in fair value of excess servicing spread payable to PennyMac Mortgage Investment Trust*.

Interest expense for ESS is accrued using the interest method based upon the expected cash flows from the ESS through the expected life of the underlying mortgage loans.

Liability for Losses Under Representations and Warranties

The Company's agreements with the Agencies and other investors include representations and warranties related to the loans the Company sells to the Agencies and other investors. The representations and warranties require adherence to Agency and other investor origination and underwriting guidelines, including but not limited to the validity of the lien securing the loan, property eligibility, borrower credit, income and asset requirements, and compliance with applicable federal, state and local law.

In the event of a breach of its representations and warranties, the Company may be required to either repurchase the loans with the identified defects or indemnify the investor or insurer. In such cases, the Company bears any subsequent credit loss on the loans. The Company's credit loss may be reduced by any recourse it may have to correspondent loan sellers that, in turn, had sold such mortgage loans to PMT and breached similar or other representations and warranties. In such event, the Company has the right to seek a recovery of related repurchase losses from that correspondent loan seller, through PMT.

As a result of providing representations and warranties to investors and insurers, the Company records a provision for losses relating to representations and warranties as part of its loan sale transactions. The method used to estimate the liability for representations and warranties is a function of the representations and warranties given and considers a combination of factors, including, but not limited to, estimated future defaults and loan repurchase rates, the estimated severity of loss in the event of default and the probability of reimbursement by the correspondent loan seller. The Company establishes a liability at the time loans are sold and periodically updates its liability estimate. The level of the liability for representations and warranties is reviewed and approved by the Company's management credit committee. Both the initial recognition of, and adjustments to the level of, the liability for representations and warranties are recorded in *Net gains on loans held for sale at fair value*.

The level of the liability for representations and warranties is difficult to estimate and requires considerable judgment. The level of loan repurchase losses is dependent on economic factors, investor repurchase demand or insurer claim denial strategies, and other external conditions that may change over the lives of the underlying loans. The Company's representations and warranties are generally not subject to stated limits of exposure. However, the Company believes that the current unpaid principal balance ("UPB") of loans sold to date represents the maximum exposure to repurchases related to representations and warranties.

Loan Origination Fees

Loan origination fees represent compensation to the Company for the origination or purchase of loans. Loan origination fees are earned and recognized upon funding or purchase of the loan by the Company and are collected either at purchase from the correspondent seller, at funding when paid by the borrower or upon sale of the loan when the origination fees are financed by the borrower.

Loan Servicing Fees

Loan servicing fees are received by the Company for servicing loans. Loan servicing activities are described in *Mortgage Servicing Rights and Mortgage Servicing Liabilities* above. Loan servicing fee amounts are based upon fee rates established at the time a loan sale or securitization agreement is entered into.

The Company's obligations under its loan servicing agreements are fulfilled as the Company services the loans. Fees are collected when the loan payments are received from the borrowers in the case of MSRs held by the Company or within 30 days of the applicable month-end for subserviced loans.

Loan servicing fees relating to owned MSRs are recognized when earned. Loan servicing fees relating to loans subserviced for PMT are recognized in the month in which the loans are serviced.

Fulfillment Fees

Fulfillment fees represent fees the Company collects for services it performs on behalf of PMT in connection with the acquisition, packaging and sale of loans. Fulfillment fee amounts are based upon a negotiated fee schedule. The Company's obligation under the agreement is fulfilled when PMT issues a loan commitment, when it purchases a loan and when it completes the sale or securitization of a loan it purchases to investors other than Fannie Mae or Freddie Mac. Fulfillment fee revenue is recognized in the month an interest rate lock commitment is issued, or the loan is purchased or sold by PMT. Fulfillment fees are not collected for any loans sold from PMT to the Company. Fulfillment fees are generally collected within 30 days of the applicable activity.

Management Fees

Management fees represent compensation to the Company for management services it provides to PMT. Management fees are based on PMT's shareholders' equity amounts and profitability in excess of specified thresholds. Management fees are recognized as services are provided and are paid to the Company on a quarterly basis within 30 days of the end of the quarter.

Stock-Based Compensation

The Company establishes the cost of its share-based awards at the awards' fair values at the grant date of the awards. The Company estimates the fair value of time-based restricted stock units and performance-based restricted stock units awarded with reference to the fair value of its underlying common stock and expected forfeiture rates on the date of the award. The Company estimates the fair value of its stock option awards with reference to the expected price volatility of its shares of common stock, expected dividend yield, expected forfeiture rates, and risk-free interest rate for the period that exercisable stock options are expected to be outstanding.

Compensation costs are fixed, except for performance-based restricted stock units, as of the award date. The cost of performance-based restricted stock units is adjusted in each reporting period after the grant for changes in expected performance attainment until the performance share units vest. The Company amortizes the cost of stock based compensation awards to *Compensation expense* over the vesting period using the graded vesting method.

Income Taxes

The Company is subject to federal and state income taxes. Income taxes are provided using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using the enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

The Company recognizes the effect on deferred taxes of a change in tax rates in income in the period in which the change occurs. The Company establishes a valuation allowance if, in management's judgment, it is not more likely than not that a deferred tax asset will be realized.

The Company recognizes tax benefits relating to its tax positions only if, in the opinion of management, it is more likely than not that the tax position will be sustained upon examination by the appropriate taxing authority. A tax position that meets this standard is recognized as the largest amount that is greater than 50% likely to be realized upon ultimate settlement with the appropriate taxing authority. The Company will classify any penalties and interest as a component of provision for income taxes.

As a result of a recapitalization and reorganization of PNMAC in 2013, the Company expects to benefit from amortization and other tax deductions resulting from increases in the tax basis of PNMAC's assets from the exchange of PennyMac Class A units to the shares of the Company's common stock. Those deductions will be allocated to the Company and will be taken into account in reporting the Company's taxable income.

The Company assumed an agreement with certain of the former unitholders of PNMAC that provides for the additional payment by the Company to exchanging unitholders of PNMAC equal to 85% of the amount of cash savings, if any, in U.S. federal, state and local income tax that PFSI realizes due to (i) increases in tax basis resulting from exchanges of the then existing unitholders and (ii) certain other tax benefits related to PFSI entering into the tax receivable agreement, including tax benefits attributable to payments under the tax receivable agreement. Although a reorganization of the Company in 2018 eliminated the potential for unitholders to exchange any additional units subject to this tax receivable agreement, the Company continues to be subject to the agreement and provide payment when applicable for units exchanged before the reorganization.

Note 4—Transactions with Related Parties

Transactions with PMT

Operating Activities

Mortgage Loan Production Activities

The Company sells newly originated loans to PMT under a mortgage loan purchase agreement. The Company has typically utilized the mortgage loan purchase agreement for the purpose of selling to PMT conforming balance non-government insured or guaranteed loans, as well as prime jumbo residential mortgage loans. The Company also purchases newly originated loans from PMT and provides fulfillment services to PMT relating to its loan production activities.

MSR Recapture

Through June 30, 2020, pursuant to the terms of an MSR recapture agreement by and between the Company and PMT, if the Company refinanced mortgage loans for which PMT previously held the MSRs, the Company was generally required to transfer and convey to PMT cash in an amount equal to 30% of the fair market value of the MSRs related to all such mortgage loans. On June 30, 2020, the MSR recapture agreement was amended and restated for a term of five years (the “2020 MSR Recapture Agreement”).

Effective July 1, 2020, the 2020 MSR Recapture agreement changes the recapture fee payable by the Company to a tiered amount equal to:

- 40% of the fair market value of the MSRs relating to the recaptured loans subject to the first 15% of the “recapture rate”;
- 35% of the fair market value of the MSRs relating to the recaptured loans subject to the “recapture rate” in excess of 15% and up to 30%; and
- 30% of the fair market value of the MSRs relating to the recaptured loans subject to the “recapture rate” in excess of 30%.

The “recapture rate” means, during each month, the ratio of (i) the aggregate UPB of all recaptured loans, to (ii) the aggregate UPB of all mortgage loans for which the Company held the MSRs and that were refinanced or otherwise paid off in such month. The Company has further agreed to allocate sufficient resources to target a recapture rate of 15%.

Fulfillment Services

The Company provides PMT with certain mortgage banking services, including fulfillment and disposition-related services, for which it receives a monthly fulfillment fee.

Through June 30, 2020, pursuant to the terms of a mortgage banking services agreement, the monthly fulfillment fee was an amount equal to:

- no greater than the product of (i) 0.35% and (ii) the aggregate initial UPB (the “Initial UPB”) of all mortgage loans purchased in such month, plus
- in the case of all mortgage loans other than those sold to or securitized through Fannie Mae or Freddie Mac, no greater than the product of (i) 0.50% and (ii) the aggregate Initial UPB of all such mortgage loans sold and securitized in such month; provided, however, that no fulfillment fee was due or payable to the Company with respect to any mortgage loans underwritten to the Ginnie Mae MBS Guide.

Effective July 1, 2020, the fulfillment fees were revised as follows:

Fulfillment fees shall not exceed the following:

- the number of loan commitments multiplied by a pull-through factor of either .99 or .80 depending on whether the loan commitments are subject to a “mandatory trade confirmation” or a “best efforts lock confirmation”, respectively, and then multiplied by \$585 for each pull-through adjusted loan commitment up to and including 16,500 per quarter and \$355 for each pull-through adjusted loan commitment in excess of 16,500 per quarter, plus
- \$315 multiplied by the number of purchased loans up to and including 16,500 per quarter and \$195 multiplied by the number of purchased loans in excess of 16,500 per quarter, plus
- \$750 multiplied by the number of all purchased loans that are sold or securitized to parties other than Fannie Mae and Freddie Mac; provided however, that no fulfillment fee shall be due or payable to PLS with respect to any Ginnie Mae loans, and as of October 1, 2022, certain Fannie Mae or Freddie Mac loans acquired by PLS.

Sourcing Fees

PMT does not hold the Ginnie Mae approval required to issue Ginnie Mae MBS and act as a servicer.

Accordingly, under the agreement, the Company purchases mortgage loans underwritten in accordance with the Ginnie Mae MBS Guide “as is” and without recourse of any kind from PMT at PMT’s cost less an administrative fee plus accrued interest and, through June 30, 2020, a sourcing fee ranging from two to three and one-half basis points, generally based on the average number of calendar days mortgage loans are held by PMT before being purchased by the Company. Effective July 1, 2020, sourcing fee rates were revised to range from one to two basis points of the UPB, generally based on the average number of calendar days the loans are held by PMT before purchase by PLS. The Company may also acquire conventional loans from PMT on the same terms upon mutual agreement between PMT and the Company.

While the Company purchases these mortgage loans “as is” and without recourse of any kind from PMT, where the Company has a claim for repurchase, indemnity or otherwise against a correspondent seller, it is entitled, at its sole expense, to pursue any such claim through or in the name of PMT.

Following is a summary of loan production activities, including MSR recapture, between the Company and PMT:

	Year ended December 31,		
	2022	2021 (in thousands)	2020
Net (losses) gains on loans held for sale at fair value:			
Net (losses) gains on loans held for sale to PMT (primarily cash)	\$ (2,820)	\$ —	\$ 81,295
Mortgage servicing rights and excess servicing spread recapture incurred	(13,744)	(51,473)	(30,614)
	<u>\$ (16,564)</u>	<u>\$ (51,473)</u>	<u>\$ 50,681</u>
Sale of loans held for sale to PMT	\$ 298,862	\$ —	\$ 2,248,896
Tax service fees earned from PMT included in <i>Loan origination fees</i>	\$ 8,418	\$ 26,126	\$ 23,408
Fulfillment fee revenue	\$ 67,991	\$ 178,927	\$ 222,200
Unpaid principal balance of loans fulfilled for PMT subject to fulfillment fees	\$ 37,090,031	\$ 110,003,574	\$ 100,389,252
Sourcing fees included in cost of loans purchased from PMT	\$ 4,968	\$ 6,472	\$ 11,037
Unpaid principal balance of loans purchased from PMT	\$ 49,680,267	\$ 64,774,728	\$ 60,540,530

Loan Servicing

The Company and PMT have entered into a loan servicing agreement (the “Servicing Agreement”), pursuant to which the Company provides subservicing for PMT’s portfolio of MSRs, loans at fair value other than special servicing loans and loans held for sale (prime servicing) and its portfolio of residential mortgage loans purchased with credit deterioration (special servicing). The Servicing Agreement provides for servicing fees of per-loan monthly amounts based on the delinquency, bankruptcy and/or foreclosure status of the serviced loan or REO. The Company also remains entitled to customary ancillary income and market-based fees and charges relating to loans it services for PMT.

Prime Servicing

- The base servicing fees for prime servicing loans are calculated through a monthly per-loan dollar amount, with the actual dollar amount for each loan based on whether the loan is a fixed-rate or adjustable-rate loan. The base servicing fee rates are \$7.50 per month for fixed-rate loans and \$8.50 per month for adjustable-rate loans.
- To the extent that prime servicing loans become delinquent, the Company receives an additional servicing fee per loan ranging from \$10 to \$55 per month based on the delinquency, bankruptcy and foreclosure status of the loan or \$75 per month if the underlying mortgaged property becomes REO.
- The Company is entitled to customary ancillary income and certain market-based fees and charges, including boarding and deboarding fees, liquidation and disposition fees, assumption, modification, origination fees and a percentage of late charges.
- Effective July 1, 2020, the Company receives certain fees for COVID-19 pandemic-related forbearance and modification activities provided for under the Coronavirus Aid, Relief and Economic Security Act (“CARES Act”).

Special Servicing

- The base servicing fee rates for distressed loans range from \$30 per month for current loans up to \$95 per month for loans in foreclosure proceedings. The base servicing fee rate for REO is \$75 per month. The Company also receives a supplemental servicing fee of \$25 per month for each distressed loan.
- The Company receives activity-based fees for modifications, foreclosures and liquidations that it facilitates with respect to special servicing loans, as well as other market-based refinancing and loan disposition fees. The Company may also receive REO rental fees, property lease renewal fees, property management fees, tenant paid application fees, late rent fees, and third-party vendor fees associated with its management of REO.

Following is a summary of loan servicing fees earned from PMT:

Loan type serviced	Year ended December 31,		
	2022	2021	2020
(in thousands)			
Loans acquired for sale	\$ 1,018	\$ 2,363	\$ 2,067
Loans at fair value	529	505	807
Mortgage servicing rights	80,368	77,790	64,307
	<u>\$ 81,915</u>	<u>\$ 80,658</u>	<u>\$ 67,181</u>

The Servicing Agreement expires on June 30, 2025.

Investment Management Activities

The Company has a management agreement with PMT (“Management Agreement”), pursuant to which the Company oversees PMT’s business affairs in conformity with the investment policies that are approved and monitored by its board of trustees, for which PFSI collects a base management fee and may collect a performance incentive fee. The Management Agreement provides that:

- The base management fee is calculated quarterly and is equal to the sum of (i) 1.5% per year of PMT’s average shareholders’ equity up to \$2 billion, (ii) 1.375% per year of PMT’s average shareholders’ equity in excess of \$2 billion and up to \$5 billion, and (iii) 1.25% per year of PMT’s average shareholders’ equity in excess of \$5 billion.
- The performance incentive fee is calculated quarterly at a defined annualized percentage of the amount by which PMT’s “net income,” on a rolling four-quarter basis and before deducting the incentive fee, exceeds certain levels of return on “equity.”

The performance incentive fee is equal to the sum of: (a) 10% of the amount by which PMT’s “net income” for the quarter exceeds (i) an 8% return on “equity” plus the “high watermark,” up to (ii) a 12% return on PMT’s “equity”; plus (b) 15% of the amount by which PMT’s “net income” for the quarter exceeds (i) a 12% return on PMT’s “equity” plus the “high watermark,” up to (ii) a 16% return on PMT’s “equity”; plus (c) 20% of the amount by which PMT’s “net income” for the quarter exceeds a 16% return on “equity” plus the “high watermark.”

For the purpose of determining the amount of the performance incentive fee:

“Net income” is defined as net income or loss attributable to PMT’s common shares of beneficial interest computed in accordance with GAAP adjusted for certain other non-cash charges determined after discussions between the Company and PMT’s independent trustees and approval by a majority of PMT’s independent trustees.

“Equity” is the weighted average of the issue price per common share of all of PMT’s public offerings, multiplied by the weighted average number of common shares outstanding (including restricted share units) in the rolling four-quarter period.

The “high watermark” is the quarterly adjustment that reflects the amount by which the “net income” (stated as a percentage of return on “equity”) in that quarter exceeds or falls short of the lesser of 8% and the average Fannie Mae 30-year MBS yield (the “Target Yield”) for the four quarters then ended. If the “net income” is less than the Target Yield, the high watermark is increased by the difference. If the “net income” is more than the Target Yield, the high watermark is reduced by the difference. Each time a performance incentive fee is earned, the high watermark returns to zero. As a result, the threshold amounts required for the Company to earn a performance incentive fee are adjusted cumulatively based on the performance of PMT’s “net income” over (or under) the Target Yield, until the “net income” in excess of the Target Yield exceeds the then-current cumulative high watermark amount, and a performance incentive fee is earned.

The base management fee and the performance incentive fee are both receivable quarterly in arrears. The performance incentive fee may be paid in cash or a combination of cash and PMT’s common shares (subject to a limit of no more than 50% paid in common shares), at PMT’s option.

In the event of termination of the Management Agreement between PMT and the Company, the Company may be entitled to a termination fee in certain circumstances. The termination fee is equal to three times the sum of (a) the average annual base management fee, and (b) the average annual performance incentive fee earned by the Company, in each case during the 24-month period immediately preceding the date of termination.

Following is a summary of the base management and performance incentive fees earned from PMT:

	Year ended December 31,		
	2022	2021	2020
Base management	\$ 31,065	\$ 34,794	\$ 34,538
Performance incentive	—	3,007	—
	<u>\$ 31,065</u>	<u>\$ 37,801</u>	<u>\$ 34,538</u>

Expense Reimbursement

Under the Management Agreement, PMT reimburses the Company for its organizational and operating expenses, including third-party expenses, incurred on PMT's behalf, it being understood that the Company and its affiliates shall allocate a portion of their personnel's time to provide certain legal, tax and investor relations services for the direct benefit of PMT. With respect to the allocation of the Company's and its affiliates' personnel compensation, the Company was reimbursed \$120,000 per fiscal quarter through June 30, 2020.

On June 30, 2020, the Management Agreement was amended and restated for a term of five years (the "2020 Management Agreement"). The terms of the 2020 Management Agreement are materially consistent with those of the prior management agreement, except that, effective July 1, 2020, PMT's reimbursement of PCM's and its affiliate's compensation expenses was increased from \$120,000 to \$165,000 per fiscal quarter, such amount to be reviewed annually and not preclude reimbursement for any other services performed by the Company or its affiliates.

PMT is also required to pay its pro rata portion of rent, telephone, utilities, office furniture, equipment, machinery and other office, internal and overhead expenses of the Company and its affiliates required for PMT's and its subsidiaries' operations. These expenses are allocated based on the ratio of PMT's proportion of gross assets compared to all remaining gross assets managed or owned by the Company and/or its affiliates as calculated at each fiscal quarter end.

The Company received reimbursements from PMT for expenses as follows:

Reimbursement of:	Year ended December 31,		
	2022	2021	2020
Expenses incurred on PMT's behalf, net	\$ 23,829	\$ 18,812	\$ 22,583
Common overhead incurred by the Company	8,588	4,906	5,172
Compensation	660	660	570
	<u>\$ 33,077</u>	<u>\$ 24,378</u>	<u>\$ 28,325</u>
Payments and settlements during the year (1)	<u>\$ 144,012</u>	<u>\$ 284,381</u>	<u>\$ 378,162</u>

- (1) Payments and settlements include payments for the operating, investing and financing activities summarized in this note and netting settlements made pursuant to master netting agreements between the Company and PMT.

Investing Activities

Master Repurchase Agreement

The Company, through PLS, has a master repurchase agreement with one of PMT's wholly-owned subsidiaries, PennyMac Holdings, LLC ("PMH") (the "PMH Repurchase Agreement"), pursuant to which PMH may borrow from the Company for the purpose of financing PMH's participation certificates representing beneficial ownership in ESS under the Spread Acquisition Agreement. PLS then re-pledges such participation certificates to PNMAC GMSR ISSUER TRUST (the "Issuer Trust") under a master repurchase agreement by and among PLS, the Issuer Trust and PNMAC, as guarantor (the "PC Repurchase Agreement"). The Issuer Trust was formed for the purpose of allowing PLS to finance MSRs and ESS relating to such MSRs (the "GNMA MSR Facility").

In the first quarter of 2021, PLS repurchased the ESS from PMH at fair market value, effectively terminating the borrowing arrangements allowing PMH to finance its participation certificates representing beneficial ownership in ESS. Such ESS is now included in PLS's participation certificates representing beneficial ownership in ESS and MSRs, which PLS pledges in connection with the GNMA MSR Facility.

The Company holds an investment in PMT in the form of 75,000 common shares of beneficial interest.

Following is a summary of investing activities between the Company and PMT:

	Year ended December 31,		
	2022	2021	2020
	(in thousands)		
Assets purchased from PennyMac Mortgage Investment Trust under agreements to resell pledged to creditors:

Balance at end of year:			
Fair value	\$ 929	\$ 1,300	
Number of shares	75	75	

Financing Activities

Spread Acquisition and MSR Servicing Agreements

The Company has an amended and restated a master spread acquisition and MSR servicing agreement with PMT (the "Spread Acquisition Agreement"), pursuant to which the Company may sell to PMT, from time to time, the right to receive participation certificates representing beneficial ownership in ESS arising from Ginnie Mae MSRs acquired by the Company, in which case the Company generally would be required to service or subservice the related mortgage loans for Ginnie Mae. The primary purpose of the amendment and restatement was to facilitate the continued financing of the ESS owned by PMT in connection with the parties' participation in the GNMA MSR Facility.

To the extent the Company refinances any of the mortgage loans relating to the ESS it has acquired, the Spread Acquisition Agreement also contains recapture provisions requiring that the Company transfer to PMT, at no cost, the ESS relating to a certain percentage of the UPB of the newly originated mortgage loans. However, under the Spread Acquisition Agreement, in any month where the transferred ESS relating to newly originated Ginnie Mae mortgage loans is not equivalent to at least 90% of the product of the excess servicing fee rate and the UPB of the refinanced mortgage loans, the Company is also required to transfer additional ESS or cash in the amount of such shortfall. Similarly, in any month where the transferred ESS relating to modified Ginnie Mae mortgage loans is not equivalent to at least 90% of the product of the excess servicing fee rate and the UPB of the modified mortgage loans, the Spread Acquisition Agreement contains provisions that require the Company to transfer additional ESS or cash in the amount of such shortfall. To the extent the fair market value of the aggregate ESS to be transferred for the applicable month is less than \$200,000, the Company may, at its option, pay cash to PMT in an amount equal to such fair market value in lieu of transferring such ESS.

During the quarter ended March 31, 2021, the Company repaid its outstanding ESS financing through the repurchase of the ESS from PMT.

Following is a summary of financing activities between the Company and PMT:

	Year ended December 31,	
	2021	2020
	(in thousands)	
Excess servicing spread financing:		
Balance at beginning of year	\$ 131,750	\$ 178,586

Other	3,560	15,953
	<u>\$ 205,011</u>	<u>\$ 228,019</u>

Exchanged Private National Mortgage Acceptance Company, LLC Unitholders

On May 8, 2013, as part of a reorganization of PNMAC, the Company entered into a tax receivable agreement with certain former owners of PNMAC that provides for the payment from time to time by the Company to PNMAC's exchanged unitholders of an amount equal to 85% of the amount of the net tax benefits, if any, that the Company is deemed to realize as a result of (i) increases in tax basis of PNMAC's assets resulting from exchanges of ownership interests in PNMAC and (ii) certain other tax benefits related to entering into the tax receivable agreement, including tax benefits attributable to payments under the tax receivable agreement.

Although a reorganization in November 2018 eliminated the potential for unitholders to exchange any additional units subject to this tax receivable agreement, the Company continues to be subject to the agreement and will be required to make payments, to the extent any of the tax benefits specified above are deemed to be realized, under the tax receivable agreement to those certain prior owners of PNMAC who effected exchanges of ownership interests in PNMAC for the Company's common stock before the closing of the reorganization.

Following is a summary of activity in *Payable to exchanged Private National Mortgage Acceptance Company, LLC unitholders under tax receivable agreement*:

Balance at end of year	\$ 26,099	\$ 30,530	\$ 35,165

Townsgate Closing Services LLC

On December 27, 2022, the Company advanced \$801,000 to one of its joint ventures, Townsgate Closing Services, LLC, under a revolving loan agreement. The revolving agreement has a maximum commitment amount of \$1.5 million, matures on December 27, 2027 and earns interest, initially 10.75% per year, subject to semi-annual adjustment indexed to the 10+ year USD High Yield Corporate Bond Index as determined by Tradeweb/Bloomberg. The outstanding balance is included in *Other* assets on the Company's consolidated balance sheet.

Donor Advised Fund

During the years ended December 31, 2021 and 2020, the Company contributed \$5.8 million and \$2.3 million, respectively, to a donor advised fund for the purpose of making charitable contributions. No such contributions were made during the year ended December 31, 2022.

Note 5—Loan Sales and Servicing Activities

The Company originates or purchases and sells mortgage loans in the secondary mortgage market without recourse for credit losses. However, the Company maintains continuing involvement with the loans in the form of servicing arrangements and the liability for representations and warranties it makes to purchasers and insurers of the loans.

The following table summarizes cash flows between the Company and transferees as a result of the sale of loans in transactions where the Company maintains continuing involvement as servicer with the loans as servicer:

	Year ended December 31,		
	2022	2021	2020
	(in thousands)		
Cash flows:			
Sales proceeds	\$ 84,345,379	\$ 154,450,942	\$ 102,840,312
Servicing fees received	\$ 931,315	\$ 840,104	\$ 678,142

The following table summarizes the UPB of the loans sold by the Company in which it maintains continuing involvement:

	December 31,	
	2022	2021
	(in thousands)	
Unpaid principal balance of loans outstanding	\$ 295,032,674	\$ 254,524,015

The Company earns placement fees on certain of the custodial funds it manages on behalf of the loans' borrowers and investors. Placement fees are included in *Interest income* in the Company's consolidated statements of income.

Following is a summary of the geographical distribution of loans included in the Company's servicing portfolio for the top five and all other states as measured by UPB:

State	December 31,	
	2022	2021
	(in thousands)	
California	\$ 68,542,279	\$ 67,317,935
Florida	50,873,961	45,222,233
Texas	47,911,696	42,064,686
Virginia	33,478,151	31,442,370
Maryland	25,473,417	23,922,075
All other states	325,395,178	299,738,982
	551,674,682	509,708,281

Note 6—Fair Value

Most of the Company's assets and certain of its liabilities are measured at or based on their fair values. The application of fair value may be on a recurring or nonrecurring basis depending on the accounting principles applicable to the specific asset or liability and whether the Company has elected to carry the item at its fair value as discussed in the following paragraphs.

Fair Value Accounting Elections

The Company identified its MSRs, its MSLs and all of its non-cash financial assets, to be accounted for at fair value so changes in fair value will be reflected in income as they occur and more timely reflect the results of the Company's performance. The Company has also identified its ESS financing to be accounted for at fair value as a means of hedging the related MSRs' fair value risk.

Assets and Liabilities Measured at Fair Value on a Recurring Basis

Following is a summary of assets and liabilities that are measured at fair value on a recurring basis:

	December 31, 2022			
	Level 1	Level 2	Level 3	Total
	(in thousands)

Current through 89 days delinquent	\$ 3,450,578	\$ 3,428,052	\$ 22,526	\$ 9,577,398	\$ 9,263,242	\$ 314,156
90 days or more delinquent:						
Not in foreclosure	47,252	53,351	(6,099)	153,162	153,875	(713)
In foreclosure	11,470	16,811	(5,341)	11,923	13,649	(1,726)
	<u>\$ 3,509,300</u>	<u>\$ 3,498,214</u>	<u>\$ 11,086</u>	<u>\$ 9,742,483</u>	<u>\$ 9,430,766</u>	<u>\$ 311,717</u>

Assets Measured at Fair Value on a Nonrecurring Basis

Following is a summary of assets held at year end that were measured based on fair value on a nonrecurring basis during the year:

Real estate acquired in settlement of loans	Level 1	Level 2 (in thousands)	Level 3	Total
December 31, 2022	\$ —	\$ —	\$ 1,850	\$ 1,850
December 31, 2021	\$ —	\$ —	\$ 2,588	\$ 2,588

The following table summarizes the total net losses recognized on assets measured based on fair values on a nonrecurring basis during the year:

	Year ended December 31,		
	2022	2021	2020
	(in thousands)		
Real estate acquired in settlement of loans	\$ 523	\$ 799	\$ 814

Fair Value of Financial Instruments Carried at Amortized Cost

The Company's *Assets sold under agreements to repurchase, Mortgage loan participation purchase and sale agreements, Notes payable secured by mortgage servicing assets, Unsecured senior notes and Obligations under capital lease* are carried at amortized cost.

These assets and liabilities are classified as "Level 3" fair value items due to the Company's reliance on unobservable inputs to estimate their fair values. The Company has concluded that the fair values of these liabilities other than the *Notes payable secured by mortgage servicing assets* and the *Unsecured senior notes* approximate their carrying values due to their short terms and/or variable interest rates.

The Company estimates the fair value of the Term Notes and the *Unsecured senior notes* based on non-affiliate broker indications of fair value. The fair value and carrying value of these notes are summarized below:

	December 31, 2022		December 31, 2021	
	Fair value	Carrying value	Fair value	Carrying value
	(in thousands)			
Term Notes	\$ 1,677,476	\$ 1,794,475	\$ 1,302,640	\$ 1,297,622
Unsecured senior notes	\$ 1,550,750	\$ 1,779,920	\$ 1,790,375	\$ 1,776,219

Valuation Governance

Most of the Company's financial assets, and all of its derivatives, MSRs, ESS, and MSLs, are carried at fair value with changes in fair value recognized in current period income. Certain of the Company's financial assets and derivatives and all of its MSRs, ESS, and MSLs are "Level 3" fair value assets and liabilities which require use of unobservable inputs that are significant to the estimation of the items' fair values. Unobservable inputs reflect the Company's own judgments about the factors that market participants use in pricing an asset or liability, and are based on the best information available under the circumstances.

Due to the difficulty in estimating the fair values of "Level 3" fair value assets and liabilities, the Company has assigned responsibility for estimating the fair value of these assets and liabilities to specialized staff and subjects the valuation process to significant senior management oversight:

- The Company's Financial Analysis and Valuation group (the "FAV group") is responsible for estimating the fair values of "Level 3" fair value assets and liabilities other than IRLCs and maintaining its valuation policies and procedures.
- The Company's Capital Markets Risk Management staff develops the fair value of the Company's IRLCs which is reviewed by its Capital Markets Operations group.

With respect to the non-IRLC “Level 3” valuations, the FAV group reports to the Company’s senior management valuation committee, which oversees the valuations. The FAV group monitors the models used for valuation of the Company’s “Level 3” fair value assets and liabilities, including the models’ performance versus actual results, and reports those results as well as changes in the valuation of the non-IRLC “Level 3” fair value assets and liabilities, including major factors affecting the valuation and any changes in model methods and inputs, to the Company’s senior management valuation committee. To assess the reasonableness of its valuations, the FAV group presents an analysis of the effect on the valuation of changes to the significant inputs to the models and for MSRs, comparisons of its estimates of fair value to those procured from non-affiliate brokers and comparisons of the key inputs used in the Company’s valuation model to published surveys.

The Company’s senior management valuation committee includes the Company’s chief financial, risk, credit and deputy chief investment officers as well as other senior members of the Company’s finance, capital markets and risk management staff.

Valuation Techniques and Inputs

Following is a description of the techniques and inputs used in estimating the fair values of “Level 2” and “Level 3” fair value assets and liabilities:

Loans Held for Sale

Most of the Company’s loans held for sale at fair value are saleable into active markets and are therefore categorized as “Level 2” fair value assets. The fair values of “Level 2” fair value loans are determined using their contracted selling price or quoted market price or market price equivalent.

Certain of the Company’s loans held for sale are not saleable into active markets and are therefore categorized as “Level 3” fair value assets. Loans held for sale categorized as “Level 3” fair value assets include:

- Government guaranteed or insured loans purchased by the Company from Ginnie Mae guaranteed pools in its loan servicing portfolio. The Company’s right to purchase government guaranteed or insured loans arises as the result of the loan being at least three months delinquent on the date of purchase by the Company and provides an alternative to the Company’s obligation to continue advancing principal and interest at the coupon rate of the related Ginnie Mae security. Such loans may be resold to investors and thereafter may be repurchased to the extent eligible for resale into a new Ginnie Mae guaranteed security.

Loans become eligible for resale into a new Ginnie Mae security when the loans become current either through completion of a modification of the loan’s terms or otherwise after three months of timely payments and when the issuance date of the new security is at least 120 days after the date the loan was last delinquent.

- Loans that are not saleable into active markets due to identification of a defect by the Company or to the repurchase by the Company of a loan with an identified defect.
- Home equity loans. At present, there is no active market with observable inputs that are significant to the estimation of fair value of the home equity loans the Company produces.

The Company uses a discounted cash flow model to estimate the fair value of its “Level 3” fair value loans held for sale. The significant unobservable inputs used in the fair value measurement of the Company’s “Level 3” fair value loans held for sale are discount rates, home price projections, voluntary and total prepayment/resale speeds. Significant changes in any of those inputs in isolation could result in a significant change to the loans’ fair value measurement. Increases in home price projections are generally accompanied by an increase in voluntary prepayment speeds.

Following is a quantitative summary of key “Level 3” fair value inputs used in the valuation of loans held for sale at fair value:

	December 31,	
	2022	2021
Fair value (in thousands)	\$ 345,772	\$ 1,128,876
Key inputs (1):		
Discount rate:		
Range	5.5% – 10.2%	2.2% – 9.2%
Weighted average	5.7%	2.3%
Twelve-month projected housing price index change:		
Range	(1.9)% – (1.7)%	6.1% – 6.5%
Weighted average	(1.8)%	6.2%
Voluntary prepayment/resale speed (2):		
Range	4.7% – 25.6%	0.4% – 30.3%
Weighted average	21.6%	22.0%
Total prepayment/resale speed (3):		
Range	4.8% – 36.1%	0.4% – 39.3%
Weighted average	29.4%	28.2%

- (1) Weighted average inputs are based on fair value of the “Level 3” loans.
- (2) Voluntary prepayment/resale speed is measured using Life Voluntary Conditional Prepayment Rate (“CPR”).
- (3) Total prepayment speed is measured using Life Total CPR, which includes both voluntary and involuntary prepayment/resale rates.

Changes in fair value relating to loans held for sale as the result of changes in the loan’s instrument specific credit risk are indicated by successful modifications of the loan’s terms or changes in the respective loan’s delinquency status and performance history at year end from the later of the beginning of the year or acquisition date. Changes in fair value of loans held for sale are included in *Net gains on loans held for sale at fair value* in the Company’s consolidated statements of income.

Derivative Financial Instruments

Interest Rate Lock Commitments

The Company categorizes IRLCs as “Level 3” fair value assets or liabilities. The Company estimates the fair value of IRLCs based on quoted Agency MBS prices, its estimate of the fair value of the MSRs it expects to receive in the sale of the loans and the probability that the loans will fund or be purchased (the “pull-through rate”).

The significant unobservable inputs used in the fair value measurement of the Company’s IRLCs are the pull-through rate and the MSR component of the Company’s estimate of the fair value of the mortgage loans it has committed to purchase. Significant changes in the pull-through rate or the MSR component of the IRLCs, in isolation, could result in significant changes in the IRLCs’ fair value measurement. The financial effects of changes in these inputs are generally inversely correlated as increasing interest rates have a positive effect on the MSR component of IRLC fair value, but increase the pull-through rate for the loan principal and interest payment cash flow component, which has decreased in fair value. Initial recognition and changes in fair value of IRLCs are included in *Net gains on loans acquired for sale at fair value* in the consolidated statements of income.

Following is a quantitative summary of key unobservable inputs used in the valuation of IRLCs:

	December 31,	
	2022	2021
Fair value (in thousands) (1)	\$ 25,844	\$ 322,193
Key inputs (2):		
Pull-through rate:		
Range	10.3% – 100%	8.0% – 100%
Weighted average	82.8%	78.4%
Mortgage servicing rights fair value expressed as:		
Servicing fee multiple:		
Range	(1.3) – 7.7	(8.5) – 6.7
Weighted average	4.3	3.8
Percentage of loan commitment amount		
Range	(0.2)% – 3.8%	(1.6)% – 3.6%
Weighted average	2.0%	1.5%

(1) For purposes of this table, the IRLC assets and liability positions are shown net.

(2) Weighted average inputs are based on the committed amounts.

Hedging Derivatives

Hedging derivatives that are actively traded on exchanges are categorized by the Company as “Level 1” fair value assets and liabilities. Hedging derivatives whose fair values are based on observable MBS prices or interest rate volatilities in the MBS market are categorized as “Level 2” fair value assets and liabilities.

Changes in the fair value of hedging derivatives are included in *Net gains on loans acquired for sale at fair value*, or *Net loan servicing fees – Mortgage servicing rights hedging results*, as applicable, in the consolidated statements of income.

Mortgage Servicing Rights

MSRs are categorized as “Level 3” fair value assets. The Company uses a discounted cash flow approach to estimate the fair value of MSRs. The key inputs used in the estimation of the fair value of MSRs include the applicable prepayment rate (prepayment speed), pricing spread (discount rate), and annual per-loan cost to service the underlying loans, all of which are unobservable. Significant changes to any of those inputs in isolation could result in a significant change in the MSR fair value measurement. Changes in these key inputs are not directly related. Changes in the fair value of MSRs are included in *Net loan servicing fees—Change in fair value of mortgage servicing rights and mortgage servicing liabilities* in the consolidated statements of income.

Following are the key inputs used in determining the fair value of MSRs received by the Company when it retains the obligation to service the mortgage loans it sells:

	Year ended December 31,		
	2022	2021	2020
(Amount recognized and unpaid principal balance of underlying mortgage loans amounts in thousands)			
Amount recognized	\$1,718,094	\$1,861,949	\$1,138,045
Pool characteristics:			
Unpaid principal balance of underlying loans	\$83,569,657	\$138,319,425	\$96,571,835
Weighted average servicing fee rate (in basis points)	44	34	35
Key inputs (1):			
Annual total prepayment speed (2):			
Range	5.1% – 23.4%	6.1% – 31.4%	7.2% – 49.8%
Weighted average	9.4%	8.6%	11.9%
Equivalent average life (in years):			
Range	3.7 – 9.4	3.0 – 9.2	1.5 – 9.1
Weighted average	8.1	8.1	6.7
Pricing spread (3):			
Range	5.5% – 16.1%	6.0% – 16.9%	6.8% – 18.1%
Weighted average	7.8%	8.8%	9.4%
Annual per-loan cost of servicing:			
Range	\$71 – \$177	\$80 – \$117	\$77 – \$117
Weighted average	\$104	\$103	\$102

(1) Weighted average inputs are based on UPB of the underlying loans.

- (2) Annual total prepayment speed is measured using Life Total CPR, which includes both voluntary and involuntary prepayments. Equivalent average life is provided as supplementary information.
- (3) Pricing spread represents a margin that is applied to a reference interest rate's forward rate curve to develop periodic discount rates. Effective January 1, 2022, the Company applies a pricing spread to the United States Treasury ("Treasury") Securities yield curve for purposes of discounting cash flows relating to MSRs. Through December 31, 2021, the Company applied its pricing spread to the United States Dollar London Interbank Offered Rate ("LIBOR")/swap curve. The change in reference interest rate from the LIBOR/swap curve to the Treasury yield curve did not have a significant effect on the Company's fair value measurement of MSRs.

Following is a quantitative summary of key inputs used in the valuation of the Company's MSRs at year end and the effect on the fair value from adverse changes in those inputs:

	December 31,	
	2022	2021
(Fair value, unpaid principal balance of underlying mortgage loans and effect on fair value amounts in thousands)		
Fair value	\$ 5,953,621	\$ 3,878,078
Pool characteristics:		
Unpaid principal balance of underlying loans	\$ 314,567,639	\$ 278,324,780
Weighted average note interest rate	3.4%	3.2%
Weighted average servicing fee rate (in basis points)	36	34
Key inputs (1):		
Annual total prepayment speed (2):		
Range	5.0% – 17.7%	7.9% – 26.7%
Weighted average	7.5%	10.7%
Equivalent average life (in years):		
Range	3.7 – 9.3	3.1 – 7.7
Weighted average	8.4	6.8
Effect on fair value of (3):		
5% adverse change	(\$77,346)	(\$80,109)
10% adverse change	(\$152,192)	(\$157,252)
20% adverse change	(\$294,872)	(\$303,259)
Pricing spread (4):		
Range	4.9% – 14.3%	5.3% – 15.5%
Weighted average	6.5%	7.7%
Effect on fair value of (3):		
5% adverse change	(\$81,021)	(\$59,577)
10% adverse change	(\$159,863)	(\$117,352)
20% adverse change	(\$311,329)	(\$227,791)
Per-loan annual cost of servicing:		
Range	\$68 – \$144	\$79 – \$197
Weighted average	\$109	\$108
Effect on fair value of (3):		
5% adverse change	(\$41,263)	(\$32,979)
10% adverse change	(\$82,527)	(\$65,958)
20% adverse change	(\$165,053)	(\$131,916)

(1) Weighted average inputs are based on UPB of the underlying loans.

- (2) Annual total prepayment speed is measured using Life Total CPR, which includes both voluntary and involuntary prepayments. Equivalent average life is provided as supplementary information.
- (3) These sensitivity analyses are limited in that they were performed as of a particular date; only contemplate the movements in the indicated inputs; do not incorporate changes to other inputs; are subject to the accuracy of the models and inputs used; and do not incorporate other factors that would affect the Company's overall financial performance in such events, including operational adjustments made to account for changing circumstances. For these reasons, these estimates should not be viewed as earnings forecasts.
- (4) Effective January 1, 2022, the Company applies a pricing spread to the Treasury yield curve for purposes of discounting cash flows relating to MSRs. Through December 31, 2021, the Company applied its pricing spread to the United States Dollar LIBOR/swap curve. The change in reference interest rate from the LIBOR/swap curve to the Treasury yield curve did not have a significant effect on the Company's fair value measurement of MSRs.

Excess Servicing Spread Financing at Fair Value

ESS is categorized as a “Level 3” fair value liability. Because ESS is a claim to a portion of the cash flows from MSRs, the Company’s approach to fair value measurement of ESS is similar to that of MSRs. The Company uses the same discounted cash flow approach to measuring ESS as it uses to measure MSRs except that certain inputs relating to the cost to service the mortgage loans underlying the MSRs and certain ancillary income are not included as these cash flows do not accrue to the holder of ESS.

The key inputs used in the estimation of ESS fair value include pricing spread (discount rate) and prepayment speed. Significant changes to either of those inputs in isolation could result in a significant change in the fair value of ESS. Changes in these key inputs are not necessarily directly related.

ESS is generally subject to fair value increases when mortgage interest rates increase. Increasing mortgage interest rates normally discourage mortgage refinancing activity. Decreased refinancing activity increases the life of the mortgage loans underlying the ESS, thereby increasing its fair value. Changes in the fair value of ESS are included in *Net loan servicing fees—Change in fair value of excess servicing spread payable to PennyMac Mortgage Investment Trust*. During the quarter ended March 31, 2021, the Company repaid its outstanding ESS financing payable to PMT.

Mortgage Servicing Liabilities

MSLs are categorized as “Level 3” fair value liabilities. The Company uses a discounted cash flow approach to estimate the fair value of MSLs. The key inputs used in the estimation of the fair value of MSLs include the applicable pricing spread, annual total prepayment speed, and the per-loan annual cost of servicing the underlying loans. Changes in the fair value of MSLs are included in *Net servicing fees—Change in fair value of mortgage servicing rights and mortgage servicing liabilities* in the consolidated statements of income.

Following are the key inputs used in determining the fair value of MSLs:

	December 31,	
	2022	2021
Fair value (in thousands)	\$ 2,096	\$ 2,816
Pool characteristics:		
Unpaid principal balance of underlying loans (in thousands)	\$ 33,157	\$ 60,593
Servicing fee rate (in basis points)	25	25
Key inputs (1):		
Annual total prepayment speed (2)	17.2%	19.8%
Equivalent average life (in years)	4.9	4.1
Pricing spread (3)	7.8%	6.9%
Per-loan annual cost of servicing	\$ 1,177	\$ 1,406

(1) Weighted average inputs are based on UPB of the underlying mortgage loans.

(2) Annual total prepayment speed is measured using Life Total CPR, which includes both voluntary and involuntary prepayments. Equivalent average life is provided as supplementary information.

(3) Effective January 1, 2022, the Company applies a pricing spread to the Treasury yield curve for purposes of discounting cash flows relating to MSLs. Through December 31, 2021, the Company applied its pricing spread to the United States Dollar London LIBOR/swap curve. The change in reference interest rate from the LIBOR/swap curve to the Treasury yield curve did not have a significant effect on the Company’s fair value measurement of MSLs.

Note 7—Loans Held for Sale at Fair Value

Loans held for sale at fair value are summarized below:

Loan type	December 31,	
	2022	2021
	(in thousands)	
Government-insured or guaranteed	\$ 2,006,157	\$ 6,030,518
Conventional conforming	1,145,053	2,583,089
Jumbo	12,318	—
Home equity loans	46,589	—
Purchased from Ginnie Mae securities serviced by the Company	257,175	1,082,444
Repurchased pursuant to representations and warranties	42,008	46,432
	<u>\$ 3,509,300</u>	<u>\$ 9,742,483</u>
Fair value of loans pledged to secure:		
Assets sold under agreements to repurchase	\$ 3,139,870	\$ 8,629,861
Mortgage loan participation purchase and sale agreements	302,977	505,716
	<u>\$ 3,442,847</u>	<u>\$ 9,135,577</u>

Note 8—Derivative Activities

Derivative Notional Amounts and Fair Value of Derivatives

The Company had the following derivative financial instruments recorded on its consolidated balance sheets:

Derivative instrument	December 31, 2022			December 31, 2021		
	Notional amount (1)	Fair value		Notional amount (1)	Fair value	
		Derivative assets	Derivative liabilities		Derivative assets	Derivative liabilities
(in thousands)						
Not subject to master netting arrangements:						
Interest rate lock commitments	7,009,119	\$ 36,728	\$ 10,884	14,111,795	\$ 323,473	\$ 1,280
Subject to master netting arrangements (2):						
Forward purchase contracts	8,320,849	2,433	48,670	22,007,383	20,485	18,007
Forward sales contracts	12,487,760	80,754	20,684	34,429,676	40,215	35,415
MBS put options	1,750,000	6,057	—	9,550,000	7,655	—
Swaption purchase contracts	—	—	—	5,375,000	1,625	—
Put options on interest rate futures purchase contracts	6,800,000	29,203	—	2,450,000	3,141	—
Call options on interest rate futures purchase contracts	1,350,000	2,820	—	1,250,000	2,078	—
Put options on interest rate futures sale contracts	250,000	—	3,008	—	—	—
Treasury futures purchase contracts	3,709,200	—	—	1,544,800	—	—
Treasury futures sale contracts	3,456,900	—	—	1,925,000	—	—
Interest rate swap futures purchase contracts	—	—	—	3,010,600	—	—
Interest rate swap futures sale contracts	—	—	—	2,187,200	—	—
Total derivatives before netting		157,995	83,246		398,672	54,702
Netting		(58,992)	(61,534)		(64,977)	(32,096)
		<u>\$ 99,003</u>	<u>\$ 21,712</u>		<u>\$ 333,695</u>	<u>\$ 22,606</u>
Deposits placed with (received from) derivative counterparties included in the derivative balances above, net		\$ 2,542			\$ (32,881)	

(1) Notional amounts provide an indication of the volume of the Company's derivative activity.

(2) All of the derivatives used for hedging purposes are interest rate derivatives and are used as economic hedges.

Derivative Assets, Financial Instruments, and Cash Collateral Held by Counterparty

The following table summarizes by significant counterparty the amount of derivative asset positions after considering master netting arrangements and financial instruments or cash pledged that do not meet the accounting guidance qualifying for netting.

	December 31, 2022				December 31, 2021			
	Net amount of assets in the consolidated balance sheet	Gross amount not offset in the consolidated balance sheet			Net amount of assets in the consolidated balance sheet (in thousands)	Gross amount not offset in the consolidated balance sheet		
		Financial instruments	Cash collateral received	Net amount		Financial instruments	Cash collateral received	Net amount
Interest rate lock commitments	\$ 36,728	\$ —	\$ —	\$ 36,728	\$ 323,473	\$ —	\$ —	\$ 323,473

Others	1,731	—	—	1,731	2,642	—	—	2,642
	<u>\$ 3,026,402</u>	<u>\$ (3,004,690)</u>	<u>\$ —</u>	<u>\$ 21,712</u>	<u>\$ 7,319,966</u>	<u>\$ (7,297,360)</u>	<u>\$ —</u>	<u>\$ 22,606</u>

(1) Amounts represent the UPB of *Assets sold under agreements to repurchase*.

Following are the gains (losses) recognized by the Company on derivative financial instruments and the income statement line items where such gains and losses are included:

Derivative activity	Consolidated income statement line	Year ended December 31,		
		2022	2021	2020
		(in thousands)		
Interest rate lock commitments	Net gains on loans held for sale at fair value (1)	\$ (296,349)	\$ (354,833)	\$ 540,376
Repurchase agreement derivatives	Interest expense	\$ —	\$ —	\$ 83
Hedged item:				
Interest rate lock commitments and loans held for sale	Net gains on loans held for sale at fair value	\$ 1,326,964	\$ 319,141	\$ (650,898)
Mortgage servicing rights	Net loan servicing fees— Mortgage servicing rights hedging results	\$ (631,484)	\$ (475,215)	\$ 918,180

(1) Represents net change in fair value of IRLCs from the beginning to the end of the year. Amounts recognized at the date of commitment and fair value changes recognized during the period until purchase of the underlying loans are shown in the rollforward of IRLCs for the year in Note 6 – *Fair Value – Assets and Liabilities Measured at Fair Value on a Recurring Basis*.

Note 9—Mortgage Servicing Rights and Mortgage Servicing Liabilities

Mortgage Servicing Rights Carried at Fair Value:

The activity in MSRs carried at fair value is as follows:

	Year ended December 31,		
	2022	2021 (in thousands)	2020
Balance at beginning of year	\$ 3,878,078	\$ 2,581,174	\$ 2,926,790
Additions:			
MSRs resulting from loan sales	1,718,094	1,861,949	1,138,045
Purchases	3,993	—	25,473
	<u>1,722,087</u>	<u>1,861,949</u>	<u>1,163,518</u>
Change in fair value due to:			
Changes in inputs used in valuation model (1)	877,324	(136,350)	(1,078,084)
Other changes in fair value (2)	(523,868)	(428,695)	(431,050)
Total change in fair value	<u>353,456</u>	<u>(565,045)</u>	<u>(1,509,134)</u>
Balance at end of year	<u>\$ 5,953,621</u>	<u>\$ 3,878,078</u>	<u>\$ 2,581,174</u>
Unpaid principal balance of underlying loans at end of year	\$ 314,567,639	\$ 278,324,780	\$ 238,410,809
December 31,			
	2022	2021	
Fair value of mortgage servicing rights pledged to secure <i>Assets sold under agreements to repurchase and Notes payable secured by mortgage servicing assets</i>	\$ 5,897,613	\$ 3,856,791	

(1) Principally reflects changes in pricing spread, annual total prepayment speed, per loan annual cost of servicing and UPB of underlying loan inputs.

(2) Represents changes due to realization of cash flows.

Mortgage Servicing Liabilities Carried at Fair Value:

The activity in MSLs carried at fair value is summarized below:

	Year ended December 31,		
	2022	2021 (in thousands)	2020
Balance at beginning of year	\$ 2,816	\$ 45,324	\$ 29,140
Mortgage servicing liabilities resulting from loan sales	—	106,631	23,325
Changes in fair value due to:			
Changes in inputs used in valuation model (1)	(347)	(68,020)	31,757
Other changes in fair value (2)	(373)	(81,119)	(38,898)
Total change in fair value	(720)	(149,139)	(7,141)
Balance at end of period	\$ 2,096	\$ 2,816	\$ 45,324
Unpaid principal balance of underlying loans at end of year	\$ 33,157	\$ 60,593	\$ 2,857,492

- (1) During the year ended December 31, 2021, significant changes were made to valuation inputs used to estimate the fair value of MSLs in recognition of the observed increase in the proportion of performing government insured or guaranteed loans and reduced expected costs and losses from defaulted government insured or guaranteed loans underlying the Company's MSLs.
- (2) Represents changes due to realization of cash flows.

Contractual servicing fees relating to MSRs and MSLs are recorded in *Net loan servicing fees—Loan servicing fees—From non-affiliates* on the consolidated statements of income; late charges and other ancillary fees relating to MSRs and MSLs are recorded in *Net loan servicing fees—Loan servicing fees—Other* on the Company's consolidated statements of income. Such amounts are summarized below:

	Year ended December 31,		
	2022	2021 (in thousands)	2020
Contractual servicing fees	\$ 1,054,828	\$ 875,570	\$ 814,646
Other fees:			
Late charges	40,583	29,848	36,339
Other	13,742	29,505	25,543
	<u>\$ 1,109,153</u>	<u>\$ 934,923</u>	<u>\$ 876,528</u>

Note 10—Leases

Substantially all of the Company's lease agreements are operating leases and relate to its office facilities. The Company's operating lease agreements have remaining terms ranging from less than one year to ten years; some of these operating lease agreements include options to extend their terms for up to five years. None of the Company's operating lease agreements require the Company to make variable lease payments.

The Company's leases are summarized below:

	Year ended December 31,		
	2022	2021	2020
	(dollars in thousands)		
Lease expense:			
Operating leases	\$ 19,779	\$ 18,363	\$ 16,223
Short-term leases	778	904	1,153
Sublease income	(46)	—	—
Net lease expense included in <i>Occupancy and equipment</i>	\$ 20,511	\$ 19,267	\$ 17,376
Other information:			
Payments for operating leases	\$ 23,475	\$ 20,145	\$ 16,524
<i>Operating lease right-of-use assets recognized</i>	\$ 1,364	\$ 28,401	\$ 14,128
Period end weighted averages:			
Remaining lease term (in years)	4.8	5.7	6.3
Discount rate	3.8%	4.0%	4.1%

The maturities of the Company's operating lease liabilities are summarized below:

<u>Year ended December 31,</u>	<u>Operating leases</u> <u>(in thousands)</u>
2023	\$ 24,228
2024	19,523
2025	18,645
2026	14,322
2027	6,799
Thereafter	12,039
Total lease payments	95,556
Less imputed interest	(10,006)
Operating lease liability	\$ 85,550

Note 11—Other Assets

Other assets are summarized below:

	December 31,	
	2022	2021
	(in thousands)	
Capitalized software, net	\$ 157,460	\$ 109,480

Furniture, fixtures, equipment and building improvements are summarized below:

	December 31,	
	2022	2021
	(in thousands)	
Furniture, fixtures, equipment and building improvements	\$ 82,721	\$ 75,562
Less: Accumulated depreciation and amortization	<u>(54,339)</u>	<u>(43,885)</u>
	<u>\$ 28,382</u>	<u>\$ 31,677</u>

Depreciation and amortization expenses are summarized below:

	Year ended December 31,		
	2022	2021	2020
Depreciation and amortization expenses included in <i>Occupancy and equipment</i>	\$ 10,454	\$ 8,439	\$ 8,934

Note 12—Short-Term Borrowings

The borrowing facilities described throughout these Notes 12 and 13 contain various covenants, including financial covenants governing the Company's net worth, debt-to-equity ratio and liquidity. Management believes that the Company was in compliance with these covenants as of December 31, 2022.

Assets Sold Under Agreements to Repurchase

The Company has multiple borrowing facilities in the form of asset sales under agreements to repurchase. These borrowing facilities are secured by loans held for sale at fair value or participation certificates backed by mortgage servicing assets. Eligible assets are sold at advance rates based on their fair values (as determined by the lender). Interest is charged at a rate based on the Secured Overnight Financing Rate ("SOFR"). Loans and participation certificates financed under these agreements may be re-pledged by the lenders.

Fannie Mae MSR Facility

On April 28, 2021, the Company, through its wholly-owned subsidiaries, PLS, PNMAC, and PFSI ISSUER TRUST - FMSR, entered into a structured finance transaction, allowing PLS to finance Fannie Mae MSRs and ESS (the "Fannie Mae MSR Facility"). In connection with the Fannie Mae MSR Facility, PLS pledges and/or sells to PFSI ISSUER TRUST - FMSR participation certificates representing beneficial interests in MSRs and ESS pursuant to the terms of a master repurchase agreement, dated as of April 28, 2021, by and between PLS, PFSI Issuer Trust - FMSR and PNMAC (the "FMSR PC Repurchase Agreement"). In return, PFSI ISSUER TRUST- FMSR has issued to PLS the Series 2021-MSRVF1 Note, dated April 28, 2021, known as the "PFSI ISSUER TRUST - FMSR Collateralized Notes, Series 2021-MSRVF1" (the "FMSR VFN"), and may, from time to time, issue to institutional investors term notes, in each case secured on a pari passu basis by the participation certificates relating to the MSRs (the "FMSR Term Notes"). The maximum principal balance of the FMSR VFN is \$1 billion.

Under the FMSR PC Repurchase Agreement, PLS grants to PFSI ISSUER TRUST – FMSR a security interest in all of its right, title and interest in, to and under participation certificates representing beneficial interests in MSRs and ESS, including all of its rights and interests in any MSRs and ESS it thereafter owns or acquires. The principal amount paid by PFSI ISSUER TRUST - FMSR for the participation certificates under the FMSR PC Repurchase Agreement is based upon a percentage of the market value of the underlying MSRs (inclusive of the ESS). Upon PLS's repurchase of the participation certificates, PLS is required to repay PFSI ISSUER TRUST - FMSR the principal amount relating thereto plus accrued interest (at a rate reflective of the current market and consistent with the weighted average note rate of the FMSR VFN and any outstanding term notes) to the date of such repurchase.

PLS also entered into a master repurchase agreement on April 28, 2021 (the "FMSR VFN Repurchase Agreement") with Credit Cuisse First Boston Mortgage Capital LLC ("CSFB"), as administrative agent, and Credit Suisse AG, Cayman Islands Branch ("CSCIB"), as purchaser, pursuant to which PLS sold the FMSR VFN to CSCIB with an agreement to repurchase such FMSR VFN at a later date. The FMSR VFN Repurchase Agreement has a term extending through May 31, 2024. The FMSR VFN Repurchase Agreement provides for a maximum purchase price of \$250 million, all of which is committed.

The principal amount paid by CSCIB for the FMSR VFN is based upon a percentage of the market value of such FMSR VFN. Upon PLS's repurchase of the FMSR VFN, PLS is required to repay CSCIB the principal amount relating thereto plus accrued interest (at a rate reflective of the current market based on a spread above SOFR to the date of such repurchase).

Ginnie Mae MSR Facility

The Company, through its wholly-owned subsidiaries PLS, PNMAC, and the Issuer Trust, have a structured finance transaction, in which PLS pledges and/or sells to the Issuer Trust participation certificates representing beneficial interests in MSRs and ESS pursuant to the terms of the PC Repurchase Agreement (the “GNMA MSR Facility”). In return, the Issuer Trust has issued to PLS, pursuant to the terms of an indenture, the Series 2016-MSR VF1 Variable Funding Note, known as the “PNMAC GMSR ISSUER TRUST MSR Collateralized Notes, Series 2016-MSR VF1” (the “VFN”), and has issued and may, from time to time pursuant to the terms of any supplemental indenture, issue to institutional investors additional term notes, in each case secured on a pari passu basis by the participation certificates relating to the MSRs and ESS. The maximum principal balance of the VFN is \$2 billion.

On July 30, 2021, the Company, through its wholly-owned subsidiaries PLS, PNMAC and the Issuer Trust, entered into agreements to syndicate existing variable funding note repurchase agreements as part of the Ginnie Mae MSR structured finance facility. The Company entered into an Amended and Restated Series 2016-MSR VF1 Master Repurchase Agreement by and among PLS, as seller, CSFB, as administrative agent to the buyers, CSCIB, as a buyer, Citibank, N.A., as a buyer, and PNMAC, as a guarantor (the “Syndicated GMSR Servicing Spread Agreement”), related to the servicing spread. The Syndicated GMSR Servicing Spread Agreement added Citibank as a syndicate buyer of MSRs and related ESS, and increased the borrowing capacity from \$400 to \$500 million, all of which is committed on a 50-50 *pro rata* basis between CSCIB and Citibank.

Ginnie Mae Servicing Advances

On April 1, 2020, the Company, through its wholly-owned subsidiaries PLS, PNMAC and the PNMAC GMSR ISSUER TRUST, issued a series of variable funding notes, the Series 2020-SPIADVF1 Notes (“GMSR Servicing Advance Notes”), to be sold under agreement to repurchase pursuant to a Master Repurchase Agreement, dated as of April 1, 2020, with Credit Suisse First Boston Mortgage Capital LLC, acting as administrative agent on behalf of Credit Suisse AG, Cayman Islands Branch, as buyer (the “GMSR Servicing Advances Repurchase Agreement”).

The GMSR Servicing Advances Repurchase Agreement provides the Company with financing secured by servicing advance receivables to pay, in accordance with the Ginnie Mae requirements, in the event borrowers are delinquent: (i) regularly scheduled monthly principal and interest to mortgage-backed securities holders; (ii) taxes, homeowner’s insurance, and other escrowed items; and (iii) other expenses related to servicing delinquent loans as specified by (A) state and federal laws and (B) government agencies, including the FHA, the VA, and the USDA.

On July 30, 2021, the Company, through its wholly-owned subsidiaries PLS, PNMAC and the Issuer Trust, entered into agreements to syndicate existing variable funding note repurchase agreements, as part of the Ginnie Mae servicing advance facility. The Company entered into an Amended and Restated Series 2020-SPIADVF1 Master Repurchase Agreement by and among PLS, as seller, CSFB, as administrative agent to the buyers, CSCIB, as a buyer, Citibank, as a buyer, and PNMAC, as a guarantor (the “Syndicated GMSR SAR Agreement”). The Syndicated GMSR SAR Agreement added Citibank as a syndicate buyer of servicing advances receivables and provides a \$600 million borrowing capacity, all of which is committed on a 50-50 *pro rata* basis between CSCIB and Citibank.

Assets sold under agreements to repurchase are summarized below:

	Year ended December 31,		
	2022	2021	2020
	(dollars in thousands)		
Average balance of assets sold under agreements to repurchase	\$ 2,580,513	\$ 6,911,843	\$ 3,348,928
Weighted average interest rate (1)	3.59%	2.09%	2.91%
Total interest expense	\$ 105,459	\$ 164,132	\$ 112,778
Maximum daily amount outstanding	\$ 7,289,147	\$ 10,969,029	\$ 9,663,995

	December 31,	
	2022	2021
	(dollars in thousands)	
Carrying value:		
Unpaid principal balance funded under:		
Committed facilities	\$ 2,476,073	\$ 5,079,581
Uncommitted facilities	<u>528,617</u>	<u>2,217,779</u>
	<u>3,004,690</u>	<u>7,297,360</u>
Unamortized debt issuance costs	(3,407)	(4,625)
	<u>\$ 3,001,283</u>	<u>\$ 7,292,735</u>
Weighted average interest rate	6.00%	1.83%
Available borrowing capacity (2):		
Committed	\$ 1,078,927	\$ 285,419
Uncommitted	<u>5,391,383</u>	<u>8,417,221</u>
	<u>\$ 6,470,310</u>	<u>\$ 8,702,640</u>
Fair value of assets securing repurchase agreements:		
Loans held for sale	\$ 3,139,870	\$ 8,629,861
Servicing advances (3)	\$ 381,379	\$ 232,107
Mortgage servicing rights (3)	\$ 5,339,513	\$ 3,552,812
Deposits (3)	\$ 12,277	\$ 36,632

- (1) Excludes the effect of amortization of debt issuance costs totaling \$12.9 million, \$19.4 million and \$15.3 million for the years ended December 31, 2022, 2021 and 2020, respectively.
- (2) The amount the Company is able to borrow under asset repurchase agreements is tied to the fair value of unencumbered assets eligible to secure those agreements and the Company's ability to fund the agreements' margin requirements relating to the assets financed. Certain of the debt financing agreements contain a condition precedent to obtaining additional funding that requires PLS to maintain positive net income for at least one of the previous two consecutive quarters.
- (3) Beneficial interests in the Ginnie Mae MSRs, servicing advances and deposits are pledged to the Issuer Trust and together serve as the collateral backing the VFN, GMSR Servicing Advance Notes, and the Term Notes described in Note 13 – *Long-Term Debt – Notes payable secured by mortgage servicing assets*. The VFN financing and the GMSR Servicing Advance Notes financing are included in *Assets sold under agreements to repurchase* and the Term Notes are included in *Notes payable secured by mortgage servicing assets* on the Company's consolidated balance sheets.

Following is a summary of maturities of outstanding advances under repurchase agreements by maturity date:

Remaining maturity at December 31, 2022 (1)	Unpaid principal balance
	(dollars in thousands)
Within 30 days	\$ 300,240
Over 30 to 90 days	2,221,473
Over 90 to 180 days	372,517
Over 180 days to one year	10,460
Over one year to two years	100,000
Total assets sold under agreements to repurchase	<u>\$ 3,004,690</u>
Weighted average maturity (in months)	3.0

- (1) The Company is subject to margin calls during the period the agreements are outstanding and therefore may be required to repay a portion of the borrowings before the respective agreements mature if the fair value (as determined by the applicable lender) of the assets securing those agreements decreases.

The amounts at risk (the fair value of the assets pledged plus the related margin deposits, less the amounts advanced by the counterparty and interest payable) relating to the Company's assets sold under agreements to repurchase are summarized by counterparty below as of December 31, 2022:

Counterparties	Amount at risk (in thousands)	Weighted average maturity of advances	Facility maturity
Credit Suisse First Boston Mortgage Capital LLC & Citibank, N.A. (1)	\$ 3,831,311	May 31, 2024	May 31, 2024
Credit Suisse First Boston Mortgage Capital LLC	\$ 75,634	March 1, 2023	May 31, 2024
Bank of America, N.A.	\$ 68,918	March 16, 2023	June 5, 2024
Royal Bank of Canada	\$ 19,895	April 12, 2023	December 14, 2023
JP Morgan Chase Bank, N.A. (EBO facility)	\$ 13,316	February 14, 2023	October 11, 2024
JP Morgan Chase Bank, N.A. (warehouse facility)	\$ 11,908	February 26, 2023	June 17, 2024
BNP Paribas	\$ 11,131	March 19, 2023	July 31, 2024
Wells Fargo Bank, N.A.	\$ 9,664	March 16, 2023	November 17, 2023
Morgan Stanley Bank, N.A.	\$ 8,310	March 6, 2023	January 3, 2024
Barclays Bank PLC	\$ 7,248	November 13, 2024	November 13, 2024
Goldman Sachs	\$ 4,326	March 19, 2023	December 23, 2023
Citibank, N.A.	\$ 1,657	February 12, 2023	April 26, 2024

- (1) The calculation of the amount at risk includes the VFN and the Term Notes because beneficial interests in the Ginnie Mae MSRs, Fannie Mae MSRs and servicing advances are pledged to the Issuer Trust and together serve as the collateral backing the VFN and the Term Notes described in *Notes payable secured by mortgage servicing assets* below. The VFN financing is included in *Assets sold under agreements to repurchase* and the Term Notes are included in *Notes payable secured by mortgage servicing assets* on the Company's consolidated balance sheets.

Mortgage Loan Participation Purchase and Sale Agreements

Certain of the borrowing facilities secured by mortgage loans held for sale are in the form of mortgage loan participation purchase and sale agreements. Participation certificates, each of which represents an undivided beneficial ownership interest in mortgage loans that have been pooled into Fannie Mae, Freddie Mac or Ginnie Mae securities, are sold to a lender pending the securitization of the mortgage loans and sale of the resulting securities which generally occurs within 30 days. A commitment to sell the securities resulting from the pending securitization between the Company and a non-affiliate is also assigned to the lender at the time a participation certificate is sold.

The purchase price paid by the lender for each participation certificate is based on the trade price of the security, plus an amount of interest expected to accrue on the security to its anticipated delivery date, minus a present value adjustment, any related hedging costs and a holdback amount that is based on a percentage of the purchase price. The holdback amount is not required to be paid to the Company until the settlement of the security and its delivery to the lender.

The mortgage loan participation purchase and sale agreements are summarized below:

	Year ended December 31,		
	2022	2021	2020
(dollars in thousands)			
Average balance	\$ 211,035	\$ 249,255	\$ 226,689
Weighted average interest rate (1)	3.16%	1.39%	1.88%
Total interest expense	\$ 7,314	\$ 4,153	\$ 4,933
Maximum daily amount outstanding	\$ 515,043	\$ 532,819	\$ 540,977

- (1) Excludes the effect of amortization of debt issuance costs totaling \$651,000, \$688,000 and \$662,000 for the years ended December 31, 2022, 2021 and 2020, respectively.

	December 31,	
	2022	2021
	(dollars in thousands)	
Carrying value:		
Unpaid principal balance	\$ 287,943	\$ 479,845
Unamortized debt issuance costs	<u>(351)</u>	—
	<u>\$ 287,592</u>	<u>\$ 479,845</u>
Weighted average interest rate	5.71%	1.48%
Fair value of loans pledged to secure mortgage loan participation purchase and sale agreements	\$ 302,977	\$ 505,716

Note 13—Long-Term Debt

Notes Payable Secured by Mortgage Servicing Assets

Term Notes

In connection with the GNMA MSR Facility, the Issuer Trust described in Note 4 – *Transactions with Affiliates—Transactions with PMT—Investing Activities* and Note 12—*Short-Term Borrowings—Assets Sold Under Agreements to Repurchase*, issued the GMSR GT1, the GMSR GT2 and the 2022 GT1 term notes (the “Term Notes”) to qualified institutional buyers under Rule 144A of the Securities Act of 1933, as amended (the “Securities Act”). The Term Notes are secured by participation certificates relating to Ginnie Mae mortgage servicing assets financed pursuant to the GNMA MSR Facility, and rank pari passu with the VFNs and the GMSR Servicing Advance Notes.

Following is a summary of the issued and outstanding Term Notes:

Issuance date	Principal balance (in thousands)	Annual interest rate			Stated maturity date (1)
		Index	Spread		
February 28, 2018	\$ 650,000	One-month LIBOR	2.85%		2/25/2023 ⁽²⁾
August 10, 2018	650,000	One-month LIBOR	2.65%		8/25/2023
June 3, 2022	<u>500,000</u>	SOFR	4.25%		5/25/2027
	<u><u>\$ 1,800,000</u></u>				

-
- (1) The Term Notes’ indentures provide the Company with the option to extend the maturity of the Term Notes by two years after the stated maturity.
- (2) In January 2023, the Company exercised its option to extend the maturity for two years.

MSR Note Payable

On December 16, 2022, the Company issued a note payable that is secured by Freddie Mac MSRs. Interest is charged at a rate based on SOFR plus a spread as defined in the agreement. The facility expires on November 13, 2024. The maximum amount that the Company may borrow under the note payable is \$400 million, \$350 million of which is committed and which may be reduced by other debt outstanding with the counterparty.

Notes payable secured by mortgage servicing assets are summarized below:

	Year ended December 31,		
	2022	2021	2020
	(dollars in thousands)		
Average balance	\$ 1,584,383	\$ 1,300,000	\$ 1,300,000
Weighted average interest rate (1)	4.88%	2.89%	3.42%
Total interest expense	\$ 79,813	\$ 39,782	\$ 46,222

(1) Excludes the effect of amortization of debt issuance costs totaling \$2.5 million, \$2.2 million and \$1.8 million for the years ended December 31, 2022, 2021 and 2020, respectively.

	December 31,

Term Notes	\$ 1,800,000	\$ 1,300,000
MSR Note Payable	150,000	—
	1,950,000	1,300,000
Unamortized debt issuance costs	(7,354)	(2,378)
	\$ 1,942,646	\$ 1,297,622
Weighted average interest rate	7.46%	2.84%
Assets pledged to secure notes payable (1):		
Servicing advances	\$ 381,379	\$ 232,107
Mortgage servicing rights	5,897,613	3,856,791
Deposits	\$ 12,277	\$ 36,632

(1) Beneficial interests in the Ginnie Mae MSRs, servicing advances and deposits are pledged to the Issuer Trust and together serve as the collateral for the VFN, the GMSR Servicing Advance Notes and any outstanding Term Notes. The VFN financing and the GMSR Servicing Advance Notes financing are included in *Assets sold under agreements to repurchase* and the Term Notes are included in *Notes payable secured by mortgage servicing assets* on the Company's consolidated balance sheets.

Unsecured Senior Notes

The Company issued unsecured senior notes (the “Unsecured Notes”) to qualified institutional buyers under Rule 144A of the Securities Act. The Unsecured Notes are senior unsecured obligations of the Company and will rank senior in right of payment to any future subordinated indebtedness of the Company, equally in right of payment with all existing and future senior indebtedness of the Company and effectively subordinated to any existing and future secured indebtedness of the Company to the extent of the fair value of collateral securing such indebtedness.

The Unsecured Notes are fully and unconditionally guaranteed, jointly and severally, on a senior unsecured basis by PFSI’s existing and future wholly-owned domestic subsidiaries (other than certain excluded subsidiaries defined in the indenture under which the Unsecured Notes were issued). The guarantees are senior unsecured obligations of the guarantors and will rank senior in right of payment to any future subordinated indebtedness of the guarantors, equally in right of payment with all existing and future senior indebtedness of the guarantors and effectively subordinated to any existing and future secured indebtedness of the guarantors to the extent of the fair value of collateral securing such indebtedness. The Unsecured Notes and the guarantees are structurally subordinated to the indebtedness and liabilities of the Company’s subsidiaries that do not guarantee the Unsecured Notes.

Following is a summary of the Company's issued and outstanding Unsecured Notes:

Issuance date	Principal balance (in thousands)	Coupon interest rate (annual)	Maturity date	Optional redemption date (1)
September 29, 2020	\$ 500,000	5.38%	October 15, 2025	October 15, 2022
October 19, 2020	150,000	5.38%	October 15, 2025	October 15, 2022
February 11, 2021	650,000	4.25%	February 15, 2029	February 15, 2024
September 16, 2021	<u>500,000</u>	5.75%	September 15, 2031	September 15, 2026
	<u>\$ 1,800,000</u>			

- (1) Before the optional redemption date, the Company may redeem some or all of the Unsecured Notes for that issuance at a price equal to 100% of the principal amount, plus accrued and unpaid interest and a make-whole premium or the Company may redeem up to 40% of the Unsecured Notes for that issuance with an amount equal to or less than the net proceeds from certain equity offerings at the redemption price set forth in the indenture, plus accrued and unpaid interest. On or after the optional redemption date, the Company may redeem some or all of the Unsecured Notes for that issuance at the redemption prices set forth in the indenture, plus accrued and unpaid interest.

	Year ended December 31,		
	2022	2021	2020
	(dollars in thousands)

Weighted average interest rate	2.11%
Assets pledged to secure obligations under capital lease:	
Capitalized software	\$ 4,546
Furniture, fixtures and equipment	\$ 4,116

Maturities of Long-Term Debt

Maturities of long-term debt obligations (based on final maturity dates) are as follows:

	Year ended December 31,						Total
	2023	2024	2025	2026	2027	Thereafter	
	(in thousands)						
Notes payable secured by							
mortgage servicing assets (1)	\$ 1,300,000	\$ 150,000	\$ —	\$ —	\$ 500,000	\$ —	\$ 1,950,000
Unsecured senior notes	—	—	650,000	—	—	1,150,000	1,800,000
Total	\$ 1,300,000	\$ 150,000	\$ 650,000	\$ —	\$ 500,000	\$ 1,150,000	\$ 3,750,000

- (1) The Term Notes' indentures provide the Company with the option to extend the maturity of the Term Notes by two years after their stated maturities. In January 2023, the Company exercised its option to extend the maturity of \$650 million Term Notes originally due on February 25, 2023 for two years.

Note 14—Liability for Losses Under Representations and Warranties

Following is a summary of the Company's liability for losses under representations and warranties:

	Year ended December 31,		
	2022	2021 (in thousands)	2020
Balance at beginning of year	\$ 43,521	\$ 32,688	\$ 21,446
Provision for losses:			
Resulting from sales of loans	9,617	31,590	21,035
Resulting from change in estimate	(8,451)	(16,037)	(8,667)
Losses incurred	(12,266)	(4,720)	(1,126)
Balance at end of year	\$ 32,421	\$ 43,521	\$ 32,688
Unpaid principal balance of loans subject to representations and warranties at end of year	\$ 296,774,121	\$ 257,369,777	\$ 210,222,447

Note 15—Income Taxes

The Company files U.S. federal and state corporate income tax returns for PFSI and partnership returns for PNMAC. The Company's federal tax returns are subject to examination for 2019 and forward and its state tax returns are generally subject to examination for 2018 and forward. PNMAC's federal partnership returns are subject to examination for 2019 and forward, and its state tax returns are generally subject to examination for 2018 and forward. The returns of both PFSI and PNMAC are under an examination by New York State for years 2019 and 2020, and the returns of PFSI are in the initial stages of an examination by the state of South Carolina for years 2019, 2020 and 2021. The Company does not expect any material changes from these examinations.

The following table details the Company's provision for income taxes:

	Year ended December 31,		
	2022	2021	2020
	(in thousands)		
Current (benefit) expense:			
Federal	\$ (2,944)	\$ 101,659	\$ 378,984
State	(249)	39,551	128,495
Total current (benefit) expense	(3,193)	141,210	507,479
Deferred expense:			
Federal	131,670	160,587	61,592
State	61,263	53,896	24,654
Total deferred expense	192,933	214,483	86,246
Total provision for income taxes	<u>\$ 189,740</u>	<u>\$ 355,693</u>	<u>\$ 593,725</u>

The following table is a reconciliation of the Company's provision for income taxes at statutory rates to the provision for income taxes at the Company's effective tax rate:

	Year ended December 31,		
	2022	2021	2020
Federal income tax statutory rate	21.0%	21.0%	21.0%
State income taxes, net of federal benefit	5.9%	5.4%	5.5%
Tax rate revaluation	1.2%	0.0%	(0.1)%
Other	0.4%	(0.2)%	0.1%
Effective income tax rate	<u>28.5%</u>	<u>26.2%</u>	<u>26.5%</u>

The components of the Company's provision for deferred income taxes are as follows:

	Year ended December 31,		
	2022	2021	2020
	(in thousands)		
Mortgage servicing rights	\$ 326,378	\$ 196,697	\$ 128,471
Net operating loss	(160,605)	—	581
Reserves and losses	13,480	15,736	(33,477)
Compensation accruals	10,473	(11,456)	(647)
Additional tax basis in partnership from exchanges of partnership units into the Company's common stock	4,517	4,420	5,200
California franchise taxes	4,447	10,753	(15,200)
Tax credits	—	50	—
Other	(5,757)	(1,717)	1,318
Total provision for deferred income taxes	<u>\$ 192,933</u>	<u>\$ 214,483</u>	<u>\$ 86,246</u>

The components of *Income taxes payable* are as follows:

	December 31,	
	2022	2021
	(in thousands)	
Current income tax receivable	\$ (1,993)	\$ (126,542)
Deferred income tax liability, net	<u>1,004,737</u>	<u>811,804</u>
Income taxes payable	<u>\$ 1,002,744</u>	<u>\$ 685,262</u>

The tax effects of temporary differences that gave rise to deferred income tax assets and liabilities are presented below:

	December 31,	
	2022	2021
	(in thousands)	
Deferred income tax assets:		
Net operating loss carryforward	\$ 161,682	\$ 1,077
Compensation accruals	42,668	53,141
Additional tax basis in partnership from exchanges of partnership units into the Company's common stock	25,760	30,277
Reserves and losses	33,795	47,275
California franchise tax	—	4,447
Other	<u>6,159</u>	<u>5,661</u>
Gross deferred income tax assets	<u>270,064</u>	<u>141,878</u>
Deferred income tax liabilities:		
Mortgage servicing rights	1,260,181	933,803
Other	<u>14,620</u>	<u>19,879</u>
Gross deferred income tax liabilities	<u>1,274,801</u>	<u>953,682</u>
Net deferred income tax liability	<u>\$ 1,004,737</u>	<u>\$ 811,804</u>

The Company recorded a deferred tax asset of \$161.7 million, of which \$160.6 million related to net operating losses incurred in 2022 and \$1.1 million related to net operating losses incurred in 2018. The \$126.1 million related to federal net operating loss carry forward has no expiration date but is subject to an annual utilization limitation of up to 80% of taxable income. The remaining \$35.6 million in deferred tax assets, relating to state net operating losses, either have no expiration date or expire by 2042. The Company expects to fully utilize these net operating losses before their expiration dates.

At December 31, 2022 and 2021, the Company had no unrecognized tax benefits and does not anticipate any unrecognized tax benefits. Should the recognition of any interest or penalties relative to unrecognized tax benefits be necessary, it is the Company's policy to record such expenses in the Company's income tax accounts. No such accruals existed at December 31, 2022 and 2021.

Note 16—Commitments and Contingencies

Commitments to Purchase and Fund Loans

The Company's commitments to purchase and fund loans totaled \$7.0 billion as of December 31, 2022.

Legal Proceedings

From time to time, the Company may be involved in various claims, investigations, lawsuits and other legal proceedings in the ordinary course of its business. The amount, if any, of ultimate liability with respect to such matters cannot be determined, but despite the inherent uncertainties of litigation, management believes that the ultimate disposition of any such proceedings and exposure will not have, individually or taken together, a material adverse effect on the financial condition, income, or cash flows of the Company.

Litigation

On November 5, 2019, Black Knight Servicing Technologies, LLC, a wholly-owned indirect subsidiary of Black Knight, Inc. (“BKI”), filed a Complaint and Demand for Jury Trial in the Fourth Judicial Circuit Court in and for Duval County, Florida (the “Florida State Court”), captioned *Black Knight Servicing Technologies, LLC v. PennyMac Loan Services, LLC*, Case No. 2019-CA-007908 (the “BKI Complaint”). Allegations contained within the BKI Complaint include breach of contract and misappropriation of MSP® System trade secrets in order to develop an imitation mortgage-processing system intended to replace the MSP® System.

The BKI Complaint seeks damages for breach of contract and misappropriation of trade secrets, injunctive relief under the Florida Uniform Trade Secrets Act and declaratory judgment of ownership of all intellectual property and software developed by or on behalf of PLS as a result of its wrongful use of and access to the MSP® System and related trade secret and confidential information. On March 30, 2020, the Florida State Court granted a motion to compel arbitration filed by PLS. While no assurance can be provided as to the ultimate outcome of this claim or the account of any losses to the Company, the Company believes the BKI Complaint is without merit and plans to vigorously defend the matter, which remains pending.

Regulatory Matters

The Company and/or its subsidiaries are subject to various state and federal regulations related to its loan production and servicing operations by the various states it operates in as well as federal agencies such as the Consumer Financial Protection Bureau (“CFPB”), HUD, and the FHA and is subject to the requirements of the Agencies to which it sells loans and for which it performs loan servicing activities. As a result, the Company may become involved in information-gathering requests, reviews, investigations and proceedings (both formal and informal) by such various federal, state and local regulatory bodies.

On January 7, 2021, PLS received a letter from the CFPB notifying PLS that, in accordance with the CFPB’s discretionary Notice and Opportunity to Respond and Advise (“NORA”) process, the CFPB’s Office of Enforcement was considering recommending that the CFPB take legal action against PLS for alleged violations of the Real Estate Settlement Procedures Act and Truth in Lending Act. The CFPB’s examination covered the period from March 2015 through September 2016. Should the CFPB commence an action, it may seek restitution, civil monetary penalties, injunctive relief, or other corrective action, the extent of which remains uncertain at this time. Notably, certain of the alleged violations were originally self-identified by PLS and remediated before the CFPB’s examination, and all alleged violations were fully remediated as of August 2017. PLS confirmed these remediation actions as well as full restitution to any affected borrowers in its response to the NORA letter submitted on February 8, 2021. While the NORA process remains open and pending at this time, and there can be no assurance as to the nature or extent of any actions taken by the CFPB with regard to these alleged violations, the Company does not believe that the ultimate resolution of this matter will have a material adverse effect on its financial statements or operations.

Cessation of the LIBOR Index

The Company historically used a LIBOR index to establish the applicable interest rates in lending and financing transactions. One-week and two-month United States Dollar LIBOR rates were discontinued in 2022 and non-U.S. dollar LIBOR settings cease to be representative. The Company has serviced LIBOR-based adjustable rate mortgages and other financial arrangements that may incorporate fallback provisions or replacement provisions related to the LIBOR transition.

The discontinuation of LIBOR could affect the Company's interest expense and earnings, cost of capital, and the fair value of certain of the assets and the instruments PFSI uses to hedge their fair values. Furthermore, the transition away from widely used benchmark rates like LIBOR could result in customers or other market participants challenging the determination of their interest or dividend payments, disputing the interpretations or implementation of contract or instrument "fallback" provisions and other transition related changes.

Note 17—Stockholders' Equity

In August 2021, the Company's board of directors approved an increase to the Company's common stock repurchase program from \$1 billion to \$2 billion.

The following table summarizes the Company's stock repurchase activity:

	Year ended December 31,			Cumulative total (1)
	2022	2021	2020	
(in thousands)				
Shares of common stock repurchased	7,788	15,368	8,890	32,862
Cost of shares of common stock repurchased	\$ 406,086	\$ 958,194	\$ 337,479	\$ 1,716,707

(1) Amounts represent the total shares of common stock repurchased under the stock repurchase program through December 31, 2022.

The shares of repurchased common stock were canceled upon settlement of the repurchase transactions.

Note 18—Net Gains on Loans Held for Sale

Net gains on mortgage loans held for sale at fair value are summarized below:

	Year ended December 31,		
	2022	2021 (in thousands)	2020
From non-affiliates:			
Cash (losses) gains:			
Loans	\$ (2,128,195)	\$ 600,840	\$ 2,025,260

	<u>\$ 791,633</u>	<u>\$ 2,464,401</u>	<u>\$ 2,740,785</u>

(1) Gains on sales of loans to PMT are described in Note 4—*Transactions with Affiliates*.

Note 19—Net Interest Expense

Net interest expense is summarized below:

	Year ended December 31,		
	2022	2021	2020
	(in thousands)		
Interest income:			
From non-affiliates:			
Cash and short-term investments	\$ 19,839	\$ 3,280	\$ 6,154
Loans held for sale at fair value	172,124	275,176	184,789
Placement fees relating to custodial funds	102,099	21,326	52,758
	<u>294,062</u>	<u>299,782</u>	<u>243,701</u>
From PennyMac Mortgage Investment Trust— <i>Assets purchased from PennyMac Mortgage Investment Trust under agreements to resell</i>	—	387	3,325
	<u>294,062</u>	<u>300,169</u>	<u>247,026</u>
Interest expense:			
To non-affiliates:			
Assets sold under agreements to repurchase	105,459	164,132	112,778
Mortgage loan participation purchase and sale agreements	7,314	4,153	4,933
Notes payable secured by mortgage servicing assets	79,813	39,782	46,222
Unsecured senior notes	95,014	70,208	8,774
Obligations under capital lease	20	169	425
Corporate revolving line of credit	—	—	1,537
Interest shortfall on repayments of mortgage loans serviced for Agency securitizations	40,741	105,430	82,285
Interest on mortgage loan impound deposits	7,066	5,545	6,179
	<u>335,427</u>	<u>389,419</u>	<u>263,133</u>
To PennyMac Mortgage Investment Trust— <i>Excess servicing spread financing at fair value</i>	—	1,280	8,418
	<u>335,427</u>	<u>390,699</u>	<u>271,551</u>
	<u><u>\$ (41,365)</u></u>	<u><u>\$ (90,530)</u></u>	<u><u>\$ (24,525)</u></u>

Note 20—Stock-based Compensation

The Company has adopted equity incentive plans that provide for grants of stock options, time-based and performance-based restricted stock units (“RSUs”), stock appreciation rights, performance units and stock grants. As of December 31, 2022, the Company has 4.6 million units available for future awards.

Following is a summary of the stock-based compensation expense by instrument awarded:

	Year ended December 31,		
	2022	2021	2020
	(in thousands)		
Performance-based RSUs			
Performance-based RSUs	\$ 18,096	\$ 23,166	\$ 20,610
Time-based RSUs	14,837	10,184	9,515
Stock options	9,619	4,444	14,980
	<u>\$ 42,552</u>	<u>\$ 37,794</u>	<u>\$ 45,105</u>
<i>Performance-Based RSUs</i>			

The performance based RSUs provide for the issuance of shares of the Company’s common stock based on the achievement of performance goals and job performance ratings. Approximately 612,000 shares under the grants with performance periods ending December 31, 2022 are expected to vest and be issued to the grantees in the first quarter of 2023.

The fair value of the performance-based RSUs is measured based on the fair value of the Company's common stock at the grant date, taking into consideration management's estimate of the expected outcome of the performance goal, and the number of shares to be forfeited during the vesting period. The Company assumes forfeiture rates of 0 – 20.3% per year based on the grantees' employee classification. The actual number of shares that vest could vary from zero, if the performance goals are not met, to as much as 187.5% of the units granted, if the performance goals are meaningfully exceeded.

The table below summarizes performance-based RSU activity:

	Year ended December 31,		
	2022	2021	2020
	(in thousands, except per unit amounts)		
Number of units:			
Outstanding at beginning of year	1,226	1,583	1,807
Granted	342	310	440
Vested (1)	(509)	(634)	(645)
Forfeited or cancelled	(83)	(33)	(19)
Outstanding at end of year	<u>976</u>	<u>1,226</u>	<u>1,583</u>
Weighted average grant date fair value per unit:			
Outstanding at beginning of year	\$ 36.12	\$ 27.02	\$ 21.67
Granted	\$ 57.10	\$ 58.85	\$ 35.95
Vested	\$ 23.40	\$ 24.47	\$ 18.16
Forfeited	\$ 49.14	\$ 36.91	\$ 26.71
Outstanding at end of year	\$ 48.94	\$ 36.12	\$ 27.02

- (1) The actual number of performance-based RSUs vested during the years ended December 31, 2022, 2021 and 2020 was 654,000, 781,000 and 608,000 shares, respectively, which is approximately 128%, 123% and 94% of the 509,000, 634,000 and 645,000 originally granted units, respectively, due to the performance varying from the established target for the respective grant.

Following is a summary of performance-based RSUs as of December 31, 2022:

Unamortized compensation cost (in thousands)	\$ 12,021
Number of shares expected to vest (in thousands)	908
Weighted average remaining vesting period (in months)	11

Time-Based RSUs

The RSU grant agreements provide for the award of time-based RSUs, entitling the award recipient to one share of the Company's common stock for each RSU. In general, and except as otherwise provided by the agreement, one-third of the time-based RSUs vest on each of the first, second, and third anniversaries of the grant date, subject to the recipient's continued service through each anniversary.

Compensation cost relating to time-based RSUs is based on the grant date fair value of the Company's common stock and the number of shares expected to vest. For purposes of estimating the cost of the time-based RSUs granted, the Company assumes forfeiture rates of 0% – 20.3% per year based on the grantees' employee classification.

The table below summarizes time-based RSU activity:

	Year ended December 31,		
	2022	2021	2020
	(in thousands, except per unit amounts)		
Number of units:			
Outstanding at beginning of year	434	587	642
Granted	331	173	311
Vested	(246)	(312)	(357)
Forfeited	(36)	(14)	(9)
Outstanding at end of year	483	434	587
Weighted average grant date fair value per unit:			
Outstanding at beginning of year	\$ 41.74	\$ 29.37	\$ 22.40
Granted	\$ 57.10	\$ 58.90	\$ 34.98
Vested	\$ 37.34	\$ 28.08	\$ 21.75
Forfeited	\$ 51.97	\$ 39.48	\$ 28.14
Outstanding at end of year	\$ 53.71	\$ 41.74	\$ 29.37

Following is a summary of RSUs as of December 31, 2022:

Unamortized compensation cost (in thousands)	\$ 7,214
Number of units expected to vest (in thousands)	460
Weighted average remaining vesting period (in months)	10

Stock Options

The stock option award agreements provide for the award of stock options to purchase the optioned common stock. In general, and except as otherwise provided by the agreement, one-third of the stock option awards vests on each of the first, second, and third anniversaries of the grant date, subject to the recipient's continued service through each anniversary.

During the year ended December 31, 2020, the Company awarded approximately 604,000 shares of stock options that vested on the grant date with a term of ten years from the date of grant, subject to certain transfer restrictions.

Each stock option has a term of ten years from the date of grant but expires (1) immediately upon termination of the holder's employment or other association with the Company for cause, (2) one year after the holder's employment or other association is terminated due to death or disability and (3) three months after the holder's employment or other association is terminated for any other reason.

The fair value of each stock option award is estimated on the date of grant using a variant of the Black Scholes model based on the following inputs:

	Year ended December 31,		
	2022	2021	2020
Expected volatility (1)	37%	38%	34%
Expected dividends	1.4%	1.4%	1.4%
Risk-free interest rate	1.1% - 2.1%	0.1% - 1.7%	0.1% - 1.5%
Expected grantee forfeiture rate	0% - 5.1%	0% - 6.7%	0% - 6.7%

(1) Based on historical volatilities of the Company's common stock.

The Company uses its historical employee departure behavior to estimate the grantee forfeiture rates used in its option-pricing model. The expected term of common stock options granted is derived from the Company's option pricing model and represents the period that common stock options granted are expected to be outstanding. The risk-free interest rate for periods within the contractual term of the common stock option is based on the U.S. Treasury yield curve in effect at the time of grant.

The table below summarizes stock option award activity:

	Year ended December 31,		
	2022	2021	2020
	(in thousands, except per option amounts)		
Number of stock options:			
Outstanding at beginning of year	3,906	4,040	3,699
Granted	574	249	876
Exercised	(155)	(377)	(530)
Forfeited	(8)	(6)	(5)
Outstanding at end of year	<u>4,317</u>	<u>3,906</u>	<u>4,040</u>
Weighted average exercise price per option:			
Outstanding at beginning of year	\$ 28.43	\$ 28.01	\$ 18.40
Granted	\$ 57.10	\$ 58.85	\$ 52.00
Exercised	\$ 21.09	\$ 19.96	\$ 17.72
Forfeited	\$ 53.10	\$ 39.52	\$ 20.61
Outstanding at end of year	\$ 32.46	\$ 28.43	\$ 28.01

Following is a summary of stock options as of December 31, 2022:

Number of options exercisable at end of year (in thousands)	3,488
Weighted average exercise price per exercisable option	\$ 27.09
Weighted average remaining contractual term (in years):	
Outstanding	5.2
Exercisable	4.4
Aggregate intrinsic value:	
Outstanding (in thousands)	\$ 107,080
Exercisable (in thousands)	\$ 105,114
Expected vesting amounts:	
Number of options expected to vest (in thousands)	825
Weighted average vesting period (in months)	11

Note 21—Earnings Per Share of Common Stock

Basic earnings per share of common stock is determined by dividing net income by the weighted average number of shares of common stock outstanding during the year. Diluted earnings per share of common stock is determined by dividing net income by the weighted average number of shares of common stock and dilutive securities outstanding.

The Company's potentially dilutive securities are stock-based compensation awards. The Company applies the treasury stock method to determine the diluted weighted average number of shares of common stock outstanding based on the outstanding stock-based compensation awards.

The following table summarizes the basic and diluted earnings per share calculations:

	Year ended December 31,		
	2022	2021	2020
(in thousands, except per share amounts)			
Net income	\$ 475,507	\$ 1,003,490	\$ 1,646,884
Weighted average shares of common stock outstanding	53,065	63,799	75,161
Effect of dilutive securities - shares issuable under stock-based compensation plan	2,885	3,672	3,567
Weighted average diluted shares of common stock outstanding	<u>55,950</u>	<u>67,471</u>	<u>78,728</u>
Basic earnings per share	\$ 8.96	\$ 15.73	\$ 21.91
Diluted earnings per share	\$ 8.50	\$ 14.87	\$ 20.92

Calculations of diluted earnings per share require certain potentially dilutive shares to be excluded when their inclusion in the diluted earnings per share calculation would be anti-dilutive. The following table summarizes the weighted-average number of anti-dilutive outstanding performance-based RSUs, time-based RSUs and stock options excluded from the calculation of diluted earnings per share:

	Year ended December 31,		
	2022	2021	2020
(in thousands except for weighted average exercise price)			
Performance-based RSUs (1)	281	223	322
Time-based RSUs	62	1	—
Stock options (2)	1,339	211	83
Total anti-dilutive units and options	<u>1,682</u>	<u>435</u>	<u>405</u>
Weighted average exercise price of anti-dilutive stock options (2)	\$ 58.58	\$ 58.85	\$ 43.89

-
- (1) Certain performance-based RSUs were outstanding but not included in the computation of earnings per share because the performance thresholds included in such RSUs have not been achieved.
 - (2) Certain stock options were outstanding but not included in the computation of diluted earnings per share because the weighted-average exercise prices were above the average stock price for the year.

Note 22—Regulatory Capital and Liquidity Requirements

The Company, through PLS, is required to maintain specified levels of capital and liquidity to remain a seller/servicer in good standing with the Agencies. Such capital and liquid asset requirements generally are tied to the size of the Company's loan servicing portfolio, loan origination volume and delinquency rates.

PLS is subject to financial eligibility requirements established by the Federal Housing Finance Agency ("FHFA") for sellers/servicers eligible to sell or service mortgage loans with Fannie Mae and Freddie Mac. The eligibility requirements include:

- tangible net worth of \$2.5 million plus 25 basis points of the UPB of the Company's total 1-4 unit servicing portfolio, excluding mortgage loans subserviced for others;
- a liquidity requirement equal to 3.5 basis points of the aggregate UPB serviced for the Agencies plus 200 basis points of total nonperforming Agency servicing UPB less 70% of such nonperforming Agency servicing UPB in excess of 600 basis points where the underlying loans are in COVID-19 forbearance but were current at the time they entered forbearance.

PLS is also subject to financial eligibility requirements for Ginnie Mae single-family issuers. The eligibility requirements include net worth of \$2.5 million plus 35 basis points of PLS' outstanding Ginnie Mae single-family obligations and a liquidity requirement equal to the greater of \$1.0 million or 10 basis points of PLS' outstanding Ginnie Mae single-family securities.

The Agencies' capital and liquidity requirements, the calculations of which are specified by each Agency, are summarized below:

Requirement/Agency	December 31, 2022		December 31, 2021	
	Actual (1)	Requirement (1) (dollars in thousands)	Actual (1)	Requirement (1)
Capital				
Fannie Mae & Freddie Mac	\$ 6,632,627	\$ 797,748	\$ 5,872,064	\$ 722,040
Ginnie Mae	\$ 5,899,892	\$ 923,202	\$ 5,424,747	\$ 976,303
HUD	\$ 5,899,892	\$ 2,500	\$ 5,424,747	\$ 2,500
Liquidity				
Fannie Mae & Freddie Mac	\$ 1,265,569	\$ 107,768	\$ 316,659	\$ 93,973
Ginnie Mae	\$ 1,265,569	\$ 246,953	\$ 316,659	\$ 220,577
Adjusted net worth / Total assets ratio				
Ginnie Mae	35 %	6 %	29 %	6 %
Tangible net worth / Total assets ratio				
Fannie Mae & Freddie Mac	39 %	6 %	32 %	6 %

(1) Calculated in compliance with the respective Agency's requirements.

In August 2022, the Agencies issued revised capital and liquidity requirements. The requirements will be effective at various dates beginning September 30, 2023, for issuers of securities guaranteed by Ginnie Mae and seller/servicers of mortgage loans to Fannie Mae and Freddie Mac. The Company believes it is in compliance with Agencies' revised requirements as of December 31, 2022.

Noncompliance with an Agency's requirements can result in such Agency taking various remedial actions up to and including terminating PLS's ability to sell loans to and service loans on behalf of the respective Agency.

Note 23—Segments

The Company operates in three segments: production, servicing and investment management.

Two of the segments are in the mortgage banking business: production and servicing. The production segment performs loan origination, acquisition and sale activities. The servicing segment performs servicing of loans on behalf of PMT and non-affiliate investors, execution and management of early buyout transactions and servicing of loans sourced and managed by the investment management segment for PMT.

The investment management segment represents the activities of the Company's investment manager, which include sourcing, performing diligence, bidding and closing investment asset acquisitions, managing the acquired assets and correspondent production activities for PMT.

Financial performance and results by segment are as follows:

Note 24—Parent Company Information

The Company's debt financing agreements require PLS, the Company's indirect controlled subsidiary, to comply with financial covenants that include a minimum tangible net worth of \$500 million. PLS is limited from transferring funds to the Parent by this minimum tangible net worth requirement. The Company's Unsecured Notes are fully and unconditionally guaranteed, jointly and severally, on a senior unsecured basis by the Company's existing and future wholly-owned domestic subsidiaries (other than certain excluded subsidiaries defined in the indentures under which the Unsecured Notes were issued).

Note 25—Subsequent Events

Management has evaluated all events and transactions through the date the Company issued these consolidated financial statements. During this period:

- On January 31, 2023, the Company's board of directors declared a cash dividend of \$0.20 per common share. The dividend will be paid on February 24, 2023 to common stockholders of record as of February 14, 2023.
- In January 2023, the Company exercised its option to extend the maturity of \$650 million of Term Notes secured by Ginnie Mae MSRs originally due in February 2023 for two years.
- On February 7, 2023, the Company, through the Issuer Trust, PLS and PNMAC entered into two new variable funding note repurchase agreements, as part of the structured finance transaction that PLS uses to finance Ginnie Mae mortgage servicing rights and related excess servicing spread and servicing advance receivables.
- All agreements to repurchase assets that matured before the date of this Report were extended or renewed.

SIGNATURES
